Waste Object Lessons:

Waste Brian Thill, 2015-09-24 Waste explores the question from nuclear waste to digital detritus what can we learn about ourselves from what we let go to waste **Object lessons in geography (and science).** David Frew, 1900 Object lessons and how to give them George Ricks, 1883 Object Lessons Sarah Anne Carter, 2018-07-12 Object Lessons How Nineteenth Century Americans Learned to Make Sense of the Material World examines the ways material things objects and pictures were used to reason about issues of morality race citizenship and capitalism as well as reality and representation in the nineteenth century United States For modern scholars an object lesson is simply a timeworn metaphor used to describe any sort of reasoning from concrete to abstract But in the 1860s object lessons were classroom exercises popular across the country Object lessons helped children to learn about the world through their senses touching and seeing rather than memorizing and repeating leading to new modes of classifying and comprehending material evidence drawn from the close study of objects pictures and even people In this book Sarah Carter argues that object lessons taught Americans how to find and comprehend the information in things from a type metal fragment to a whalebone sample Featuring over fifty images and a full color insert this book offers the object lesson as a new tool for contemporary scholars to interpret the meanings of nineteenth century material cultural and intellectual life **Object Lessons** Caren Holtzman, Lynn Susholtz, 2024-11-15 When Caren Holtzman and Lynn Susholtz look around a classroom they see a veritable goldmine of mathematical investigations involving number measurement size shape symmetry ratio and proportion They also think of the ways great artists have employed these concepts in their depictions of objects and space for example Picasso s use of geometric shapes in his Cubist still lifes or contemporary artist Tara Donovan s room sized sculptures of everyday items In their new book Object Lessons Caren a math educator and Lynn an artist and art educator use a highly visual approach to show students and teachers the art in math and the math in art Integrating visual arts into math experiences makes the lessons accessible engaging and meaningful for a wide range of students In each chapter the authors use everyday objects to create rigorous hands on activities that address key mathematics standards and concepts Each lesson provides an introduction to the featured object that explains how it connects to key mathematical concepts a discussion of the artists art styles and techniques featured activities organized by grade level and math content area the basic materials required to prepare and teach each lesson a clear picture of what the lesson will look like in a classroom and a list of resources The book and its accompanying CD feature a wonderful gallery of images including art photos and student work and a collection of links to art education organizations museums and Web sites that focus on the work of forty major artists **Scripture Object Lessons and Outline Teaching for Sunday Schools** Henry Christopher Maccob, 1872 *Primary Object Lessons* Norman Allison Calkins, 1888 *The object-lesson handbook, a companion to 'Blackie's science readers'.* Blackie & Son, Blackie and son, ltd, 1895 **Chatty object lessons in nature knowledge for standard 1 (-3).** Frederick William Hackwood, 1900

Histories of the Dustheap Stephanie Foote, Elizabeth Mazzolini, 2012-10-05 An examination of how garbage reveals the relationships between the global and the local the economic and the ecological and the historical and the contemporary Garbage considered both materially and culturally elicits mixed responses Our responsibility toward the objects we love and then discard is entangled with our responsibility toward the systems that make those objects Histories of the Dustheap uses garbage waste and refuse to investigate the relationships between various systems the local and the global the economic and the ecological the historical and the contemporary and shows how this most democratic reality produces identities social relations and policies The contributors first consider garbage in subjective terms examining toxic autobiography by residents of Love Canal the intersection of public health and women s rights and enviroblogging They explore the importance of place with studies of post Katrina soil contamination in New Orleans e waste disposal in Bloomington Indiana and garbage on Mount Everest And finally they look at cultural contradictions as objects hover between waste and desirability examining Milwaukee s efforts to sell its sludge as fertilizer the plastics industry s attempt to wrap plastic bottles and bags in the mantle of freedom of choice and the idea of obsolescence in the animated film The Brave Little Toaster Histories of the Dustheap offers a range of perspectives on a variety of incarnations of garbage inviting the reader to consider garbage in a way that goes beyond the common buy green discourse that empowers individuals while limiting environmental activism to consumerist practices **Object Lessons for Infants** Vincent Thomas Murché, 1895 The A B C of Taxation, with Boston

Object Lessons, Private Property in Land, and Other Essays and Addresses Charles Bowdoin Fillebrown, 1909 **Spectacles of Waste** Warwick Anderson, 2024-03-13 The modern bathroom is an ingenious compilation of locked doors smooth porcelain 4 ply tissue and antibacterial hand soap but despite this miracle of indoor plumbing we still can t bear the thought that anyone else should know that our bodies produce waste Why must we live by the rules of this intense scatological embarrassment In Spectacles of Waste leading historian of medicine Warwick Anderson reveals how human excrement has always complicated humanity s attempts to become modern From wastewater epidemiology and sewage snooping to fecal transplants and excremental art he argues that our insistence on separating ourselves from our bodily waste has fundamentally shaped our philosophies social theories literature and art even the emergence of high tech science as we understand it today Written with verve and aplomb Anderson s expert analysis reveals how in recent years humanity has doubled down on abstracting and datafying our most abject waste and unconsciously underlined its biopolitical signature across our lives Object Lessons for Infants Vincent T.
