Walker Evans Decade by Decade James Crump, 2010 **Walker Evans** James Crump, 2012 The photographs of Walker Evans 1903-1975 altered the American consciousness many of his images are fixed in our collective memory His uncompromising documentation of poverty during the Great Depression is iconic in the history of photography yet his equally innovative works produced in the ensuing decades have been little known and underappreciated This monograph spanning all of Evans's work presents many photographs that are only rarely seen including his last images the Polaroids he shot in the early 1970s The photographer's rising influence in the 1970s and his symbiotic relationship with legendary Museum of Modern Art curator John Szarkowski are at the core of this revisionist volume Book jacket Walker Evans, 2013

Anxious Decades: America in Prosperity and Depression, 1920-1941 Michael E. Parrish, 1994-04-17 Impressively detailed An authoritative and epic overview Publishers Weekly In the convulsive years between 1920 and 1941 Americans were first dazzled by unprecedented economic prosperity and then beset by the worst depression in their history It was the era of Model T's rising incomes scientific management electricity talking movies and advertising techniques that sold a seemingly endless stream of goods But it was also a time of grave social conflict and human suffering The Crash forced Hoover and then Roosevelt and the nation to reexamine old solutions and address pressing questions of recovery and reform economic growth and social justice The world beyond America changed also in these years making the country rethink its relation to events in Europe Latin America and Asia The illusion of superiority slowly died in the 1930s sustaining a fatal blow in December 1941 at Pearl Harbor *American Photography and the American Dream* James Guimond, 1991 Looks at how documentary photographers have contested the idea of the American dream and discusses the work of Francis Benjamin Johnston Lewis Hine Walker Evans Dorothea Lange William Klein Diane Arbus and Robert Frank Maine Photography Libby Bischof, Susan Danly, Earle G. Shettleworth, 2023-11-22 Maine has always played a rich and varied role in the art of photography For hundreds of years photographers like other artists have made their way to Maine to capture the natural beauty and human culture of the state So too have many photographers come from Maine and many contributions by Mainers have been made to the medium Maine in Photography is the first comprehensive overview of the history of photography in the state Providing basic knowledge of the most important people and institutions to have promoted photography this volume also studies the ways in which photography has informed the understanding of the social and cultural history of Maine Beginning with the earliest daguerreotype portraits of the 1840s this history traces the growth of the medium emphasizing key contributions such as the Stanley brothers' invention of the dry plate process through to the present Key topics addressed throughout the book include the importance of photography in documenting labor and economic life the close relationship between photography and the growth of tourism and the role of Maine photographers in advancing the medium as a fine art form Published in conjunction with the Maine Photo Project this is a unique and timely addition to the body of work on the

importance of Maine to American art **Confronting Modernity** Richard B. Megraw, 2008 An analysis of how modernity and modernism complicated local visions of art and society *Nevada Historical Society Quarterly*, 2005 The Carleton Miscellany, 1961 *Encyclopedia of the Great Depression: A-K* Robert S. McElvaine, 2004 These volumes discuss depression era politics government business economics literature the arts and more **Picturing Faith** Colleen McDannell, 2004-01-01 Henri Peyre 1901-1988 a giant figure in French studies did more to introduce Americans to the modern literature and culture of French than any other person Sterling Professor and chair of the French Department of Yale University for more than four decades Peyre was also the author of forty four books a brilliant speaker and a mentor to two generations of students He left enormous legacies as both teacher and scholar Peyre also left a large and fascinating body of correspondence This collection of his letters documents the era in which he lived His lively letters also bear witness to the vast network of his friends and colleagues including such major post war literary figures as Robert Penn Warren Andre Gide and Andre Malraux

Walden's Stationer and Printer, 1920 **Essays from the Lowell Conference on Industrial History, 1982 and 1983** Robert Weible, 1985-06 Essays and programs from the 1982 and 1983 Lowell Conference on Industrial History The theme for the 1982 conference was The Arts and Industrialism while the theme for the 1983 conference was The Industrial City *The Development of an American Culture* Stanley Coben, Lorman Ratner, 1970 Some of the outstanding scholars in the field of American culture have contributed to this new collection of original essays Each chapter represents the author's scholarly approach to a particular problem in American cultural history yet the essays as a whole achieve unity through their chronological order and common themes Although not a complete history of American culture this book is noteworthy for the important trends in American culture that it discusses The editors Coben and Ratner explain this significance in their introduction to the essays Our authors have not attempted to provide a comprehensive survey of the national culture or cultures in the period They have tried rather to explore periods during which important aspects of American culture became significant or at least obvious concentrating usually on the groups most involved in these changes Beginning with a discussion of the European outposts of the mid seventeenth century the essayists go on to examine popular symbols connected with the American revolution the reforms instituted during the early 19th century the political speeches and essays of 1820-1850 the Southern subcultures of the mid nineteenth century the progressive spirit of the early twentieth century the intellectual crisis of the 1920's the cultural mood of acquiescence in the 1930's and finally the state of culture in contemporary America Publisher **The Documentary Idea in Depression America** Leslie Crammond High, 1981

Walker Evans Walker Evans, Belinda Rathbone, Clark Worswick, 2000 Walker Evans America's preeminent documentary artist has profoundly changed the way Americans look at themselves and their country The authors document Evans' monumental career and present scores of his never before published pictures drawn from the largest private collection of his work in the world 160 duotones *Fourth Estate*, 1917 **Bust to Boom** Donald Worster, 1996 In this captivating

collection some of America's best known documentary photographers provide a valuable glimpse into a tumultuous time. These photographs, most never before published, show the faces and emotions of FSA aided farmers, dust bowl debris, and tumbleweeds, failed banks, and thriving stockyards, locomotives, and Mexican American railroad workers, oil derricks, wheat country, black cavalry troops, and 4-H Club fairs. Environmental historian Donald Worster provides historical context for these moving pictures. *Communication in History* David J. Crowley, Paul Heyer, 2003. Encompassing topics as wide ranging as the role of printing in the rise of the modern state and the role of the Internet in the Information Age, this revised anthology reveals how media have been influential both in maintaining social order and as powerful agents of change. **The Publishers Weekly**, 1900
