changing your mind about the concept of money The basic idea of this book is that getting rich is a science and can create wealth in everyone s life The ideas and concepts once studied and applied will transform your mental approach to money This is a book that will take you a day to read but a life time to understand fully Give it serious study and I guarantee you success But he s best understood from his own words on the subject A Summary of The Science of Getting Rich There is a thinking stuff from which all things are made and which in its original state permeates penetrates and fills the interspaces of the universe A thought in this substance produces the thing that is imaged by the thought A person can form things in his thought and by impressing his thought upon formless substance can cause the thing he thinks about to be created In order to do this a person must pass from the competitive to the creative mind Otherwise he cannot be in harmony with formless intelligence which is always creative and never competitive in spirit A person may come into full harmony with the formless substance by entertaining a lively and sincere gratitude for the blessings it bestows upon him Gratitude unifies the mind of man with the intelligence of substance so that man s thoughts are received by the formless A person can remain upon the creative plane only by uniting himself with the formless intelligence through a deep and continuous feeling of gratitude A person must form a clear and definite mental image of the things he wishes to have to do or to become and he must hold this mental image in his thoughts while being deeply grateful to the supreme that all his desires are granted to him The person who wishes to get rich must spend his leisure hours in contemplating his vision and in earnest thanksgiving that the reality is being given to him Too much stress cannot be laid on the importance of frequent contemplation of the mental image coupled with unwavering faith and devout gratitude This is the process by which the impression is given to the formless and the creative forces set in motion The creative energy works through the established channels of natural growth and of the industrial and social order All that is included in his mental image will surely be brought to the person who follows the instructions given above and whose faith does not waver What he wants will come to him through the ways of established trade and commerce In order to receive his own when it is ready to come to him A person must be in action in a way that causes him to more than fill his present place He must keep in mind the purpose to get rich through realization of his mental image And he must do every day all that can be done that day taking care to do each act in a successful manner He must give to every person a use value in excess of the cash value he receives so that each transaction makes for more life And he must hold the advancing thought so that the impression of increase will be communicated to all with whom he comes into contact The men and women who practice the foregoing instructions will certainly get rich and the riches they receive will be in exact proportion to the definiteness of their vision the fixity of their purpose the steadiness of their faith and the depth of their gratitude Get Your Copy Now *Think & Grow Rich* Napoleon Hill, Wendy Wallace, 2009-11 STOP WONDERING WHAT IT S LIKE TO BE RICH AND START PUTTING MONEY IN THE BANK First published in 1937 Think and Grow Rich is one of the most influential and powerful books on the subject of creating wealth bringing the wisdom and secrets of the rich and
