Wisdom Of The Ancient Seers Mantras Of The Rig Veda:

Wisdom of the Ancient Seers David Frawley, 2019-01-01 The Rig Veda is not only one of the oldest sacred scriptures of the world but also one of the most misunderstood. Past scholarship has dismissed the hymns of the Rig Veda as being expressions of a primitive animistic mentality that only rarely rose to true spiritual and philosophical heights. David Frawley's book demonstrates that this judgmental view is ill founded. His fine renderings of select Vedic hymns bear witness to the fact that their composers were sages and seers, powerful poets who knew the art of symbolic and metaphoric communication. The Vedic hymns give us a unique glimpse not into a primitive mentality but a mentality and culture that revolved around the highest spiritual values and visions. This is an important and riveting book ushering in a new and sounder tradition of Vedic interpretation and scholarship. [The Oracle of Rama](#) David Frawley, 2001 The Oracle of Rama shows us how we can make karmically appropriate choices so that we can live a life of joy and fulfillment, states Deepak Chopra. The Oracle of Rama is perhaps the greatest oracle of India as well as one of the simplest and easiest to use. The Oracle of Rama uses the insights of Tulsidas, one of the greatest seers of the Vedic traditions, to unlock the secrets of the realm of unmanifest intelligence and open up for us all the creative potentials of the universe. Deepak Chopra *Songs of the Saints from the Adi Granth*, 2000-10-19 An accessible translation of the songs of the saints from the Adi Granth, the Sikh holy book. [Yoga, Karma, and Rebirth](#) Stephen Phillips, 2009-06-26 For serious yoga practitioners curious to know the ancient origins of the art, Phillips lays out the philosophy of action, knowledge and devotion as well as the processes of meditation, reasoning and self analysis that formed the basis of yoga in ancient and classical India. **In Search of the Cradle of Civilization** Georg Feuerstein, Subhash Kak, David Frawley, 2005-01-01 The book shows that the ancient Indians were no primitives but possessed a high spiritual culture which not only influenced the evolution of the Western world in decisive ways but which still has much to teach us today. India's archaic spirituality is codified in the rich symbols, metaphors and myths of the magnificent Rig Veda which is shown to be much older than has been widely assumed by scholars. The present book also unravels the astonishing mathematical and astronomical code hidden in the Vedic hymns. Anyone interested in ancient cultural history, India, archaeo astronomy or spirituality will find this well researched and cross cultural work spellbinding and

S. Rathore, Anil, 2025-08-12 Step into the cathedral of modern commerce The air is electric with the dialect of disruption, the litanies of lean startups and the fervent prayers for a billion-dollar valuation The high priests of venture capital preach from the gospel of growth while founders and their teams make daily offerings at the altar of the algorithm Our sacred texts are pitch decks, our mantras are Key Performance Indicators and our ultimate salvation is a successful exit This is the world of the 21st-century entrepreneur, a world of breathtaking velocity, dazzling intellectual power and ferocious world-shaping ambition And yet within these gleaming walls a quiet heresy is spreading It is a feeling, a deep and unsettling ache that persists even after the funding round is closed or the growth targets are met It is the modern entrepreneur's dilemma We build ventures designed to connect the world only to feel more isolated ourselves We create platforms to save people time only to find our own lives consumed by them We are celebrated for our grit and our hustle but privately we confess to an overwhelming sense of sophisticated exhaustion Burnout is no longer a risk; it has become a rite of passage Ethical compromises once seen as shocking betrayals are now quietly rationalized as the necessary cost of competition We are masters of the how but we have become tragically estranged from the why This is more than just a personal crisis for a few overworked founders It is a systemic failure The operating model that has powered global capitalism for the last century, a model built on the singular, unwavering pursuit of shareholder value, is proving itself profoundly insufficient for holistic success It is a paradigm that in its relentless drive to extract financial value has systematically externalized its true costs onto its other stakeholders The environment bears the cost of our resource depletion The community bears the cost of our social dislocation Our employees

bear the cost of our unsustainable work cultures And we the entrepreneurs bear the cost in our own depleted souls The engine is powerful but it is running on the wrong fuel and it is filling the air with a toxic smog of purpose fatigue The call for a new paradigm is no longer a gentle whisper it is a deafening roar This book is an answer to that call It proposes that the blueprint for a more conscious sustainable and fulfilling form of enterprise does not lie in the next tech trend or management fad It lies waiting to be rediscovered in one of the most ancient and profound sources of human wisdom the Vaidik tradition of India Let us be clear from the outset this is not a book about religion It is a book about philosophy It is not an attempt to advocate for any dogma or ritual but to engage with the Vedas and their philosophical offshoots the Upanishads the Bhagavad Gita the Yoga Sutras as a timeless and universal framework for conscious creation The root of the word Veda is Vid which means to know The Vaidik tradition is at its core a science of knowledge both of the outer world and most importantly the inner world Vaidik Entrepreneurship as we will explore it is a practical methodology for building ventures that are simultaneously prosperous purposeful and deeply aligned with the natural order of things It is a system that integrates the pursuit of material success with the quest for spiritual and ethical fulfillment It offers a set of powerful time tested principles that provide a stable inner compass for navigating the chaotic outer world of the modern market It is a path that honors the full spectrum of human life refusing to sacrifice our well being our values or our planet for the sake of a narrowly defined profit This book is designed to be your guide on a transformative journey It will take you from the highest peaks of ancient philosophy to the most practical on the ground realities of running your business Our journey will be structured in three parts First we will lay the philosophical bedrock We will reframe the Vedas as a source of universal knowledge not just ritual We will introduce the core concepts of Ritam the cosmic harmony that a successful venture must align with and the Rishi the archetypal seer who serves as our model for the conscious innovator We will then construct a new holistic scorecard for success based on the four Purusharthas the legitimate aims of a human life Purpose Dharma Prosperity Artha Delight Kama and Legacy Moksha Next we will delve into the Vaidik Entrepreneur's Playbook translating these profound ideas into actionable strategy We will begin with the sacred inner work of discovering your Svadharma your authentic niche ensuring the business you build is a true expression of who you are We will re imagine your venture not as a machine but as a Yajna a sacred offering and your products as Prasad a blessed gift to your community We will explore the three Gunas as a powerful framework for building a balanced and harmonious team and we will learn the art of Karma Yoga the path of detached action that builds unshakeable resilience in a leader Finally we will bring this ancient wisdom firmly into the 21st century We will expand our vision to embrace our global responsibility through the principles of Loka Sangraha for the welfare of the world and Vasudhaiva Kutumbakam the world is one family We will build a new practical dashboard for measuring what truly matters moving beyond a narrow ROI to a holistic assessment of your venture's health We will look at real world case studies and crucially we will confront the most difficult challenges and criticisms of this path head on This book is an invitation It is

an invitation to step beyond the hustle culture and to begin a search for a deeper meaning in your work It is a promise that you do not have to choose between success and significance between wealth and well being It offers a map and a compass to a different way a way to build a venture that not only succeeds in the world but also enriches it a venture that not only scales but also has a soul The journey begins now *Mysteries of the Ancient Past* Glenn Kreisberg, 2012-10-03 Cutting edge thinkers on the origins of civilization the Giza pyramids pre Columbian and early America and the power of human consciousness With contributions by David Frawley Geoff Stray Joscelyn Godwin Daniel Pinchbeck Antoine Gigal and others Topics range from the origins of the Inca to the architecture of the Giza plateau to unified theories of physics and consciousness Companion volume to Lost Knowledge of the Ancients As we pull back the curtain from the European version of history we discover the vast depth of knowledge of our ancient ancestors knowledge that not only dispels our image of them as primitive peoples but also corresponds with the forefront of modern science philosophy and spirituality With contributions by David Frawley Geoff Stray Joscelyn Godwin Daniel Pinchbeck Antoine Gigal and other provocative cutting edge thinkers this collection of essays commissioned by Graham Hancock bestselling author of Fingerprints of the Gods represents the latest often controversial findings in alternative science history archaeology and consciousness research Covering topics ranging from the origins of the Inca and the secrets hidden in Vedic literature to the architecture of the Giza pyramids and the Sphinx to unified theories of physics and consciousness this book shows how by recovering our lost history we too can experience the higher consciousness and advanced wisdom of the ancients
