Women And International Peacekeeping Women And International Peacekeeping:

Women and International Peacekeeping Louise Olsson, Torunn L. Tryggestad, 2001 This work focuses on women's participation in peacekeeping operations and what needs to be considered regarding the role and circumstances of women including those in relation to the host society Men, Militarism, and UN Peacekeeping Sandra Whitworth, 2004 In this important controversial and at times troubling book Sandra Whitworth looks behind the rhetoric to investigate from a feminist perspective some of the realities of military intervention under the UN flag Whitworth contends that there is a fundamental contradiction between portrayals of peacekeeping as altruistic and benign and the militarized masculinity that underpins the group identity of soldiers Examining evidence from Cambodia and Somalia she argues that sexual and other crimes can be seen as expressions of a violent hypermasculinity that is congruent with militarized identities but entirely incongruent with missions aimed at maintaining peace She also asserts that recent efforts within the UN to address gender issues in peacekeeping operations have failed because they fail to challenge traditional understandings of military conflict and women This unsettling critique of UN operations which also investigates the interplay between gender and racial stereotyping in peacekeeping has the power to change conventional perceptions with considerable policy implications

Women and International Peacekeeping Louise Olsson, Torunn L. Tryggestad, 2001 *International Peacekeeping: The Yearbook of International Peace Operations* Louise Olsson, 2009-05-15 This book expands the inquiry of United Nations peace operations to incorporate their effects on the equality of the host state To achieve this a mainstream based analytical framework additionally informed by suggestions from feminist research is formulated and applied to the case of Timor Leste The study makes two contributions Firstly it enhances our ability to trace changes in the power balance between men and women by developing the concept of gender power relations especially introducing security equality understood as the distribution of protection between men and women Secondly when the concept of gender power relations had been developed to enable a more fine grained analysis the project proceeds to systematically explore effects of peace operations on these power relations in the host state The results show the importance of considering the differences in situation of men and women in order both to avoid doing harm and to obtain a more equal peace **The Oxford Handbook of Women,**
