The Genius of One Greg Holder, 2017-10-01 The world is fractured Tensions are high patience is low and goodwill is hard to come by In The Genius of One author and pastor Greg Holder reminds us of the high value Jesus and his early followers placed on community and offers guidance for how to see and relate to one another in emotionally and spiritually healthy ways so that we the church can fulfill Jesus prayer for us and model a better way of loving one another in a fractured world Tracing back to a prayer Jesus prayed on the worst night of his life That they that we would be one Holder takes his readers on a winding journey from that glorious prayer to the practical realities of everyday life For those who cling to the hope that God is still at work this book will both stir a deeper longing for a better way and provide practical steps toward that way Interventions in Health Care Interaction Petra Sneijder, Annette Klarenbeek, 2024-07-09 This edited collection

presents the latest work on the application of discursive psychology and conversation analysis to sensitive interactions and interventions in healthcare While all interactions in healthcare settings can be challenging for both patients and practitioners this book pays particular attention to topics that are likely to be especially sensitive such as communication around sexual health palliative care suicide prevention medically unexplained symptoms or chronic pain Across nine chapters authors discuss how discursive psychology and conversation analysis can help us understand what people actually do in conversations hence providing a strong basis for developing and testing training methods that support health professionals to reflect on their interactions with patients Addressing both practical and theoretical challenges in the development and implementation of such training sessions this volume establishes the state of the art in this area and offers a valuable tool for academics and researchers in discourse analytical fields practitioners working to improve communication in health as well as meeting facilitators in education or work settings related to healthcare Communicating With Families Michelle O'Reilly, Nikki Kiyimba, 2023-09-21 This textbook uniquely highlights the particular complexities of working systemically with couples and families with children It is designed to be student and practitioner oriented by drawing on real world examples of therapeutic encounters in mental health settings to illustrate how theory can inform practice Good communication is the

cornerstone of good clinical practice and is foundational for building therapeutic alliance Although therapists and counsellors are often highly skilled in their therapeutic modalities this book offers additional practical suggestions about how families engage in social actions and positioning themselves and others in their talk The book also takes wider micro and macro ecological systems within which systemic psychotherapists and counsellors work into account and consider the ways that these larger social influences are experienced within institutional discourses The book will be a valuable resource across a broad spectrum of professions and researchers including counsellors psychotherapists family therapists psychiatrists nurses play therapists speech and language therapists and mental health social workers *Your Faithful Brain Ignited!* Gina Birkemeier, Dondra Agovino, 2019-01-24
