Garlen,Anissa M. Graham,2024-08-27 For nearly 60 years Star Trek has

imagined humanity's future while reflecting its present. Star Trek: The Original Series debuted with three male leads but in the wake of a Trek renaissance that began with Star Trek: Discovery in 2017, additional series have explored the frontiers of representation, making the present moment ripe for new critical engagement and thoughtful reflection on the narratives that have shaped the journey thus far. Using the lens of feminist criticism and theory, this collection of essays presents a diverse array of academic and fan scholars engaging with the past, present, and future of Star Trek. Contributors consider issues like Klingon marriage, Majel Barrett's legacy, the Bechdel-Wallace test, LGBTQ representation, and more. They offer updated readings on legacy characters while also addressing wholly new characters like Michael Burnham, Beckett Mariner, and Adira Tal. Their essays provide some of the first critical examinations of the newest additions to the Trek franchise, including *Picard*, *Strange New Worlds*, and *Lower Decks*.

Recent Releases Geert Hallbäck, Annika Hvithamar, 2008. The relationship between theology and film has always been a complicated one. When film was invented at the end of the nineteenth century, it quickly gained its place in popular culture, far from the orthodoxies of the scholarly world and of the Church. For the better part of the twentieth century, popular cinema was considered off-limits for serious studies of Bible and culture. Recently, however, there has been a growing understanding of how the Bible is being used in popular culture, not as a historical document or as an authoritative canon, but as part of the cultural intertext. Cinema is a vivid example of the role and impact of the Bible in contemporary society. In this well-theorized collection of essays, the issue is treated from several angles. Using the methodology of theology, the question of the alleged escapism of popular cinema is explored. Using the methodology of media studies, the impact of the media on religious communication is analysed. And using the methodology of religious studies, the influence of the cinema in the creation of new religions, religious behaviour, and religious institutions is investigated. In addition, the book offers fruitful analyses of the cinematic use of biblical themes, such as Eden, salvation, Mary Magdalene, and Jesus, as well as of the cinematic application of ethical themes, such as truth-telling, personal growth, suffering, the accomplishment of good, and the creating of meaning for human beings.
