New York Magazine ,1995-10-16 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea

Reading and the Reference Librarian Juris Dilevko,Lisa Gottlieb,2014-10-16 Reference librarians are no longer expected to know much about the information they find they are merely expected to find it Technological competency rather than knowledge has become the order of the day In many respects reference service has become a matter of typing search terms into a library s online catalog or a web search engine and providing the patron with the results of the search Calling for a re intellectualization of reference librarianship this book suggests another approach to providing quality reference service reading The authors surveyed both academic reference librarians and public library reference personnel in the United States and Canada about their reading habits From the 950 responses the authors present findings about the extent to which librarians read newspapers periodicals fiction and nonfiction and recount and analyze stories about how reading has made them better librarians The authors also report that North American professors in the humanities and social sciences believe that the best reference librarians are those who have wide ranging subject based knowledge as opposed to the type of process based functional knowledge that is increasingly dominating the curricula of many Library and Information Science programs

Cell-Free Nucleic Acids Bálint Nagy,2020-01-21 The deficits of mammography and the potential of noninvasive diagnostic testing using circulating miRNA profiles are presented in our first review article Exosomes are important in the transfer of genetic information The current knowledge on exosome associated DNAs and on vesicle associated DNAs and their role in pregnancy related complications is presented in the next article The major obstacle is the lack of a standardized technique for the isolation and measurement of exosomes One review has summarized the latest results on cell free nucleic acids in inflammatory bowel disease IBD Despite the extensive research the etiology and exact pathogenesis are still unclear although similarity to the cell free ribonucleic acids cfRNAs observed in other autoimmune diseases seems to be relevant in IBD Liquid biopsy is a useful tool for the differentiation of leiomyomas and sarcomas in the corpus uteri One manuscript has collected the most important knowledge of mesenchymal uterine tumors and shows the benefits of noninvasive sampling Microchimerism has also recently become a hot topic It is discussed in the context of various forms of transplantation and transplantation related advanced therapies the available cell free nucleic acid cfNA markers and the detection platforms that have been introduced Ovarian cancer is one of the leading serious malignancies among women with a high incidence of mortality the introduction of new noninvasive diagnostic markers could help in its early detection and treatment monitoring Epigenetic regulation is very important during the development of diseases and

drug resistance Methylation changes are important signs during ovarian cancer development and it seems that the CDH1 gene is a potential candidate for being a noninvasive biomarker in the diagnosis of ovarian cancer Preeclampsia is a mysterious disease despite intensive research the exact details of its development are unknown It seems that cell free nucleic acids could serve as biomarkers for the early detection of this disease Three research papers deal with the prenatal application of cfDNA Copy number variants CNVs are important subjects for the study of human genome variations as CNVs can contribute to population diversity and human genetic diseases These are useful in NIPT as a source of population specific data The reliability of NIPT depends on the accurate estimation of fetal fraction Improvement in the success rate of in vitro fertilization IVF and embryo transfer ET is an important goal The measurement of embryo specific small noncoding RNAs in culture media could improve the efficiency of ET
