Supporting Literacies for Children of Color Daniel R. Meier,2019-11-26 A comprehensive theory to practice guidebook Supporting Literacies for Children of Color argues for a new strength based view of teaching to support the literacy talents and abilities of preschool aged children of Color The early childhood field is at a critical juncture in preschool literacy education as educators confront an ever changing array of curricular approaches and assessment measures while still trying to meet the social cultural language and literacy needs of individual children By integrating parent and teacher literacy perspectives as well as calling on the author s own decades of teaching this book offers practical tools and strategies for culturally responsive pedagogy and demonstrates effective methods for using oral language and multilingualism to celebrate and deepen the literacy capabilities of children of Color Featuring examples of children s literacy processes and products both at home and in preschools to

illustrate effective instructional strategies as well as boxes noting important ideas and strategies in each major section this text will guide students and educators toward creating a supportive learning environment for children of Color **Literacy in the Early Years** Claire J. McLachlan, Alison W. Arrow, 2016-11-07 This edited collection provides an in depth exploration of different aspects of contemporary early childhood literacy research and the implications for educational practice Each chapter details how the research was conducted and any issues that researchers encountered in collecting data with very young children as well as what the research findings mean for educational practice It includes photographs of effective literacy practice detailed explanations of research methods so the studies can be replicated or expanded upon and key features for promoting effective literacy practice in early childhood settings This book is an essential read for everyone who is interested in exploring the complexities and challenges of researching literacy acquisition in the youngest children
