can be one of the most intense and transformative experiences of a woman's life. While there are many books that offer the do's and don'ts of effective parenting, few offer guidance on navigating the tumultuous inner experience of being a mother with all its joy, pain, change, and uncertainty. This collection of writing by psychologists, poets, novelists, spiritual teachers, and everyday moms explores the rich transformative journey of motherhood. Poet and novelist Louise Erdrich captures the sheer wonder and awe of early motherhood. Self-described hip momma Ariel Gore reflects on the challenges of dealing with her daughter's adolescent rebellion. Journalist Joan Peters highlights the rise of the Power Mom and the risks of overparenting to our children and ourselves. Zen teacher Cheri Huber shares a spiritual perspective: sometimes it's us parents who need a time out so that we can be more fully present and loving with our children. Previously published in hardcover under the title *Your Children Will Raise You*.

The chapters take the reader through the various physical, social, and identity developments occurring at each age, explaining how each stage of development is closely linked to mental health and how that is revealed in therapy. This ideal guide for students as well as early and experienced professionals will also give readers the tools to communicate successfully with the child's caregivers or teachers, including easy-to-read handouts that detail what kind of behaviors are not cause for concern and which behaviors mean it's time to seek help. In the new edition, each chapter also includes new sections on brain development and cultural identity development, as well as updates on child development in the age of technology. As an aid to practitioners, this book matches developmental ages with appropriate evidence-based mental health interventions.
