Young People And Sexual Exploitation Its Not Hidden You Just Arent Looking:

Young People and Sexual Exploitation Jenny J. Pearce, 2009-09-10 Work with sexually exploited young people can be rewarding yet difficult. They can be hard to access, often presenting challenging behaviour. Sometimes it is painful to hear their life stories, whether these include abuse through the Internet or exploitation experienced through having been trafficked into and within the country. Jenny J. Pearce draws on young people's voices to explore the difficulties that arise for researchers and for practitioners when working with sexually exploited young people. While child protection interventions must guide social work, she argues that other agencies such as health, education, housing and training each have a role to play in supporting a sexually exploited young person. Challenging the uncritical acceptance of the child as victim, the book suggests therapeutic outreach as an approach to working with sexually exploited young people that can complement child protection procedures, support practitioners in the field and enhance the young person's sense of autonomy and responsibility during their transition to adulthood. The book advocates the relationship between practitioners and the young people they aim to support to be one of the most important resources in practice. **Young People and Sexual Exploitation** will be essential reading for anyone interested in preventing the sexual exploitation of children and young people. It will be particularly relevant for academics, students, practitioners and policymakers in the fields of social policy and social work, child and family work, child protection and youth work. **Critical Perspectives on Child Sexual Exploitation and Related Trafficking** M.

Melrose, J. Pearce, 2013-09-05 This volume is the first major exploration of the issues relevant to young people who are affected by sexual exploitation and trafficking from a variety of critical perspectives. Issues include accommodation, gangs, migrant and refugee communities, perpetrators, international policy and the language through which we construct child exploitation. **Understanding and Responding to Child Sexual Exploitation** Helen Beckett, Jenny Pearce, 2017-12-15 The issue of child sexual exploitation (CSE) has received intense scrutiny in recent years following a number of high profile legal cases, serious case reviews and inquiries. This has resulted in increasing expectations that those working in the field will know how to appropriately manage and respond to this form of abuse. Of course, this is no easy task given the widely acknowledged difficulties of identifying and responding to sexual abuse and the particular complexities associated with the 'grey' dynamic within CSE and the predominantly older age of children affected by it. This edited collection draws on the latest research evidence and academic thinking around CSE to consider issues of understanding and response. Written by researchers from The International Centre for Researching Child Sexual Exploitation, Violence and Trafficking at the University of Bedfordshire, Part I considers issues of understanding and conceptualisation. Part II considers the practical implications of some of this thinking, sharing learning from research and evaluation on prevention, identification and response. **Understanding and Responding to Child Exploitation** presents critical learning for academics and students and for those working in the fields of policy, practice and commissioning. It is relevant to a wide range of disciplines including social care, youth work,

education criminology health and social policy Safeguarding Young People Dez Holmes,2022-03-21 Focusing on young people and adolescence this book explores the complexity of contemporary adolescent safeguarding It highlights evidence informed practice and innovation in this area at the work serving as an accessible and invaluable resource for all working with and supporting young people facing risk and harm Core themes covered by the book are the nature of harms facing some young people the potential pitfalls of some professional responses and the current legal framework for safeguarding young people where harm occurs outside the family home It includes an overview of adolescent development and argues for a holistic systemic response that addresses the structural disadvantage facing many young people at risk and incorporates participatory and trauma informed practice designed to promote resilience It draws on innovative approaches in local areas such as Transitional Safeguarding to make the case for a person centred evidence informed and rights based approach to safeguarding young people As well as being invaluable to practitioners managers and strategic leaders working in this field this is also ideally suited to be a text for any social work course or professional development programme on adolescent safeguarding practice
