old watching bulldozers at a construction site or chasing butterflies in flight the world is awash with promise Little children come into the world hardwired to learn in virtually any setting and about any matter Yet in today s preschool and kindergarten classrooms learning has been reduced to scripted lessons and suspect metrics that too often undervalue a child s intelligence while overtaxing the child s growing brain These mismatched expectations wreak havoc on the family parents fear that if they choose the wrong program their child won t get into the right college But Yale early childhood expert Erika Christakis says our fears are wildly misplaced Our anxiety about preparing and safeguarding our children s future seems to have reached a fever pitch at a time when ironically science gives us more certainty than ever before that young children are exceptionally strong thinkers In her pathbreaking book Christakis explains what it s like to be a young child in America today in a world designed by and for adults where we have confused schooling with learning She offers real life solutions to real life issues with nuance and direction that takes us far beyond the usual prescriptions for fewer tests more play She looks at children s use of language their artistic expressions the way their imaginations grow and how they build deep emotional bonds to stretch the boundaries of their small worlds Rather than clutter their worlds with more and more stuff sometimes the wisest course for us is to learn how to get out of their way Christakis s message is energizing and reassuring young children are inherently powerful and they and their parents will flourish when we learn new ways of restoring the vital early learning environment to one that is best suited to the littlest learners This bold and pragmatic challenge to the conventional wisdom peels back the mystery of childhood revealing a place that s rich with possibility

Creating Inclusive Learning Environments for Young Children Clarissa Willis, 2009 Invites teachers to apply appropriate strategies in classroom environments for young children with special needs setting the stage for future school success Toby Karten Author Inclusion Strategies That Work This book helps teachers better understand specific disabilities and intentional support mechanisms that encourage ALL children to learn and grow It is a resource that I will use for years to come Kim Hughes Therapeutic Preschool Teacher Project Enlightenment Wake County Public Schools NC Research based techniques to help all children thrive in early childhood settings More and more frequently early childhood educators teach children with special needs yet few have the necessary background knowledge and experiences to meet the challenge of teaching in an inclusive classroom Creating Inclusive Learning Environments for Young Children gives teachers targeted information strategies and activities to address the learning needs of all children including those at risk The author provides in depth information on a variety of disabilities including autism vision and hearing loss communication delays and sensory integration disorders Each chapter offers a glossary of terms a list of suggested resources and a brief summary of relevant research Aligned with NAEYC and DEC standards this engaging and comprehensive resource helps readers Create appropriate inclusive environments and establish daily schedules Build relationships among peers with and without disabilities Work productively with families special education teachers and paraprofessionals Understand Individualized Education Programs and Response to
