Record of Activity Los Pinos Fire Lookout Tower (Calif.),2003 **Beyond Lean** Peter Béndek,2016-01-27 This book by Peter B ndek presents a strong case against the current practice of business operations improvement based on numerous studies from the business world as well as insights from the most prestigious authors of the last fifty years The author contests the applicability and indeed the relevance of the Toyota Production System and its spin offs to the Western context claiming that a revised approach is much better suited to taking our specific cultural conditions into account while also combining increased transparency speed and sustainability of change with a robust value creating capability Dr B ndek argues that this approach can have a far reaching impact on corporate cultures by offering an all encompassing learning system one that provides a more coherent and actionable continuous improvement strategy than conventional approaches The book offers an important guide to rethinking operations management both in academia and business practice

China's Digital Nationalism Florian Schneider,2018-08-16 Nationalism in China as much as elsewhere is today

adopted filtered transformed enhanced and accelerated through digital networks And as we have increasingly seen nationalism in digital spheres interacts in complicated ways with nationalism on the ground If we are to understand the social and political complexities of the twenty first century we need to ask what happens to nationalism when it goes digital In China s Digital Nationalism Florian Schneider explores the issue by looking at digital China first hand exploring what search engines online encyclopedias websites hyperlink networks and social media can tell us about the way that different actors construct and manage a crucial topic in contemporary Chinese politics the protracted historical relationship with neighbouring Japan Using two cases the infamous Nanjing Massacre of 1937 and the ongoing disputes over islands in the East China Sea Schneider shows how various stakeholders in China construct networks and deploy power to shape nationalism for their own ends These dynamics provide crucial lessons on how nation states adapt to the shifting terrain of the digital age and highlight how digital nationalism is today an emergent property of complex communication networks
