Pacia,Steven C. Shachter,2005-05-01 Epilepsy is a difficult illness to control up to 35% of patients do not respond fully to traditional medical treatments For this reason many sufferers choose to rely on or incorporate complementary and alternative medicine CAM into their treatment regimens Written for physicians knowledgeable laypersons and other professionals Complementary and Alternative Therapies for Epilepsy bridges the worlds of traditional medicine and CAM to foster a broader perspective of healthcare for patients The book respects cultural differences that may incorporate alternative medicine into a medical management program and encourages patients to safely continue receiving necessary medical treatments Wherever possible scientific evidence supports the choice of treatment modalities as well as the effectiveness of a combined traditional and CAM approach Readers will find incisive discussions in sections on Learning to Reduce Seizures Asian Herbal and Homeopathic Therapies Nutritional Therapies Alternative Medical Therapies Oxygen Therapies Manipulation and Osteopathic Therapies Music Art and Pet Therapies From stress and epilepsy to acupuncture massage craniosacral therapies homeopathy ketogenic diets aromatherapy hypnosis and more the book is all inclusive and enlightening Additional commentary by the editors provides a critical vantage point from which to interpret the data and viewpoints of the contributors all experts in the therapies presented This balanced scientific approach will appeal to even those most skeptical of alternative therapies making the book essential for every professional who seeks to provide the broadest range of effective patient care **My Own Blood** Ashley Bristowe,2021-04-06 Mothering under normal circumstances takes all you have to give But what happens when your child is disabled and sacrificing all you ve got and more is the only hope for a decent future Full of rage and resilience duty and love Ashley Bristowe delivers a mother s voice like no other we ve heard When their second child Alexander is diagnosed with a rare genetic disorder doctors tell Ashley Bristowe and her husband that the boy won t walk or even talk that he is profoundly disabled Stunned and reeling Ashley researches a disorder so new it s just been named Kleefstra Syndrome and she finds little hope and a maze of obstacles Then she comes across the US based Institutes which have been working to improve the lives of brain injured children for decades Recruiting volunteers organizing therapy juggling a million tests and appointments even fundraising as the family falls deep

into debt Ashley devotes years of 24/7 effort to running an impossibly rigorous diet and therapy programme for their son with the hope of saving his life and her own. The ending is happy he will never be a normal boy but Alexander talks he walks he swims he plays the piano badly and he goes to school. This victory isn't clean and it's far from pretty; the personal toll on Ashley is devastating. It takes a village, people say, but too much of their village is uncomfortable with her son's difference, the therapy regimen's demands and the family's bottomless need. The health and provincial services bureaucracy set them a maddening set of hoops to jump through, showing how disabled children and their families languish because of criminally low expectations about what can be done to help. *My Own Blood* is an uplifting story but it never shies away from the devastating impact of a baby that science couldn't predict and medicine couldn't help. It's the story of a woman who lost everything she'd once been: a professional, an optimist, a joker, a capable adult in sacrifice to her son. An honest account of a woman's life turned upside down.

In 1992, Laura wrote an article for *Family Circle* magazine, *A Second Chance for Seth*, detailing the maverick work she was doing with her son. This led to an appearance on *The Oprah Winfrey Show*. Subsequently, Laura wrote the first edition of *Uncommon Voyage: Parenting Children with Special Needs* about her experiences as Seth's mother.
