

Things You Should Know about Breast Cancer

What are the statistics?

- 1 in 8 women will be diagnosed with breast cancer in their lifetime
- 30% of all new female cancers diagnosed each year are breast cancer
- There are over 2.6 million female breast cancer survivors in the US

What is it?

- It is a type of cancer that starts in the breast when cells begin to grow out of control
- Not all breast cancer is the same – there are several types of breast cancer depending on where it is in the breast and the specific cells that become cancerous

Who does it affect?

- Breast cancer occurs almost entirely in women, but men can get breast cancer, too
- The median age of diagnosis is age 62
- The majority of female breast cancer risk is established during the years between puberty and menopause

What about prevention?

- The most common sign and symptom is a new lump or mass
- Screening mammograms, clinical breast exams, and breast self exams can detect early stage breast cancer before signs and symptoms appear

What are treatment options?

- If you are diagnosed with breast cancer, treatment is based on the stage and type of your cancer
- Common treatment plans include radiation therapy, surgery, or chemotherapy
