Reimagining God and Religion Jerry R. Wright, 2018-02-01 With the necessary demise and death of antique cosmologies and traditional religious paradigms dependent on external deities and devils the modern religious challenge involves two simultaneous sacred endeavors to eulogize bury and grieve the theistic and monotheistic god images and the religions dependent on them and secondly to bring fresh imagination to the meanings of god and religion which will satisfy both the modern mind and ancient soul Drawing on the insights of Jungian or analytical psychology Dr Wright offers depth psychological analysis of our contemporary religious and political dilemmas as well as invites readers to be midwives for the emerging religious myth that many believe to be on our collective horizon a myth that will be more inclusive intellectually and scientifically honest and soul satisfying The invitation is made urgent by his psychological conclusion As long as our deities and devils are perceived to be beyond the physical domain and outside the human psyche our species will continue to do great harm to each other and to our global nest Combining personal testament and psychological commentary the author explores heretofore taboo topics and reframes many traditional theological and Christological dogmas making them more relevant to religious and non religious alike Jerry R Wright D Min is a Jungian analyst in private practice in Flat Rock North Carolina and a training analyst with the Inter Regional Society of Jungian

The Hidden Spirituality of Men Matthew Fox, 2010-09-24 It is no secret that men are in trouble today From war to ecological collapse most of the world's critical problems stem from a distorted masculinity out of control Yet our culture rewards the very dysfunctions responsible for those problems To Matthew Fox our crucial task is to open our minds to a deeper understanding of the healthy masculine than we receive from our media culture and religions Popular religion forces the punitive imagery of fundamentalism on us pushing most men away from their natural yearning for spirituality and toward intolerance and domination Meanwhile many men particularly young men are looking for images of healthy masculinity to emulate and finding nothing To awaken what Fox calls the sacred masculine he unearths ten metaphors or archetypes ranging from the Green Man an ancient pagan symbol of our fundamental relationship with nature to the Grandfatherly Heart to the Spiritual Warrior He explores archetypes of sacred marriage showing how partnership becomes the ultimate expression of healthy masculinity By stirring our natural yearning for healthy spirituality Fox argues these timeless archetypes can inspire men to pursue their higher calling to reinvent the world

The Golden Key to Executive Coaching Janet S. Steinwedel, 2015-09-23 The Golden Key to Executive Coaching is a unique contribution to the field of professional leadership development What distinguishes Janet Steinwedel's approach is her incorporation of the lessons of depth psychology particularly the work of Carl Jung into her outlook and methodology Within this accessible volume Dr Steinwedel also offers practical wisdom gleaned from her academic background in Human and Organizational Systems in such corporate roles as Director of Leadership and Business Effectiveness at AstraZeneca Pharmaceuticals Assistant Vice President of Leadership and Organization Development at Delaware Investments and 10 years as President of Leader's Insight her own executive coaching company While The Golden Key is primarily written as a guide for other executive coaches it contains much of value for all those seeking to more fully integrate their authentic selves into their professional careers It may also serve as a plain language primer to the thought of Carl Jung one of the most insightful far reaching minds of the 20th century Janet Steinwedel's The Golden Key is a profoundly useful addition to the theory and practice of coaching What so many of her predecessors have missed is the simple but ineluctable fact that both participants coach and client are human beings with their own psychological mechanisms and processes Her book brings many of the insights of depth psychology to the practitioner who otherwise may be limited to behavioral strategies which in the end are always undermined by the human psyche No relationships can be any more evolved than how we are related to our inner world for what we ignore there will continue to tumble through us into the world Steinwedel's book brings insights and tools to this collaborative process which can only deepen the coaching practice through deepening the practitioner James Hollis PhD Author and Jungian Analyst in Washington D C
