When Kafka Says We When Kafka Says We:

When Kafka Says We Vivian Liska, 2009-06-08 Taking as its starting point Franz Kafka's complex relationship to Jews and to communities in general *When Kafka Says We* explores the ambivalent responses of major German Jewish writers to self-enclosed social religious ethnic and ideological groups Vivian Liska shows that for Kafka and others this ambivalence inspired innovative modes of writing which while unmasking the oppressive cohesion of communal groupings also configured original and uncommon communities Interlinked close readings of works by German Jewish writers such as Kafka Else Lasker-Schüler Nelly Sachs Paul Celan Ilse Aichinger and Robert Schindel illuminate the ways in which literature can subvert extend or reconfigure established visions of communities Liska's rich and astute analysis uncovers provocative attitudes and insights on a subject of continuing controversy

The Remnant: Franz Kafka's Letter Eli Schonfeld, 2024-09-23 As a Jew Kafka received nothing in inheritance from his father Nevertheless throughout his life subtly remnants of Jewish words can be deciphered Hence the question at the heart of this book what remains when what's left is a nothing of Judaism Letter to the Father This question necessitates a philosophical and Jewish reading of his work prompting a reconsideration of the intricate relationships between the Jew and the West and the Jew and modernity Thus this book proposes an examination of Kafka's oeuvre to uncover what remains Jewish therein at the heart of Europe amidst modernity where nothing remains the enigma of the Letter

Kafka's Stereoscopes Isak Winkel Holm, 2019-09-19 In 1911 Franz Kafka encountered the Kaiser Panorama a stereoscopic peep show offering an illusion of three dimensional depth After the experience he began to emulate the apparatus in his literary sketches developing a style we might call stereoscopic juxtaposing like the optical stereoscope two images of the same object seen from slightly different perspectives Isak Winkel Holm argues that Kafka's stereoscopic style is crucial to an understanding of the relation between literature and politics in Kafka's work At the level of content the stereoscopic style offers a representation of the basic order of a specific community At the level of form the stereoscopic style is structured as the juxtaposition of two dissimilar images of the same community At the level of function finally the style provokes a reconsideration and perhaps even a reconfiguration of the social order itself With insights from literary studies philosophical aesthetics and political theory Kafka's Stereoscopes offers a detailed but highly readable argument for the relevance of Kafka's literary works in today's political reality

Kafka's Ethics of Interpretation Jennifer L. Geddes, 2016-04-30 Kafka's Ethics of Interpretation refutes the oft repeated claim made by Kafka's greatest interpreters including Walter Benjamin and Harold Bloom that Kafka sought to evade interpretation of his writings Jennifer L. Geddes shows that this claim about Kafka's deliberate uninterpretability is not only wrong it also misconstrues a central concern of his work Kafka was not trying to avoid or prevent interpretation rather his works are centrally concerned with it Geddes explores the interpretation that takes place within and in response to Kafka's writings and pairs Kafka's works with readings of Sigmund Freud Pierre Bourdieu Tzvetan Todorov Emmanuel Levinas and others She argues that Kafka explores

interpretation as a mode of power and violence but also as a mode of engagement with the world and others Kafka she argues challenges us to rethink the ways we read texts engage others and navigate the world through our interpretations of them

Crimes of the Future Jean-Michel Rabaté, 2014-04-24 The decade since the publication of Jean Michel Rabat s controversial manifesto *The Future of Theory* saw important changes in the field The demise of most of the visible French or German philosophers who had produced texts that would trigger new debates then to be processed by Theory has led to drastic revisions and starker assessments Globalization has been the most obvious factor to modify the selection of texts studied During the twentieth century Theory incorporated poetics rhetorics aesthetics and linguistics while also opening itself to continental philosophy What has changed today The knowledge that we live in a de centered world has destabilized the primacy granted to a purely Western canon Moreover much of contemporary theory remains highly allusive and this is often baffling for students Theory keeps recycling itself producing authentic returns of basic theses terms and concepts Canonical modern theorists often return to classical texts as those of Plato Kant Hegel Nietzsche And now we want to know what is new *Crimes of the Future* explores the past present and potential future of Theory

Homo Temporalis Nitzan Itzhak Lebovic, 2025-01-15 *Homo Temporalis* focuses on the importance of temporal concepts for four German Jewish thinkers who profoundly shaped twentieth century intellectual history Martin Buber Walter Benjamin Hannah Arendt and Paul Celan By analyzing the concept of time Nitzan Lebovic explores Buber s stress on the temporality of the dialogue between I and Thou Benjamin s now time and dialectics in standstill Arendt s understanding of democracy as natality or a permanent revolution and the breathturn that informs Celan s poetry Framing the reception of German Jewish thinking in the second half of the twentieth century as a parallel story to the rise of the modern humanities *Homo Temporalis* also highlights how these foundational temporal concepts illuminate the causes of the present crisis in the humanities and its disciplinary limitations in the age of biopolitics and the Anthropocene

Private Anarchy Paul Buchholz, 2018-03-15 European social theorists of the late nineteenth and early twentieth centuries tended to define modernity as a condition of heightened alienation in which traditional community is replaced by a regime of self interested individualism and collective isolation In *Private Anarchy* Paul Buchholz develops an alternative intellectual history of the nineteenth and twentieth centuries showing how a strain of German language literature worked against this common conception of modernity Buchholz suggests that in their experimental prose Gustav Landauer Franz Kafka Thomas Bernhard and Wolfgang Hilbig each considered how the void of mass society could be the precondition for a new anarchic form of community that would rest not on any assumptions of shared origins or organic unity but on an experience of extreme emptiness that blurs the boundaries of the self and enables intimacy between total strangers This community Buchholz argues is created through the verbal form most closely associated with alienation and isolation the monologue By showing how these authors engaged with the idea of community and by relating these contributions to an extended intellectual genealogy of nihilism *Private Anarchy* illustrates the distinct

philosophical and sociopolitical stakes of German experimental writing in the twentieth century **Kafka's Monkey and Other Phantoms of Africa** Seloua Luste Boulbina, 2019-05-24 Even though many of France's former colonies became independent over fifty years ago the concept of colony and who was affected by colonialism remain problematic in French culture today Seloua Luste Boulbina an Algerian French philosopher and political theorist shows how the colony's structures persist in the subjectivity sexuality and bodily experience of human beings who were once brought together through force This text which combines two works by Luste Boulbina shows how France and its former colonies are haunted by power relations that are supposedly old history but whose effects on knowledge imagination emotional habits and public controversies have persisted vividly into the present Luste Boulbina draws on the work of Michel Foucault Frantz Fanon and douard Glissant to build a challenging original and intercultural philosophy that responds to blind spots of inherited political and social culture Kafka's Monkey and Other Phantoms of Africa offers unique insights into how issues of migration religious and ethnic identity and postcolonial history affect contemporary France and beyond **Kafka's Last Trial** Benjamin Balint, 2018-09-18 Winner of the 2020 Sami Rohr Prize for Jewish Literature Dramatic and illuminating R raises momentous questions about nationality religion literature and even the Holocaust Adam Kirsch The Atlantic When Franz Kafka died in 1924 his loyal friend Max Brod could not bring himself to fulfill Kafka's last instruction to burn his remaining manuscripts Instead Brod devoted his life to championing Kafka's work rescuing his legacy from both obscurity and physical destruction Nearly a century later an international legal battle erupted to determine which country could claim ownership the Jewish state where Kafka dreamed of living or Germany where Kafka's three sisters perished in the Holocaust Benjamin Balint offers a gripping account of the controversial trial in Israeli courts brimming with dilemmas legal ethical and political that determined the fate of Kafka's manuscripts **Kafka's Creatures** Marc Lucht, Donna Yarri, 2010-06-22 There are few literary authors in whose work animals and other creatures play as prominent a role as they do in Franz Kafka's Exploring multiple dimensions of Kafka's incorporation of nonhuman creatures into his writing this volume is the first collection in English of essays devoted to illuminating this important and ubiquitous dimension of his work The chapters here are written by an array of international scholars from various fields and represent a diversity of interpretive approaches In the course of exploring the roles played by nonhuman animals and other creatures in Kafka's writing they help make sense of the literary and philosophical significance of his preoccupation with animals and make clear that careful investigation of those creatures illuminates his core concerns the nature of power the inescapability of history and guilt the dangers promise and strangeness of the alienation endemic to modern life the human propensity for cruelty and oppression the limits and conditions of humanity and the risks of dehumanization the nature of authenticity family life Jewishness and the nature of language and art Thus the essays in this volume enrich our understanding of Kafka's work as a whole Especially striking is the extent to which the articles collected here bring into focus the ways in which Kafka anticipated many of the recent developments in

contemporary thinking about nonhuman animals **The Animal in the Synagogue** Dan Miron, 2019-09-06 The Animal in the Synagogue explores Franz Kafka's sense of being a Jew in the modern world and its literary and linguistic ramifications. It falls into two parts. The first is organized around the theme of Kafka's complex and often self-derogatory understanding and assessment of his own Jewishness and of the place the modern Jew occupies in the abyss of the world. Martin Buber. That part is based on a close reading of Kafka's correspondence with his Czech lover Milena Jesenska and on a meticulous analysis thematic, stylistic and structural of Kafka's only short story touching openly and directly upon Jewish social and ritual issues and known as In Our Synagogue, the title not by the author. In both the letters and the short story, images of small animals, repulsive, dirty or otherwise objectionable, are used by Kafka as means of exploring his own manhood and the Jewish tradition at large as he understood it. The second part of the book focuses on Kafka's place within the complex of Jewish writing of his time in all its three linguistic forms: Hebrew writing essentially Zionist, Yiddish writing essentially nationalistic but not committed to Zionism, and the writing like his in non-Jewish languages, mainly German, and within the non-Jewish religious and artistic traditions which inhered in them. The essay deals in detail with Kafka's responses to contemporary Jewish literatures and his pessimistic evaluation of those literatures' potential. Essentially, Kafka doubted the sheer possibility of a genuine and culturally tenable compromise, let alone synthesis, between Jewishness and modernity. The book deals with topics and some texts that the flourishing ever-expanding Kafka scholarship has either neglected or misunderstood, because most scholars had no real background in either Hebrew or Yiddish studies and were unable to grasp the nuances and subtle intentions in Kafka's attitudes toward modern Hebrew and Yiddish literature and their paragons such as the major Zionist Hebrew poet H. N. Bialik or the Yiddish master Sholem Aleichem. CliffsNotes on Kafka's The Metamorphosis & Other Stories Herberth Czermak, 2001-10-05 This CliffsNotes guide includes everything you've come to expect from the trusted experts at CliffsNotes, including analysis of the most widely read literary works. Freedom and Confinement in Modernity

A. Kordela, D. Vardoulakis, 2011-05-09 Kafka's literary universe is organized around constellations of imprisonment. Freedom and Confinement in Modernity proposes that imprisonment does not signify a tortured state of the individual in modernity. Rather, it provides a new reading of imprisonment, suggesting it allows Kafka to perform a critique of a modernity instead.

Bureaucratic Fanatics Benjamin Lewis Robinson, 2019-05-20 Is justice only achievable by means of bureaucratization, or might it first arrive with the end of bureaucracy? Bureaucratic Fanatics shows how this ever more contentious question in contemporary politics belongs to the political-theological underpinnings of bureaucratization itself. At the end of the 18th century, a new and paradoxical kind of fanaticism emerged: rational fanaticism, that propelled the intensive biopolitical management of everyday life in Europe and North America, as well as the extensive colonial exploitation of the earth and its peoples. These excesses of bureaucratization incited, in turn, increasingly fanatical forms of resistance. And they inspired literary production that provocatively presented the outrageous contours of rationalization. Combining political theory with

readings of Kleist Melville Conrad and Kafka this genealogy of bureaucratic fanaticism relates two extreme figures fanatical bureaucrats driven to the ends of the earth and to the limits of humanity by the rationality of the apparatuses they serve and peculiar fanatics who passionately albeit seemingly passively resist the encroachments of bureaucratization

Democracy, Dialogue, Memory Idit Alphandary, Leszek Koczanowicz, 2018-09-24 Arguing that the politics of democracy is inseparable from a notion of dialogue that emerges from conflicting and often traumatic memories Democracy Dialogue Memory examines the importance of dialogue for the achievement of understanding in civil society rather than consensus so that democratic participation and inclusion can be strengthened With attention to the importance for marginalized communities of the ability to disclose fundamental ethnic religious gendered racial or personal and affective characteristics born of trauma and so cease to represent otherness this book brings together studies from Europe Israel and the United States of literary and visual attempts to expand dialogue with the other particularly where democracies are prone to vacillating between the desire to endorse otherness and political dread of the other A critique of the practices of forced inclusion and forced consensual negotiation that seeks to advance dialogue as a crucial safeguard against the twin dangers of exclusion and enforced assimilation Democracy Dialogue Memory will appeal to scholars with interests in political theory political sociology collective and contested memory and civil society at the same time as allowing scholars from the humanities and the arts to examine seminal chapters that pivot on psychoanalytical approaches to literature film and philosophy at the borderline of political thinking

Jews and the Ends of Theory Shai Ginsburg, Martin Land, Jonathan Boyarin, 2018-12-04 Theory as it's happened across the humanities has often been coded as Jewish This collection of essays seeks to move past explanations for this understanding that rely on the self-evident the historical centrality of Jews to the rise of Critical Theory with the Frankfurt School or stereotypical psychoanalysis as the Jewish

Science in order to show how certain problematics of modern Jewishness enrich theory In the range of violence and agency that attend the appellation Jew depending on how where and by whom it is uttered we can see that Jewishness is a rhetorical as much as a sociological fact and that its rhetorical and sociological aspects while linked are not identical Attention to this disjuncture helps to elucidate the questions of power subjectivity identity figuration language and relation that modern theory has grappled with These questions in turn implicate geopolitical issues such as the relation of a people to a state and the violence done in the name of simplistic identitarian ideologies Clarifying a situation where the Jew is not readily or unproblematically legible the editors propose what they call spectral reading a way to understand Jewishness as a fluid and rhetorical presence While not divorced from sociological facts this spectral reading works in concert with contemporary theory to mediate pessimistic and utopian impulses experiences and realities Contributors Svetlana Boym Andrew Bush Sergey Dolgopolski Jay Geller Sarah Hammerschlag Hannan Hever Martin Land Martin Jay James I Porter Yehouda Shenhav Elliot R Wolfson

Punctuations Michael J. Shapiro, 2019-11-22 In *Punctuations* Michael J Shapiro examines how punctuation conceived not as a series of marks but as a metaphor for the ways in which artists engage with intelligibility opens pathways for thinking through the possibilities for oppositional politics Drawing on Theodor Adorno Alain Robbe Grillet and Roland Barthes Shapiro demonstrates how punctuation's capacity to create unexpected rhythmic pacing makes it an ideal tool for writers musicians filmmakers and artists to challenge structures of power In works ranging from film scores and jazz compositions to literature architecture and photography Shapiro shows how the use of punctuation reveals the contestability of dominant narratives in ways that prompt readers viewers and listeners to reflect on their acceptance of those narratives Such uses of punctuation he theorizes offer models for disrupting structures of authority thereby fostering the creation of alternative communities of sense from which to base political mobilization

Deadly Encounters Robert Gallinger, 2001-11 In 1995 the mutilated body of a female tourist is found in the hills overlooking Heidelberg By 1997 three more female tourists have been brutally murdered The media accuse Police Commissioner Kurt Schiller and Inspector Stefan Krupp of incompetence and demand that they resign So far the motive for the deaths is sketchy but the consensus is clear Someone is trying to scare tourists away but no one knows who or why Most of the murders occur during springtime festivals and most of the bodies are found in the hills above Heidelberg except the latest one which is found outside a US military installation near Seckenheim This raises more questions since besides location there are other inconsistencies that cannot be explained Inspector Krupp is faced with a puzzling dilemma Is a clever killer trying to confuse the police or are there two vicious killers on the loose with different motives Soon when a fifth victim is discovered and a sixth is identified as a possible next one Krupp must accept what his seasoned instincts tell him The killer is someone he knows Now he must prove what he suspects before another innocent victim is killed or he is
