Women And Gender In Postwar Europe From Cold War To European Union:

Women and Gender in Postwar Europe Joanna Regulska, Bonnie G. Smith, 2012-03-12 Women and Gender in Postwar Europe charts the experiences of women across Europe from 1945 to the present day Europe at the end of World War II was a sorry testimony to the human condition awash in corpses the infrastructure devastated food and fuel in such short supply From Soviet Union to the United Kingdom and Ireland the vast majority of citizens on whom survival depended in the postwar years were women This book charts the involvement of women in postwar reconstruction through the Cold War and post Cold War years with chapters on the economic social and political dynamism that characterized Europe from the 1950s onwards and goes on to look at the woman s place in a rebuilt Europe that was both more prosperous and as tension filled as before The chapters both look at broad trends across both eastern and western Europe such as the horrific aftermath of World War II but also present individual case studies that illustrate those broad trends in the historical development of women s lives and gender roles The case studies show difference and diversity across Europe whilst also setting the experience of women in a particular country within the broader historical issues and trends in such topics as work professionalization sexuality consumerism migration and activism The introduction and conclusion provide an overview that integrates the chapters into the more general history of this important period This will be an essential resource for students of women and gender studies and for post 1945 courses

Through the Prism of Gender and Work, 2023-12-18 This book examines women s activism in and beyond Central and Eastern Europe and transnationally within and across different historical periods political regimes and scales of activism The authors explore the wide range of activist agendas repertoires and forums in which women sought to advocate for their gender and labour interests Women were engaged in trade unions women only organizations state institutions and international and intellectual networks and were active on the shopfloor Rectifying geopolitical and thematic imbalances in labour and gender history this volume is a valuable resource for scholars and students of women s activism social movements political and intellectual history and transnationalism Contributors are Eloisa Betti Masha Bratishcheva Jan A Burek Selin a atay Daria Dyakonova M ty s Erd lyi D ra Fedeles Czeferner Eric Fure Slocum Alexandra Ghi Olga Gnydiuk Maren Hachmeister Veronika Helfert Natalia Jarska Marie L n kov Ivelina Masheva Jean Pierre Liotard Vogt Denisa Ne kov Sophia Polek Zhanna Popova B ra Sat Masha Shpolberg Georg Spitaler Jelena Te ija Eszter Varsa Johanna Wolf and Susan Zimmermann

The Routledge Handbook of Gender in Central-Eastern Europe and Eurasia Katalin Fábíán, Janet Elise Johnson, Mara Lazda, 2021-07-25 This Handbook is the key reference for contemporary historical and political approaches to gender in Central Eastern Europe and Eurasia Leading scholars examine the region s highly diverse politics histories cultures ethnicities and religions and how these structures intersect with gender alongside class sexuality coloniality and racism Comprising 51 chapters the Handbook is divided into six thematic parts Part I Conceptual debates and methodological differences Part II Feminist and women s movements cooperating and colliding Part

III Constructions of gender in different ideologies Part IV Lived experiences of individuals in different regimes Part V The ambiguous postcommunist transitions Part VI Postcommunist policy issues With a focus on defining debates the collection considers how the shared experiences especially communism affect political forces organization of gender through a broad variety of topics including feminisms ideology violence independence regime transition and public policy It is a foundational collection that will become invaluable to scholars and students across a range of disciplines including Women s Gender and Sexuality Studies and Central Eastern European and Eurasian Studies

Social Justice in Twentieth-Century Europe Martin Conway, Camilo Erlichman, 2024-03-07 Social justice has returned to the heart of political debate in present day Europe But what does it mean in different national histories and political regimes and how has this changed over time This book provides the first historical account of the evolution of notions of social justice across Europe since the late nineteenth century Written by an international team of leading historians the book analyses the often divergent ways in which political movements state institutions intellectual groups and social organisations have understood and sought to achieve social justice Conceived as an emphatically European analysis covering both the eastern and western halves of the continent Social Justice in Twentieth Century Europe demonstrates that no political movement ever held exclusive ownership of the meaning of social justice Conversely its definition has always been strongly contested between those who would define it in terms of equality of conditions or of opportunity the security provided by state authority or the freedom of personal initiative the individual rights of a liberal order or the social solidarities of class nation confession or Volk

Entangled Emancipation Alexandria N. Ruble, 2023-11-01 In 1900 German legislators passed the Civil Code a controversial law that designated women as second class citizens with regard to marriage parental rights and marital property Despite the upheavals in early twentieth century Germany the fall of the German Empire after the First World War the tumultuous Weimar Republic and the destructive Third Reich the Civil Code remained the law of the land After Nazi Germany s defeat in 1945 and the founding of East and West Germany legislators in both states finally replaced the old law with new versions that expanded women s rights in marriage and the family Entangled Emancipation reveals how the complex relationship between the divided Germanys in the early Cold War catalysed but sometimes blocked efforts to reshape legal understandings of gender and the family after decades of inequality Using methods drawn from gender history and discourse analysis the book restores the history of the women s movements in East and West Germany Entangled Emancipation ultimately explores the parallel processes through which East and West Germany reimagined negotiated and created new civil laws governing women s rights after the Second World War

Learning Gender after the Cold War Ioana Cîrstoceă, 2022-09-20 This book explores the role and place of feminist politics in the transformation of the former socialist world and points out the geopolitical mechanisms involved in the deployment of technocratic norms expert discourses activist repertoires and academic knowledge on women s rights and gender equality in the 1990s 2000s Based on an interdisciplinary approach and scrutinizing transnational flows of people

resources and ideas the analysis brings together themes and spaces that have been disconnected in previous scholarship It sheds light on the integration of feminist resources into contemporary governance through complex entanglements of international aid to democratization activism beyond borders and systemic transformation of higher education The book will be of interest to researchers and students of sociology political science gender studies and East European studies The Oxford Handbook of Gender, War, and the Western World Since 1600 Karen Hagemann, Stefan Dudink, Sonya O. Rose, 2020 To date war history has focused predominantly on the efforts of and impact of war on male participants However this limited focus disregards the complexity of gendered experiences with war and the military The Oxford Handbook of Gender War and the Western World since 1600 investigates how conceptions of gender have contributed to the shaping of military culture examining the varied ideals and practices that have socially differentiated men and women s wartime experiences Covering the major periods in warfare since the seventeenth century The Handbook explores cultural representations of war and the interconnectedness of the military with civil society and its transformations *Gender in Twentieth-Century Eastern Europe and the USSR* Catherine Baker, 2016-09-29 A concise and accessible introduction to the gender histories of eastern Europe and the Soviet Union in the 20th century These essays juxtapose established topics in gender history such as motherhood masculinities work and activism with newer areas such as the history of imprisonment and the transnational history of sexuality By collecting these essays in a single volume Catherine Baker encourages historians to look at gender history across borders and time periods emphasising that evidence and debates from Eastern Europe can inform broader approaches to contemporary gender history *The Routledge Handbook of the Global Sixties* Chen Jian, Martin Klimke, Masha Kirasirova, Mary Nolan, Marilyn Young, Joanna Waley-Cohen, 2018-02-06 This extraordinary collection is a game changer Featuring the cutting edge work of over forty scholars from across the globe The Routledge Handbook of the Global Sixties is breathtaking in its range incisive in analyses and revolutionary in method and evidence Here fifty years after that iconic 1968 Western Europe and North America are finally de centered if not provincialized and we have the basis for a complete remapping a thorough reinterpretation of the Sixties Jean Allman J H Hexter Professor in the Humanities Director Center for the Humanities Washington University in St Louis This is a landmark achievement It represents the most comprehensive effort to date to map out the myriad constitutive elements of the Global Sixties as a field of knowledge and inquiry Richly illustrated and meticulously curated this collection purposefully provincializes the United States and Western Europe while shifting the loci of interpretation to Africa the Middle East Asia and Latin America It will become both a benchmark reference text for instructors and a gateway to future historical research Eric Zolov Associate Professor of History Director Latin American Professor of Public Affairs and History The University of Texas at Austin As the fiftieth anniversary of 1968 approaches this book reassesses the global causes themes forms and legacies of that tumultuous period While existing scholarship continues to largely concentrate on the US and Western Europe this volume will focus on Asia Africa the Middle

East and Eastern Europe International scholars from diverse disciplinary backgrounds explore the global sixties through the prism of topics that range from the economy decolonization and higher education to forms of protest transnational relations and the politics of memory

Women Who Changed the World Candice Goucher, 2022-01-24 This indispensable reference work provides readers with the tools to reimagine world history through the lens of women s lived experiences Learning how women changed the world will change the ways the world looks at the past Women Who Changed the World Their Lives Challenges and Accomplishments through History features 200 biographies of notable women and offers readers an opportunity to explore the global past from a gendered perspective The women featured in this four volume set cover the full sweep of history from our ancestral forbearer Lucy to today s tennis phenoms Venus and Serena Williams Every walk of life is represented in these pages from powerful monarchs and politicians to talented artists and writers from inquisitive scientists to outspoken activists Each biography follows a standardized format recounting the woman s life and accomplishments discussing the challenges she faced within her particular time and place in history and exploring the lasting legacy she left A chronological listing of biographies makes it easy for readers to zero in on particular time periods while a further reading list at the end of each essay serves as a gateway to further exploration and study High interest sidebars accompany many of the biographies offering more nuanced glimpses into the lives of these fascinating women

Struggles for Belonging Dieter Gosewinkel, 2021 This book recounts the history of citizenship in 20th century Europe focussing on six countries Great Britain France Germany Czechoslovakia Poland and Russia It is the history of a central legal institution that significantly represents and at the same time determines struggles over migration integration and belonging

Women and Industry in the Balkans Chiara Bonfiglioli, 2019-09-19 Women s emancipation through productive labour was a key tenet of socialist politics in post World War II Yugoslavia Mass industrialisation under

Tito led many young women to join traditionally feminised sectors and as a consequence the textile sector grew rapidly fast becoming a gendered symbol of industrialisation consumption and socialist modernity By the 1980s Yugoslavia was one of the world s leading producers of textiles and garments The break up of Yugoslavia in 1991 however resulted in factory closures bankruptcy and layoffs forcing thousands of garment industry workers into precarious and often exploitative private sector jobs Drawing on more than 60 oral history interviews with former and current garment workers as well as workplace periodicals and contemporary press material collected across Croatia Macedonia Serbia Bosnia Herzegovina and Slovenia Women and Industry in the Balkans charts the rise and fall of the Yugoslav textile sector as well as the implications of this post socialist transition for the first time In the process the book explores broader questions about memories of socialism lingering feelings of attachment to the socialist welfare system and the complexity of the post socialist era This is important reading for all scholars working on the history and politics of Yugoslavia and the Balkans oral history memory studies and gender studies

The Politics of Gender Culture under State Socialism Hana Havelková, Libora

Oates-Indruchová, 2014-02-03 Though there has been much research on the incomplete emancipation project of state socialism in East and Central Europe very little has been published on how the state and its institutions conceived of gender as a concept This book seeks to understand if and how this conceptualization developed in the second half of the twentieth century and what impact it had on everyday life and on culture This study moves beyond the dichotomous gender perspectives and towards a nuanced understanding of the diverse discursive negotiations agendas actors and agency involved in state socialist gender practices Including a detailed case study on Czechoslovakia contributors explore these issues in a series of independent but collaboratively developed studies placing their research in the context of other East Central European countries The studies collected in the volume bring to light fresh material and consider it from the combined perspective of current gender theory and internal ideological dynamics of state socialism breaking new ground in gender theory cultural theory and studies of state socialism This book will be of interest to students and scholars of gender studies socialism Cold War politics and Eastern European politics and culture

Economies of Violence Jennifer

Suchland, 2015-07-23 Recent human rights campaigns against sex trafficking have focused on individual victims treating trafficking as a criminal aberration in an otherwise just economic order In Economies of Violence Jennifer Suchland directly critiques these explanations and approaches as they obscure the reality that trafficking is symptomatic of complex economic and social dynamics and the economies of violence that sustain them Examining United Nations proceedings on women s rights issues government and NGO anti trafficking policies and campaigns by feminist activists Suchland contends that trafficking must be understood not solely as a criminal gendered and sexualized phenomenon but as operating within global systems of precarious labor neoliberalism and the transition from socialist to capitalist economies in the former Soviet Union and Eastern Bloc In shifting the focus away from individual victims and by underscoring trafficking s economic and social

causes Suchland provides a foundation for building more robust methods for combatting human trafficking Socialist Internationalism and the Gritty Politics of the Particular Kristin Roth-Ey, 2023-04-06 This collection takes a case study approach to enter into and explore spaces of Second Third World interaction during the Cold War From the dining halls of a university to hospital wards construction sites military barracks pubs and more the chapters drop the scale down from the global to the particular to better see understand and interpret the complex nature of these spaces These ordinary spaces are examined to understand how they were conceived constructed shaped and reshaped by people over time Many are physical places of encounter while others are more abstract embodying ideological goals In exploring these spaces the contributors show how the Second and Third World actors understood them and connected them to ideas such as gender and space the space of the nation of the modern and of the self Essentially it seeks to unravel how these spaces between Second and Third Worlds worked and what if anything was distinctive and consequential about them **Second Third World Spaces in the Cold War** explores the ways in which these Second and Third World actors collaborated and clashed in these everyday spaces and brings these multi faceted multi actor histories to a vital centre ground **For the Many** Dorothy Sue Cobble, 2024-12-10 A history of the twentieth century feminists who fought for the rights of women workers and the poor both in the United States and abroad For the Many presents an inspiring look at how US women and their global allies pushed the nation and the world toward justice and greater equality for all Reclaiming social democracy as one of the central threads of American feminism Dorothy Sue Cobble offers a bold rewriting of twentieth century feminist history and documents how forces peoples and ideas worldwide shaped American politics Cobble follows egalitarian women s activism from the explosion of democracy movements before World War I to the establishment of the New Deal through the upheavals in rights and social citizenship at midcentury to the reassertion of conservatism and the revival of female led movements today Cobble brings to life the women who crossed borders of class race and nation to build grassroots campaigns found international institutions and enact policies dedicated to raising standards of life for everyone Readers encounter famous figures including Eleanor Roosevelt Frances Perkins and Mary McLeod Bethune together with less well known leaders such as Rose Schneiderman Maida Springer Kemp and Esther Peterson Multiple generations partnered to expand social and economic rights and despite setbacks the fight for the many persists as twenty first century activists urgently demand a more caring inclusive world Putting women at the center of US political history For the Many reveals the powerful currents of democratic equality that spurred American feminists to seek a better life for all **Premodern History and Art through the Prism of Gender in East-Central Europe** Daniela Rywиковá, Michaela Antonín Malaníková, 2021-12-15 Premodern History and Art through the Prism of Gender in East Central Europe is a representative collection of current Czech research in premodern history and art history using gender as a tool of analysis The common denominators of the texts collected in this volume are the art history of the premodern period gender perspectives and to a certain degree the Czech milieu The book is divided into four parts

based on area of interest time frame and research perspective The first part sheds light on the state of research in the field of women s history along with the implementation of the concept of gender and highlights a certain paradigmatic conservatism of Czech art historiography The second gathers contributions that analyze visual sources of Czech origin The third includes texts that analyze gender issues on the level of literary representation The final part presents two case studies that involve analysis of the premodern West European source base Rywikov and Malan kov present this volume as an innovative way to introduce this specific segment of Central European art history to a broader audience in global academia

Women in World History Bonnie G. Smith, 2019-10-31 Women in World History brings together the most recent scholarship in women s and world history in a single volume covering the period from 1450 to the present enabling readers to understand women s relationship to world developments over the past five hundred years Women have served the world as unfree people often forced to migrate as slaves trafficked sex workers and indentured laborers working off debts Diseases have migrated through women s bodies and women themselves have deliberately spread religious belief and fervor as well as ideas They have been global authors soldiers and astronauts encircling the globe and moving far beyond it They have written classics in political and social thought and crafted literary and artistic works alongside others who were revolutionaries and reform minded activists Historical scholarship has shown that there is virtually no part of the world where women s presence is not manifest whether in archives oral testimonials personal papers the material record evidence of disease and famine myth and religious teachings and myriad other forms of documentation As these studies mount the idea of surveying women s past on a global basis becomes daunting This book aims to redress this situation and offer a synthetic world history of women in modern times
