studying in the country Seeking an effective remedy the author argues that utilising literature in the EFL classroom would be beneficial in terms of many essential aspects Based on a three year research project conducted at a private university in Dubai involving a number of EFL students the book concludes with some suggestions with regards to what criteria to adopt when utilising literary texts The current book as such is expected to be of use and interest to applied linguists as the study proposes an approach to integrating the teaching of language literature communication and critical thinking with the ultimate goal of promoting communicative competence and enhancing critical thinking on the part of EFL learners curricula designers since the study introduces a course for the enhancement of communicative competence and critical thinking and EFL instructors because the study offers instructional material which can be adopted or adapted when teaching EFL university students
