Female Serial Killers Peter Vronsky, 2007-08-07 In this fascinating book Peter Vronsky exposes and investigates the phenomenon of women who kill and the political economic social and sexual implications buried with each victim How many of us are even remotely prepared to imagine our mothers daughters sisters or grandmothers as fiendish killers For centuries we have been conditioned to think of serial murderers and psychopathic predators as men with women registering low on our paranoia radar Perhaps that's why so many trusting husbands lovers family friends and children have fallen prey to the female monster From history's earliest recorded cases of homicidal females to Irma Grese the Nazi Beast of Belsen from Britain's notorious child slayer Myra Hindley to Honeymoon Killer Martha Beck to the sensational cult of Aileen Wournos the first female serial killer as celebrity to cult killers homicidal missionaries and our pop culture fascination with the sexy femme fatale Vronsky not only challenges our ordinary standards of good and evil but also defies our basic accepted perceptions of gender role and identity INCLUDES PHOTOGRAPHS

**Evil Women** John Marlowe, 2017-07-11 Many people find it impossible to believe women are capable of committing brutal murders but this book shows otherwise Katherine Knight donned a black negligee before stabbing her lover John Price 37 times then serving up his corpse for dinner with baked potatoes pumpkin and all the trimmings Sue Basso became supermarket packer Buddy Musso's lady love but his dreams of happiness were shredded when she and her friends tortured him to death for a paltry 15 000 life insurance policy Shelly Michael injected her husband with a drug that led to death by slow suffocation then she set their house on fire Each of the cases documented here makes for a chilling read proving that evil transcends the sexes *Violent Women in Contemporary Theatres* Nancy Taylor Porter, 2017-12-14 This book brings together the fields of theatre gender studies and psychology sociology in order to explore the relationships between what happens when women engage in violence how the events and their reception intercept with cultural understandings of gender how plays thoughtfully depict this topic and how their

productions impact audiences Truthful portrayals force consideration of both the startling reality of women's violence not how it's been sensationalized or demonized or sexualized but how it is and what parameters what possibilities should exist for its enactment in life and live theatre These women appear in a wide array of contexts they are mothers daughters lovers streetfighters boxers soldiers and dominatrixes Who they are and why they choose to use violence varies dramatically They stage resistance and challenge normative expectations for women This fascinating and balanced study will appeal to anyone interested in gender feminism issues and theatre Women Who Kill, Criminal Law and Domestic Abuse Rachel M.

McPherson, 2023-10-16 This book presents an informed coherent and stimulating analysis of UK legal defences of homicide by victims of domestic abuse Women killing following domestic abuse from a male partner is a significant category of homicide In some areas of the UK it represents the most common context in which women kill Yet despite its significance it is an aspect of homicide that remains under researched within a UK context Much of what is known about cases of this type comes from other jurisdictions This book brings together a coherent understanding of the UK landscape in this area It builds upon existing literature particularly from the US which has examined this issue from a practical perspective using the lived experiences of practitioners involved in cases of this type The collection combines the experiences of those in practice with academic expertise pointing to potential sites of injustice that exist in this context and offering suggestions for reform The volume will be a valuable guide for those involved in cases of this nature whilst also offering insight to those academics with an interest in homicide and legal responses to domestic abuse The book will also be of interest to those working in the area of comparative criminal justice **Evil Women: Representations within Literature, Culture and Film** Robyn

Muir, Beatrice Frasl, Christie Marie Lauder, Elizabeth Schreiber-Byers, 2022-04-25 Evil women who are they really What are their motives and how are they remembered and constructed within our culture Evil Women Representations within Literature Culture and Film seeks to interrogate the nature and construction of evil women in the above fields Through literature poetry history ballads film and real life culture scholars explore how the evil woman has been constructed and in some cases erased the punishment and treatment of evil women and the way evil women have been portrayed on and off screen through character narrative and behind the camera development Encyclopedia of Crime and Punishment: S-Z, Index David Levinson, 2002

Kathleen Parker,2010-11-09 With piercing wit and perceptive analysis Pulitzer Prize winning writer Kathleen Parker explores how men maleness and fatherhood have been under siege in American culture for decades She argues that the feminist movement veered off course from its original aim of helping women achieve equality and ended up making enemies of men The pendulum has swung from the reasonable middle to a place where men have been ridiculed in the public square and the importance of fatherhood has been diminished all to the detriment of women and children who ultimately suffer most Exploring our burgeoning culture of permissiveness and the impact of anti male attitudes on families and relationships Kathleen Parker tackles some of the more taboo subjects in today s sexual politics and culture wars that will have America talking about saving the males

*Reading Is My Window* Megan Sweeney,2010-02-15 Drawing on extensive interviews with ninety four women prisoners Megan Sweeney examines how incarcerated women use available reading materials to come to terms with their pasts negotiate their present experiences and reach toward different futures Foregrounding the voices of African American women Sweeney analyzes how prisoners read three popular genres narratives of victimization urban crime fiction and self help books She outlines the history of reading and education in U S prisons highlighting how the increasing dehumanization of prisoners has resulted in diminished prison libraries and restricted opportunities for reading Although penal officials have sometimes endorsed reading as a means to control prisoners Sweeney illuminates the resourceful ways in which prisoners educate and empower themselves through reading Given the scarcity of counseling and education in prisons women use books to make meaning from their experiences to gain guidance and support to experiment with new ways of being and to maintain connections with the world

**Law's Relations** Jennifer Nedelsky,2011-06-30 In this brilliantly innovative work Jennifer Nedelsky claims that we must rethink our notion of autonomy rejecting the usual vocabulary of control boundaries and individual rights If we understand that we are fundamentally in relation to others she argues we will recognize that we become autonomous with others Law s Relations includes many concrete legal applications of her theory of relational autonomy offering new insights into the debates over due process judicial review violence against women and private versus public law

*Dead Woman Walking* Anette Ballinger,2019-05-24 This title was first published in 2000 Between 1900 and 1950 130 women were sentenced to death for murder in England and Wales Only 12 of these women were actually executed Thus 91 per cent of women murderers had their sentence commuted whereas if we examine the corresponding figures for men only 39 per cent had their sentence commuted It would appear that state servants working within the criminal justice system were far more reluctant to hang women than men However this text argues that a closer examination of this apparent discrepancy reveals it to be a misconception which has come about as a result of the statistics regarding infanticide That is to say unlike men the vast majority of women murderers have killed their own child or children Once this is taken into account we find that women who had murdered an adult had less hope of a reprieve than men Thus the author shows that the large proportion of women murderers as killers of their own children has created a false

impression of how female murderers fared inside the criminal justice system
