*What Is Asian*

*American Biblical Hermeneutics? Reading the New Testament* Tat-siong Benny Liew, 2007-12-31 Liew is one of the most articulate creative and sophisticated biblical scholars in North America. What *Is Asian American Biblical Hermeneutics* has not caused me to question that judgment. A set of provocative questions, arguments, issues, and problems the book opens a window onto what it means for human beings to try to negotiate a rather complex contemporary world with evidence of increasingly blurred but also thick ideological and social cultural boundaries and overlapping but also recognizable and isolable identity formations. That Liew does this by using and bringing together the category Asian American and the phenomenon of the reading of the Bible as sharp analytical wedge is all the more fascinating. This impressive book represents the collapse of the center and a major shift in orientation to the peripheries. It is a major achievement and a major challenge. Vincent L. Wimbush, Claremont Graduate University. A groundbreaking achievement. Dr. Liew uses his amazing breadth of scholarship to challenge Eurocentrism in biblical studies and secularism in Asian American studies at once. Like *Gender Trouble*, *The Future of an Illusion*, and other original work, this book will become a classic in Asian American biblical hermeneutics, setting the terms of debate for years to come. After Liew, reading the New Testament will never be the same again. Kwok Pui-lan, Episcopal Divinity School, Cambridge, Massachusetts. This is the first single-authored book on Asian American biblical interpretation. It covers all of the major genres within the New Testament and broadens biblical hermeneutics to cover not only the biblical texts but also Asian American literature and current films and events like genome research and September 11. Despite its range, the book is organized around three foci: methodology, the distinguishing characteristics or sensibilities of Asian American biblical hermeneutics, community, the politics of inclusion and exclusion, and agency. The work intentionally affirms Asian America as a panethnic coalition while acknowledging the differences within it. In other words, it attempts to balance Asian American panethnicity and heterogeneity or coalition building and identity politics.
