FCC Rules

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Install the batteries

The supplied rechargeable Ni-MH batteries are not charged from the first time you use them. Be sure to charge them before use. To charge the headphones, place them on the transmitter.

1. Turn the battery cover according to the way of the arrowhead with and open it.
2. Insert the supplied rechargeable Ni-MH batteries into the battery compartment matching the correct terminals between the batteries and the compartment.
3. Close the battery compartment cover according to the reverse way of the arrowhead with.
4. Connect the supplied AC power adapter to the transmitter.

Precautions

To reduce the risk of fire or injury to persons, read and follow these instructions:

- For the cordless handset, use only 3AAA 1.2V alkaline (Nitel) Metal hydride (Ni-MH) cordless telephone batteries (included).
- Do not dispose of the batteries in a fire. The cells may explode. Check with local codes for possible special disposal instructions.
- Do not open or mutilate the batteries. Released electrolyte is caustic and may cause damage to the eyes or skin. It may be toxic if swallowed.
- Exercise care in handling batteries in order not to short the battery with conducting materials such as rings, bracelets, and keys. The battery or conductor may overheat and cause burns.
- Do not attempt to reinsert the batteries identified for use with this product by testing them. Sudden release of the battery electrolyte may occur causing burns or a reaction to eyes or skin.
- When inserting batteries into this product, the proper polarity is direction must be observed. Reverse insertion of batteries can cause chipping, and that may result in leakage or explosion.
- Remove the batteries from this product if the product will not be used for a long period of interseasonal months or inoperative during this time the battery could leak in the product.
- Do not store this product or the batteries identified for use with this product, in high temperature areas. Batteries that are stored in a freezer or refrigerator for the purpose of extending shelf life should be protected from condensation during storage and handling.

5. Put the headphones on the transmitter so that the headphones' contact meets the transmitter's contact pin while making sure that the charging indicator light is red.

Charging is completed in about 16 hours and the charging indicator goes off.

When placing the headphones on the transmitter, be sure to hold them level with both hands and that the right and left housings are placed straight down on the transmitter, and then lift them back as illustrated above.

When the indicator does not light in red

Check if the right and left headphones are rested on the transmitter correctly. The indicator will not light up if the headphones' contact does not meet the transmitter's contact pin. Remove the headphones and replace them on the transmitter again so that the indicator lights in red.

Notes on Batteries

- Do not charge the dry battery.
- Do not carry a dry battery together with coins or other metallic objects. It can generate heat if the positive and negative terminals of the battery accidentally come into contact with metallic objects.
- If you are not going to use the unit for a long time, remove the battery to avoid damage from battery leakage or corrosion.
