Witnessing Their Faith Witnessing Their Faith:

Witnessing Their Faith Jay Alan Sekulow, 2007-12-13 When it was ratified in 1791 the First Amendment to the Constitution of the United States sought to protect against two distinct types of government actions that interfere with religious liberty the establishment of a national religion and interference with individual rights to practice religion Since that time no question has so bedeviled the U S Supreme Court as finding the best way to interpret and apply the Establishment Clause and the Free Exercise Clause of the First Amendment In this unique and timely book Jay Sekulow examines not only the key cases and their historical context that have shaped the law concerning church state relations but also for the first time the impact of the religious faith and practices of Supreme Court Justices who have ruled in each case Covering cases from the teaching of religion in public schools and the use of federal funds for parochial schools to today s debates about the Pledge of Allegiance and public displays of the Ten Commandments *Witnessing Their Faith* is essential reading for anyone interested in the history and future of religious freedom in America

Transforming God's People IV: Witnessing Community Through the Years, Theopolitics and the Era of the Witness Jane Barter, 2025-06-30 *Theopolitics and the Era of the Witness* focuses on witnessing in the aftermath of political atrocity or genocide It offers a diachronic study of the relationship between theological forms of witnessing within Jewish and Christian traditions and public forms of witnessing in the twentieth and twenty first centuries This book explores the ways in which various witnesses to political atrocity and their mediators tacitly drew on religious themes of salvation to make sense of their suffering It investigates survivor testimony and the use made of it through scholarly interpretations of testimony within the Hebrew Bible New Testament and theological and philosophical traditions within Judaism and Christianity The chapters move from a consideration of the early post Shoah writings of Paul Celan and Primo Levi through to a discussion of the Truth and Reconciliation Commissions of South Africa and Canada The author makes the case for a weak messianism or remnant witnessing as an antidote to overdetermined and politicized uses made of survivor testimonies This book makes a valuable contribution to the work of theopolitics which claims that theology despite its persistent misuse can serve a constructive and critical force within public life albeit in a chastened key
