Best-selling author Rick Riordan presents the sequel to the critically acclaimed *Sal and Gabi Break the Universe*, a brilliant sci-fi romp with Cuban influence. Among many other challenges, Sal and Gabi have to try to make everything right with our world when there is a rogue Gabi from another universe running loose. Sal Vidon doesn't want to live a Mami-free life. Pulling different versions of his mother from other universes is how he copes with missing his own who died years ago. But Sal's father, a calamity physicist, is trying to shut down all the wormholes Sal creates because Papi thinks they are eroding the very fabric of our world. All of Papi's efforts are in vain, however, because a Gabi from another universe has gone rogue and is popping up all over the place seeking revenge for the fact that her world has been destroyed. While Sal and Gabi work together to keep both Papi and Rogue Gabi under control, they also have to solve the mystery of Yasmany who has gone missing from school. Could it have something to do with the wormhole in the back of his locker? Readers who enjoyed *Sal and Gabi Break the Universe* will relish being back in the world of Culeco Academy and the Coral Castle along with such unforgettable characters as American Stepmom, the Gabi Dad's Principal Torres, and the sassy entropy sweeper. With multiple Sals and Gabis in charge, it's no wonder this sequel offers even more hilarious weirdness and love than the first book.

developers and shapers A joy to read full of hope We were delighted surprised and at times concerned Delighted because of the issues raised and the sophisticated ways in which students responded to the challenges surprised at the range of issues raised and the obvious importance of relationships in the clinical setting finally concerned at some of the attitudes which were commented on especially of senior staff and on the adequacy of preparation for house officer posts This book is inspirational and should be read by all who have any part to play in the education of doctors Sir Kenneth Calman and Lynne Calman in their Foreword Extraordinary This is autobiographical insight at its most powerful for it leads to transformative growth and true learning I am first of all impressed with the emotional valence of these writings They reflect the students interior states of sadness empathy and awe as they bear witness to patients suffering The essays reflect a fresh calculus of sickness and duty and give me great and glad hope that our doctors of the future will be efficient with the forms of medicine as well as courageous in braving their contact with the ill with the dying with the humans who confront them evermore seeking care seeking comfort seeking their full capacity to heal Rita Charon in her Foreword

Invasive Objects Paul Williams, 2014-04-08 The Director controls Ms B's life He flatters her beguiles her derides her His instructions pervade each aspect of her life including her analytic sessions during which he suggests promiscuous and dangerous things for Ms B to say and do when he suspects that her isolated state is being changed by the therapy The Director is a diabolical foreign body installed in the mind who purports to protect but who keeps Ms B feeling profoundly ill and alone The story of Ms B's analysis is one of many vivid illustrations presented in this collection of papers by Paul Williams who shares his lifetime of experience working with severely disturbed patients As the title suggests the unifying thread of these papers is the investigation of serious mental disturbance often characterized by the presence of intrusive and invasive thoughts and fantasies that originate in a traumatic past but which can colonize and destroy the rational mind The diverse papers are grouped into two related sections Part one is comprised of papers with a clinical orientation including a summary of the analysis of Ms B as well as a speculative paper on the psychosis and recovery of John Nash In part two applied psychoanalytic thinking is integrated with Williams' other professional passion anthropology in a paper that exemplifies generative thought through art poetry and tribal masks Other papers in this section include a short essay that takes Freud bashers to task a reappraisal of the Rat Man and a lively discussion of Andr  Green's central phobic position in borderline thinking Whether engaging in the coconstructed therapeutic relationship or the implications for madness in society at large Williams' diverse influences psychoanalytic and otherwise repeatedly come to the fore in an intellectually stimulating and clinically enriching way It goes without saying that work with patients whose thinking is psychotic is a challenge as these papers clearly demonstrate but Williams reminds us that it is a challenge that psychoanalysis can not only engage but also treat with enduring and impressive therapeutic results
