Why Knowledge Matters in Curriculum Leesa Wheelahan,2012 What should we teach in our schools and vocational education and higher education institutions Is theoretical knowledge still important This book argues that providing students with access to knowledge should be the *raison d'être* of education Its premise is that access to knowledge is an issue of social justice because society uses it to conduct its debates and controversies Theoretical knowledge is increasingly marginalised in curriculum in all sectors of education particularly in competency based training which is the dominant curriculum model in vocational education in many countries This book uses competency based training to explore the negative consequences that arise when knowledge is displaced in curriculum in favour of a focus on workplace relevance The book takes a unique approach by using the sociology of Basil Bernstein and the philosophy of critical realism as complementary modes of theorising to extend and develop social realist arguments about the role of knowledge in curriculum Both approaches are increasingly influential in education and the social sciences and the book will be helpful for those seeking an accessible introduction to these complex subjects Why Knowledge Matters in Curriculum is a key reading for those interested in the sociology of education curriculum studies work based learning vocational education higher education adult and community education tertiary education policy and lifelong learning more broadly *The Object of Literature* Pierre

Macherey,1995-03-16 This 1995 book by Pierre Macherey was his first dealing with literature and theory since his seminal *A Theory of Literary Production* Continuing the project of Althusserian theory Macherey engages in a series of close exegeses of classical texts in French literature and philosophy from the late eighteenth century down to the 1970s that explore the historically variable but thematically similar ways in which literary texts represent philosophical ideas Rejecting the simple notion that literature deploys philosophical topoi in an unmediated manner Macherey shows the conceptual sophistication and broad intellectual influence that literary art has displayed in the modern period At once a theoretical meditation of great originality and a historical work of scrupulous scholarship *The Object of Literature* will entrench Pierre Macherey s already considerable reputation as one of the most significant contemporary theoreticians of literature *Refractions of Reality:*

Philosophy and the Moving Image John Mullarkey,2008-12-11 This is the first book to explore all central issues surrounding the relationship between the film image and philosophy It tackles the work of particular philosophers of film i ek Deleuze and Cavell as well as general philosophical positions Cognitivist and Culturalist and analyses the ability of film to teach and create philosophy **Kant on Persons and Agency** Eric Watkins,2017-12-28 Today we consider ourselves to be free and

equal persons capable of acting rationally and autonomously in both practical moral and theoretical scientific contexts The essays in this volume show how this conception was first articulated in a fully systematic fashion by Immanuel Kant in the eighteenth century Twelve leading scholars shed new light on Kant's philosophy with each devoting particular attention to at least one of three aspects of this conception: autonomy, freedom, and personhood Some focus on clarifying the philosophical content of Kant's position while others consider how his views on these issues cohere with his other distinctive doctrines and yet others focus on the historical impact that these doctrines had on his immediate successors and on our present thought Their essays offer important new perspectives on some of the most fundamental issues that we continue to confront in modern society

Maurice Blondel Oliva Blanchette, 2010-04-16 French philosopher Maurice Blondel had a tremendous impact on both philosophy and religion over the first half of the twentieth century He was at once a postmodern critical philosopher and a devout traditional Catholic trying not only to reconcile these two seemingly disparate factors in his own mind but also to prove to others that the two must go together In the first critical examination of the philosopher's life Oliva Blanchette tells the story of Blondel's stormy life confronting an Academy dismissive of religion and a Religion uncomfortable with rational philosophy This book not only follows his biographical history but also presents his systematic philosophy from the beginning of his journey to the culmination found in *Philosophical Exigencies of Christianity* the book for which he signed the publishing contract the day before he died Maurice Blondel is part of the *Ressourcement: Retrieval and Renewal in Catholic Thought* series edited by David L. Schindler
