passenger travel In the nineteenth century horse transportation consumed vast amounts of land for hay production and the intense traffic and ankle deep manure created miserable living conditions in urban centers The introduction of the horseless carriage solved many of these problems but has created others Today another revolution in transportation seems overdue Transportation consumes two thirds of the world s petroleum and has become the largest contributor to global environmental change Most of this increase in scale can be attributed to the strong desire for personal mobility that comes with economic growth In *Transportation in a Climate Constrained World* the authors present the first integrated assessment of the factors affecting greenhouse gas GHG emissions from passenger transportation They examine such topics as past and future travel demand the influence of personal and business choices on passenger travel s climate impact technologies and alternative fuels that may become available to mitigate GHG emissions from passenger transport and policies that would promote a more sustainable transportation system And most important taking into account all of these options are taken together they consider how to achieve a sustainable transportation system in the next thirty to fifty years

NSU Ro80 - The Complete Story Martin Buckley, 2023-02-14 Launched in 1967 the NSU Ro80 had modern aerodynamic styling a technologically advanced Wankel rotary engine and was voted Car of the Year in 1968 However after the initial positive reception the car developed a reputation for unreliability with problems arising as early as 15 000 miles and many vehicles required a rebuilt engine before 30 000 miles Despite the company resolving these reliability issues in both existing and new vehicles and offering a generous warranty the damage to the car s reputation was done The NSU Ro80 is the most celebrated motoring lost cause of the second half of the twentieth century outranking the likes of the Edsel and the DeLorean because unlike those statements of misplaced optimism and ego it was a good car Not just good the NSU Ro80 is one of the great saloons Launched in September 1967 the Ro80 was an all new four door five seater from a West German company that post war had never made anything other than economy runabouts motorcycles and mopeds That alone should have been enough of a risk but this was also the world s first purpose built Wankel engined family saloon This compact refined and elegantly simple power unit was the first really new concept in the realm of internal combustion engines to achieve mass production for ninety years A car like the Ro80 could only really have come from Germany where there was a passion for research and a pride in engineering not found elsewhere in Europe With front wheel drive superb power steering and four wheel disc brakes the car had top handling and driver appeal Quite simply it was a masterpiece considered by many to be the finest vehicle of its type in the world But with one fatal flaw its engine With over 300 archive photographs drawings and diagrams this book tells the story of the NSU
