Where Is The Green Sheep Literacy Activities:

Two Books Are Better Than One! Shari Frost, 2016-06-03 Coming in June 2016 Today's early literacy programs are more demanding than ever. No longer is it sufficient to teach letters, letter sounds, sight words, and simple texts in kindergarten through second grade. Children are expected to read and comprehend texts in a variety of genres with increasing complexity. Then they must integrate the ideas and concepts from those texts into their own writing. Two Books Are Better Than One: Reading and Writing and Talking and Drawing Across Texts in K-2 helps teachers meet those demands. Each chapter contains an anchor lesson focused on a different way of connecting texts including by theme, characters, perspective, structure, or genre. The lessons feature research-based and common core-aligned strategies: interactive read-alouds, shared reading, and writing scaffolded small group reading, accountable talk, close reading, and opinion, narrative, and explanatory writing. Each anchor lesson features two high-quality children's books, and each chapter is rounded out with a list of other recommended book pairs to support you in creating your own lessons. **Read, Rhyme, and Romp** Heather

McNeil, 2012-06-26 Designed to promote literacy in young children and to empower parents, educators, and librarians, this guide is filled with simple strategies, creative activities, and detailed instructions that help make reading fun. Encouraging a love of reading in young children can be a source of both great frustration and immense joy. This handy resource provides essential tips, techniques, and strategies for making early literacy development fun and inspiring a lifelong love of reading. **Read, Rhyme, and Romp: Early Literacy Skills and Activities for Librarians, Teachers, and Parents** explores the six basic pre-literacy skills that experts agree are necessary for a young child to be ready to learn to read. Special sections within each chapter are dedicated to the specific needs of preschool teachers, parents, and librarians, making the content relevant to different settings. Recommended book lists, personal anecdotes, and literacy-rich activities combine to create an effective and accessible plan for implementing an early literacy program. **Bringing Heart and Mind into Storytime** Heather

McNeil, 2022-04-01 Learn how to use children's books during storytime to approach sensitive topics and increase children's social-emotional wellness and how to create storytimes that are engaging, participative, and FUN. The emotional challenges many children experience consume the time of teachers, exhaust parents, and sometimes lead children toward behaviors that prohibit social and academic success. Storytime to the rescue! Library storytimes prepare children for kindergarten; storytimes at home and in preschools allow teachers, parents, and children to think and talk about empathy and the importance of honoring your own and others' feelings. In **Bringing Heart and Mind into Storytime**, Heather McNeil teaches librarians and teachers how to use books to open conversations with children to teach such concepts as patience, tenacity, kindness, and teamwork. McNeil shares research on brain development, social-emotional learning, and the importance of play, but she also emphasizes maintaining the fun of storytime. She recommends songs, action rhymes, games, and crafts that contribute to fun and healthy storytimes. Extensive lists of recommended books will help readers find the right ones for their audience.

Solving the Reading Riddle Rita Soltan, 2010-04-15 This book explores what the past 75 years of reading instruction has meant to children, teachers and parents and how children's librarians and school media specialists are a crucial part of the developing philosophy and strategy. As a children's librarian, you are increasingly being called upon to support schools and parents in teaching children to read from early literacy initiatives and read alouds to parent workshops and collection development endeavors. Yet if you're like most public librarians, you probably have no clue as to what reading strategies other educators use. Understanding reading instruction theory and practice can help you function better in these roles and communicate more effectively with other educators and parents.

Solving the Reading Riddle: The Librarian's Guide to Reading Instruction explains the theories and shows you how to effectively integrate reading instruction theory into your roles as reading advocate, family reading coach, partner with educators and keeper of the books. Designed for public librarians, this book is also beneficial reading for LIS students in children's librarianship courses and for teacher librarians needing more information on this topic.

Multimodal Perspectives of Language, Literacy, and Learning in Early Childhood Marilyn J. Narey, 2017-01-03 Our image-rich media dominated culture prompts critical thinking about how we educate young children. In response, this volume provides a rich and provocative synthesis of theory, research and practice that pushes beyond monomodal constructs of teaching and learning. It is a book about bringing sense to 21st century early childhood education with sense as related to modalities: sight, hearing and sense in terms of making meaning. It reveals how multimodal perspectives emphasize the creative, transformative process of learning by broadening the modes for understanding and by encouraging critical analysis, problem solving and decision making. The volume's explicit focus on children's visual texts art facilitates understanding of multimodal approaches to language, literacy and learning. Authentic examples feature diverse contexts including classrooms, homes, museums and intergenerational spaces and illustrate children's sense making of life experiences such as birth, identity, environmental phenomena, immigration, social justice and homelessness. This timely book provokes readers to examine understandings of language, literacy and learning through a multimodal lens, provides a starting point for constructing broader multimodal views of what it might mean to make meaning and underscores the production and interpretation of visual texts as meaning making processes that are especially critical to early childhood education in the 21st century.
