**Second Language Acquisition Theory and Pedagogy** Fred R. Eckman,Jean Mileham,Rita Rutkowski Weber,Diane Highland,Peter W. Lee,2013-10-08 A volume on second language acquisition theory and pedagogy is at the same time a mark of progress and a bit of an anomaly The progress is shown by the fact that the two disciplines have established themselves as areas of study not only distinct from each other but also different from linguistic theory This was not always the case at least not in the United States The anomaly results from the fact that this book deals with the relationship between L2 theory and pedagogy despite the conclusion that there is currently no widely accepted theory of SLA Grouped into five sections the papers in this volume consider questions about L2 theory and pedagogy at the macro level from the standpoint of the L2 setting consider input in terms of factors which are internal to the learner examine the question of external factors affecting the input such as the issue of whether points of grammar can be explicitly taught deal with questions of certain complex linguistic behaviors and the various external and social variables that influence learners and discuss issues surrounding the teaching of pronunciation factors that affect a non native accent

**Pedagogy in (E)Motion** Nellie J. Zambrana-Ortiz,2011-04-29 This personal creative critical work from a leading scholar of psychology is rooted in three novel concepts and aims to share critical pedagogy in the spirit of nascent potential found in the context of a colonial Puerto Rico First comes the idea of pedagogy in e motion or the emotional matrix of the teaching and learning process Secondly the author explores the notion of street pedagogy as a genuine and powerful professional tool And thirdly the book underscores what Zambrana Ortiz calls the interconnection of the artscience within the political and biographical act of teaching The purpose is to inform education teaching practice with the radical framework that like the neurosciences believes emotions to be a vital precursor to the planning of action the process of decision making and the broadening of our cognitive parameters The chapters focus on different and yet complementary dimensions of a college teaching initiative boasting a unique interplay between a transgressive narrative reinvented methodology and authentic samples of students contributions to the project Traditionally emotional and visceral experiences have been downplayed and rejected as fundamental components of knowledge This book makes the case for their reinstatement and proposes that the pleasure and commitment of teaching itself can be seen as resistance given the challenging social and political context the bureaucracy of the Puerto Rican higher education system and the cynicism of the self confessed cognoscenti who think that little political progress can come from within the university system Such resistance has proved for the author a source of inspiration and

has contributed to her creation and reconceptualization of approaches to critical and useful pedagogy. To my students who inspire many stories and provoke many emotions and challenge my capacities. To Aura Ignacio and Jaime for their unconditional love and their everyday lessons. Acknowledgments: Many friends, mentors and colleagues from the University of Puerto Rico and United States were very important pieces to my creative work. Thanks to Donaldo Macedo who encouraged the initial proposal and to Joe Kincheloe for accepting it and bringing guidance in the right moment. Colleagues like Roam Torres and Angeles Molina from their directive positions were extremely supportive while Sandra Macksoud, Jos Sol's, Pedro Subirats and Ada Prabhavat gave me guidance and constant insights in editing and translation as well as crucial material for my narrative. Juan Vadi enhanced my graphic elements with his talent while college mentors, current colleagues, teachers and former graduate and undergraduate students allowed me to write their stories and reflections, bringing fresh accents and life to the book. Thanks for ever.
