The Pastor as Counselor (Foreword by Ed Welch) David Powlison,2021-05-17 David Powlison Examines the Unique Role of the Pastor as Counselor A pastor inhabits multiple roles teacher preacher youth leader and counselor Yet many church leaders feel unprepared to counsel church members who are struggling with difficult multifaceted problems David Powlison reminds pastors of their unique role as the shepherds of God s people equipping them to apply biblical wisdom to the thoughts values moods expectations and decisions of those under their care *Autonomy and the Situated Self* Rachel Haliburton,2013-11-26 Bioethics tells a heroic story about its origins and purpose The impetus for its contemporary development can be traced to concern about widespread paternalism in medicine mistreatment of research subjects used in medical experimentation and questions about the implication of technological developments in medical practice Bioethics then began as a defender of the interests of patients and the rights of research participants and understood itself to play an important role as a critic of powerful interests in medicine and medical practice Autonomy and the Situated Self argues that as bioethics has become successful it no longer clearly lives up to these founding ideals and it offers a critique of the way in which contemporary bioethics has been co opted by the very institutions it once sought with good reason to criticize and transform In the process it has become mainstream moved from occupying the perspective of a critical outsider to enjoying the status of a respected insider whose primary role is to defend existing institutional arrangements and its own privileged position The mainstreaming of bioethics has resulted in its domestication it is at home in the institutions it would once have viewed with skepticism and a central part of practices it would once have challenged Contemporary bioethics is increasingly dominated by a conception of autonomy that detaches the value of choice from the value of the things chosen and the central role occupied by this conception makes it difficult for the bioethicist to make ethical judgments Consequently despite its very public successes contemporary bioethics is largely failing to offer the ethical guidance it purports to be able to provide In addition to providing a critique this book offers an alternative framework that is designed to allow bioethicists to address the concerns that led to the creation of bioethics in the first place This alternative framework is oriented around a conception of autonomy that works within the ethical guidelines provided by a contemporary form of virtue ethics and which connects the value of autonomous choice to a conception of human flourishing *Insight into Acquired Brain Injury* Christine Durham,Paul Ramcharan,2017-07-26 This book offers an empowering approach to working with people with an acquired brain injury ABI based upon the views and perspectives of people with ABI themselves Drawing upon Christine Durham s own ABI experience and Paul Ramcharan s engagement in disability research over a quarter of a century this volume gives voice to 36 participants with ABI as well as carers and other professionals from both urban and rural areas This unique

perspective provides a long needed empathic alternative to the deficit based model of ABI that dominates medical literature and existing rehabilitation models In *Insight into Acquired Brain Injury* the authors use educational and learning principles together with Durham s extensive archive of experiential data to offer a reframing of the nature and experience of ABI and relevant a set of practical real world tools for practitioners These ready to adopt and adapt scripts guided interviews research checklists thinking tools and other innovative techniques are designed to engage with people and colleagues about brain injury as a means of supporting them to feel and fare better With compassion and first hand awareness *Insight into Acquired Brain Injury* provides a much needed perspective that deepens current understanding and translates the complicated life worlds of people living with ABI in order to motivate empower and increase their participation
