Understanding Deleuze Australian Cultural Studies:

Understanding Deleuze Claire Colebrook, 2002 An accessible introduction to the work of this influential and challenging French thinker Australian Cultural Studies John Frow, Meaghan Morris, 1993 Cultural studies has emerged as a major force in the analysis of cultural systems and their relation to social power Rather than being interested in television or architecture or pinball machines themselves as industrial or aesthetic structures cultural studies tends to be interested in the way such apparatuses work as points of concentration of social meaning as media literally according to John Frow and Meaghan Morris Here two of Australia's leading cultural critics bring together work that represents a distinctive national tradition moving between high theory and detailed readings of localized cultural practices Ethnographic audience research cultural policy studies popular consumption bad aboriginal art landscape in feature films style form and history in TV miniseries and the intersections of tourism with history and memory these are among the topics addressed in a landmark volume that cuts across myriad traditional disciplines Gilles Deleuze and Félix Guattari Francois Dosse, 2010-07-02 In May 1968 Gilles Deleuze was an established philosopher teaching at the innovative Vincennes University just outside of Paris Félix Guattari was a political militant and director of an unusual psychiatric clinic at La Borde Their meeting was unlikely and the two were introduced in an arranged encounter of epic consequence From that moment on Deleuze and Guattari engaged in a surprising productive partnership collaborating on several groundbreaking works including *Anti Oedipus* *What Is Philosophy?* and *A Thousand Plateaus* Francois Dosse a prominent French intellectual examines the prolific if improbable relationship between two men of distinct and differing sensibilities Drawing on unpublished archives and hundreds of personal interviews Dosse elucidates a collaboration that lasted more than two decades underscoring the role that family and history particularly the turbulence of May 1968 played in their monumental work He also takes the measure of Deleuze and Guattari's posthumous fortunes and weighs the impact of their thought within intellectual academic and professional circles

across the humanities and social sciences Claire Colebrook's *Understanding Deleuze* offers a comprehensive and very accessible introduction to his work think differently It is built on the notion of an immanent ethics how can we have a political and ethical theory without some external foundation such as the subject or morality He argues that the only way we can do this is with a theory of the virtual and he sees all life not just cyberculture as virtual Deleuze goes further than Foucault or Derrida in questioning the boundaries of the subject and knowledge For Deleuze perception extends beyond the human to animals machines and microorganisms Deleuze's writing is challenging and hard to read and so far there is no introduction to his work Claire Colebrook's primer offers an accessible introduction to the whole Deleuzian oeuvre including the work he did with Guattari
