Understanding The Of Mormon A Readers Guide

Grant Hardy

Understanding The Of Mormon A Readers Guide:

Understanding the Book of Mormon Grant Hardy, 2010-04-07 Mark Twain once derided the Book of Mormon as chloroform in print Long and complicated written in the language of the King James version of the Bible it boggles the minds of many Yet it is unquestionably one of the most influential books ever written With over 140 million copies in print it is a central text of one of the largest and fastest growing faiths in the world And Grant Hardy shows it s far from the coma inducing doorstep caricatured by Twain In *Understanding the Book of Mormon* Hardy offers the first comprehensive analysis of the work s narrative structure in its 180 year history Unlike virtually all other recent world scriptures the Book of Mormon presents itself as an integrated narrative rather than a series of doctrinal expositions moral injunctions or devotional hymns Hardy takes readers through its characters events and ideas as he explores the story and its messages He identifies the book s literary techniques such as characterization embedded documents allusions and parallel narratives Whether Joseph Smith is regarded as author or translator it s noteworthy that he never speaks in his own voice rather he mediates nearly everything through the narrators Nephi Mormon and Moroni Hardy shows how each has a distinctive voice and all are woven into an integral whole As with any scripture the contending views of the Book of Mormon can seem irreconcilable For believers it is an actual historical document transmitted from ancient America For nonbelievers it is the work of a nineteenth century farmer from upstate New York Hardy transcends this intractable conflict by offering a literary approach one appropriate to both history and fiction Regardless of whether readers are interested in American history literature comparative religion or even salvation he writes the book can best be read if we examine the text on its own terms

Reader's Guide to American History Peter J. Parish, 2013-06-17 There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students teachers scholars and librarians often need help and advice on how to find what they want The Reader s Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography Each of the 600 entries on topics in political social and economic history describes and evaluates some 6 to 12 books on the topic providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs The entries are devoted to events and individuals as well as broader themes and are written by a team of well over 200 contributors all scholars of American history

Moral Visions Courtney S. Campbell, Kelly Sorensen, 2025-09-09 Though used by millions as a guide for how to live one s life the Book of Mormon s links with contemporary ethics remain largely unexamined Courtney S Campbell and Kelly Sorensen edit essays that spotlight and encourage further thought on these connections Contributors in the first section discuss foundational issues such as the Book of Mormon s moral psychology its minimalist and covenantal moralities the nature of the good and how the good is known the question of whether value depends on a certain kind of future the Book of Mormon s strategy for moral persuasion and God s participation in human choices In the second section the essayists turn

to everyday ethical questions concerning resistance to forced cultural assimilation clothing and dress authority and memory The final chapter further explores practical moral visions A rich and thought provoking analysis Moral Visions examines the Book of Mormon through a variety of methods while aiming to deepen understanding of both the text s messages and its potential place in future discussions of ethics Contributors Daniel Becerra Courtney S Campbell Ryan Davis Michael D K Ing Ariel Bybee Laughton Kimberly Matheson Rachel Esplin Odell Kelly Sorensen Joseph M Spencer Joseph Smith's Gold Plates Richard Lyman Bushman,2023 According to Joseph Smith the text of the Book of Mormon was revealed to him on a stack of gold plates which he translated into English In this book renowned historian of Mormonism Richard Lyman Bushman offers a cultural history of the gold plates Bushman examines how the plates have been imagined by both believers and critics and by treasure seekers critics novelists artists scholars and others from Smith s first encounter with them to the present Why have they been remembered and how have they been used And why do they remain objects of fascination to this day Foundational Texts of Mormonism Mark Ashurst-McGee,Robin Jensen,Sharalyn D. Howcroft,2018-02-16 Joseph Smith founding prophet and martyr of the Church of Jesus Christ of Latter day Saints personally wrote dictated or commissioned thousands of documents Among these are several highly significant sources that scholars have used over and over again in their attempts to reconstruct the founding era of Mormonism usually by focusing solely on content without a deep appreciation for how and why a document was produced This book offers case studies of the sources most often used by historians of the early Mormon experience Each chapter takes a particular document as its primary subject considering the production of a document as an historical event in itself with its own background purpose circumstances and consequences The documents are examined not merely as sources of information but as artifacts that reflect aspects of the general culture and particular circumstances in which they were created This book will help historians working in the founding era of Mormonism gain a more solid grounding in the period s documentary record by supplying important information on major primary sources What is Mormonism? Patrick Q. Mason,2017-03-27 What is Mormonism A Student s Introduction is an easy to read and informative overview of the religion founded by Joseph Smith in 1830 This short and lively book covers Mormonism s history core beliefs rituals and devotional practices as well as the impact on the daily lives of its followers The book focuses on the Church of Jesus Christ of Latter day Saints the Salt Lake City based church that is the largest and best known expression of Mormonism whilst also exploring lesser known churches that claim descent from Smith s original revelations Designed for undergraduate religious studies and history students What is Mormonism provides a reliable and easily digestible introduction to a steadily growing religion that continues to befuddle even learned observers of American religion and culture **The Evangelical Dictionary of World Religions** H. Wayne House,2019-02-19 With all of the different religions sects denominations and belief systems out there it can be difficult to separate the facts from mere opinion especially if one is relying solely on online sources which may or may not be vetted and which often have an ideological or

political slant to them How can we truly understand if we cannot even be sure we are getting the facts straight In this comprehensive resource more than 75 evangelical scholars offer a thoroughly researched guide to Christianity other world religions and alternative religious views including entries on movements theological terms and major historical figures Perfect for pastors students and anyone who wants ready access to information on today s religious landscape *Lost Tribes Found* Matthew W. Dougherty, 2021-06-03 The belief that Native Americans might belong to the fabled lost tribes of Israel Israelites driven from their homeland around 740 BCE took hold among Anglo Americans and Indigenous peoples in the United States during its first half century In *Lost Tribes Found* Matthew W Dougherty explores what this idea can tell us about religious nationalism in early America Some white Protestants Mormons American Jews and Indigenous people constructed nationalist narratives around the then popular idea of Israelite Indians Although these were minority viewpoints they reveal that the story of religion and nationalism in the early United States was more complicated and wide ranging than studies of American chosen ness or manifest destiny suggest Telling stories about Israelite Indians Dougherty argues allowed members of specific communities to understand the expanding United States to envision its transformation and to propose competing forms of sovereignty In these stories both settler and Indigenous intellectuals found biblical explanations for the American empire and its stark racial hierarchy *Lost Tribes Found* goes beyond the legal and political structure of the nineteenth century U S empire In showing how the trope of the Israelite Indian appealed to the emotions that bound together both nations and religious groups the book adds a new dimension and complexity to our understanding of the history and underlying narratives of early America **Bible Culture and Authority in the Early United States** Seth

Perry, 2018-06-05 Early Americans claimed that they looked to the Bible alone for authority but the Bible was never ever alone *Bible Culture and Authority in the Early United States* is a wide ranging exploration of the place of the Christian Bible in America in the decades after the Revolution Attending to both theoretical concerns about the nature of scriptures and to the precise historical circumstances of a formative period in American history Seth Perry argues that the Bible was not a source of authority in early America as is often said but rather a site of authority a cultural space for editors commentators publishers preachers and readers to cultivate authoritative relationships While paying careful attention to early national bibles as material objects Perry shows that the Bible is both a text and a set of relationships sustained by a universe of cultural practices and assumptions Moreover he demonstrates that Bible culture underwent rapid and fundamental changes in the early nineteenth century as a result of developments in technology politics and religious life At the heart of the book are typical Bible readers otherwise unknown today and better known figures such as Zilpha Elaw Joseph Smith Denmark Vesey and Ellen White a group that includes men and women enslaved and free Baptists Catholics Episcopalians Methodists Mormons Presbyterians and Quakers What they shared were practices of biblical citation in writing speech and the performance of their daily lives While such citation contributed to the Bible s authority it also meant that the meaning of the

Bible constantly evolved as Americans applied it to new circumstances and identities

Law and the Restoration Nathan B. Oman, 2024-08-20

Law and the Restoration Law and Latter day Saint Thought and Scripture is a comprehensive exploration of the intricate relationship between legal principles and the doctrines of The Church of Jesus Christ of Latter day Saints Author Nathan B Oman delves into the profound ways in which Mormon theology intersects with legal concepts offering readers a detailed analysis of church doctrines their authority and their implications for members daily lives In doing so Oman addresses foundational questions about the nature of church authority the role of personal judgment and the dynamic interplay between divine law and secular legal systems The book is not just an academic treatise but a thoughtful discourse aimed at elucidating how Mormons navigate complex moral and legal landscapes in their quest to reconcile faith with modern societal norms Each chapter in **Law and Latter day Saint Thought and Scripture** serves as a deep dive into specific aspects of Mormon doctrine and its legal ramifications From the examination of Nephi s actions in the Book of Mormon to the contemporary debates surrounding same sex marriage and civil disobedience Oman provides a balanced and respectful analysis that seeks to understand rather than critique This book is an invaluable resource for scholars legal practitioners and anyone interested in the intersection of religion and law providing a rich narrative that underscores the ongoing dialogue between faith and jurisprudence within the Latter day Saint tradition
