## Unfinished Worlds: Hermeneutics, Aesthetics and Gadamer

NICHOLAS DAVEY

EDINBURGH UNIVERSITY PRESS, 2013. Pp. viii + 130.  
£70.00 (Hbk).

Nicholas Davey's book, *Unfinished Worlds: Hermeneutics, Aesthetics and Gadamer*, is a thought-provoking study of Gadamer's integration of hermeneutics and aesthetics. Importantly, Gadamer's fusion of hermeneutics and aesthetics reverses traditional conceptions of both disciplines. For example, hermeneutics is typically understood as focusing on meaning, whereas aesthetics is concerned with the particularities of visual, auditory, and related sensual experiences. Davey, however, shows how Gadamer challenges traditional accounts and the resultant consequences. Such consequences include: (a) an anti-essentialist account of the artwork as dynamic and relationally constituted, (b) a significant revision of the theory–practice relationship concerning art in particular and the humanities in general, (c) the elaboration of a hermeneutics of transformative experience, and (d) a redefinition of the nature of aesthetic attentiveness (2). Davey not only helps us to better understand Gadamer's re-orientation of aesthetics (the focus of chapter 1) and his philosophically robust account of the artwork, but he also critically and constructively questions Gadamer's insights, advancing and bringing them to bear on central issues in contemporary hermeneutics, philosophy of art and literature, aesthetics, and the humanities.

Davey's analysis and constructive development of Gadamer's contributions intersect with broader philosophical concerns of interest to both analytic and continental philosophical traditions. For example, is an excess of meaning a problem that constricts one's understanding of the aesthetic or does it enlarge one's understanding? Is ambiguity and multiplicity

of meaning something to be embraced (as Derrida and other contemporary thinkers claim) or avoided? Given certain readings of Gadamer as a traditionalist averse to ambiguity and fluidity, some might be surprised that his hermeneutical aesthetics is quite at home with polysemy, excess of meaning, and ever-open 'unfinished' worlds.

One of the central claims on which Davey dwells is Gadamer's proposal that artworks address us. That is, hermeneutical aesthetics maintains that artworks possess a meaningful content and such meaning is relational. In the experience of art's address, the viewer or auditor is both drawn in by the work and actively participates in its occurrence. Art's address has the capacity to transform one's horizon. As Davey explains, such a transformative experience

entails the cognitive relations within a spectator's outlook being transformed by those which constitute the work. This is made possible because of the surplus of meaning attached to visual signs and symbols as well as to the images of literature and poetry. (2)

Such symbols and literary ideas have the ability to function as placeholders in multiple discourses. This 'transactional capacity' of symbols and poetic and literary ideas, and what Gadamer calls 'subject-matters' (*Sachen*), allows a key term in one's home horizon to be 'transformed when that term meets different deployments within a foreign horizon' (2). In such an encounter, one's horizon is not superseded but rather acquires a significantly expanded, enriched form. This account of the transactional or placeholder capacity of symbols and subject-matters to operate across different horizons or frameworks of meaning not only provides an explanation of the structure of transformative experiences in art, but it also clarifies how 'the transformative capacity of interdisciplinary

## **Unfinished Worlds Hermeneutics Aesthetics And Gadamer Crosscurrents Eup:**

Unfinished Worlds Nicholas Davey, 2013-11-18 Gadamer's aesthetics demonstrates that the experience of art is grounded in the objectivities of language history and tradition. By treating words and images as transmittable placeholders for meanings and concepts, hermeneutics gives a persuasive account of how artworks communicate. Davey demonstrates how hermeneutics transforms aesthetic reflection into a poignant attentive practice that is open to the unexpected. This new poetics is relevant not only to the understanding of art but also to showing, explaining, and defending the cognitive content of the humanities. Hermeneutic aesthetics provides a sound basis for rethinking humanities disciplines as critical creative practices able to reenvision the future.

Unfinished Worlds Nicholas Davey, 2013 Hans Georg Gadamer's poetics completely overturns the European aesthetic tradition. This full-length study in English of Gadamer's aesthetics draws on a significant proportion of Gadamer's latter essays on art and aesthetics. It explores the far-reaching consequences of Gadamer's hermeneutical critique of aesthetics.

Event Universe Leemon B. McHenry, 2015-07-01 Leemon McHenry argues that Whitehead's metaphysics provides a more adequate basis for achieving a unification of physical theory than a traditional substance metaphysics drawing on Maxwell, Einstein, Quine, Russell, and Broad.

Figure of This World Mathew Abbott, 2014-01-08 What if we've been wrong when reading Agamben? Mathew Abbott argues that Agamben's thought is misunderstood when read in terms of critical theory or traditional political philosophy. Instead, he shows that it engages with political ontology, studying the political stakes of the question of being. Abbott demonstrates the crucial influence of Martin Heidegger on Agamben's work, locating it in the post-Heideggerian tradition of the critique of metaphysics. As he clarifies it, Abbott links Agamben's philosophy with Wittgenstein's picture theory and Heidegger's concept of the world picture, showing the importance of this for understanding and potentially overcoming the forms of alienation characteristic of the society of the spectacle.

*Philosophy, Animality and the Life Sciences* Wahida Khandker, 2014-07-21 Using animals for scientific research is a highly contentious issue that Continental philosophers engaging with the animal question have been rightly accused of shying away from. Now Wahida Khandker asks whether Continental approaches to animality and organic life will make us reconsider our treatment of non-human animals. By following its historical and philosophical development, she argues that the concept of pathological life as a means of understanding organic life as a whole plays a pivotal role in refiguring the human-animal distinction. She explores the significance of this across philosophy and the life sciences through the work of a number of key thinkers of life and process from Henri Bergson to Donna Haraway.

*The Aesthetic Hermeneutics of Hans-Georg Gadamer and Hans Urs Von Balthasar* Jason Paul Bourgeois, 2007 Through a comparison of their aesthetics and hermeneutics, this book reveals that both Gadamer and Balthasar reject an autonomous, neutral, distanced starting point for interpretation. Instead, they advocate a dialogical model in which interpreters allow themselves to be engaged by the truth of

the text or artwork at hand Both thinkers use aesthetic categories to describe this model of interpretation such as the neo Platonic category of radiance and both reflect a disclosure concealment theory of truth In recognizing that interpreters are part of an unfolding history and that the examination of historical texts cannot be done from a neutral standpoint they both acknowledge that textual interpretation must contain the dimension of dialogue with the past truths Significantly Balthasar incorporates these aesthetic and hermeneutical categories into an explicitly Trinitarian salvation history framework which is absent in Gadamer s thought This book concludes with the implications of an aesthetic hermeneutics for contemporary Roman Catholic theology and its dialogue with various schools of thought philosophical and religious arguing that the concrete particular forms of Christianity as expressed in Roman Catholicism cannot be bracketed or evacuated by Catholic theologians in the interest of achieving consensus in religious matters To the contrary it is precisely in these forms that we believe that God s revelation takes place

Gadamer Georgia Warnke,2013-05-08 Hans Georg Gadamer is one of the leading philosophers in the world today His philosophical hermeneutics has had a major impact in a wide range of disciplines including the social sciences literary criticism theology and jurisprudence Truth and Method his major work is widely recognised to be one of the great classics of twentieth century thought In this book Georgia Warnke provides a clear and systematic exposition of Gadamer s work as well as a balanced and thoughtful assessment of his views Warnke gives particular attention to the ways in which Gadamer s work has been taken up and criticised by literary critics social theorists and philosophers such as Hirsch Habermas and Rorty She thus provides an introduction to Gadamer which demonstrates the relevance of his work to current debates in a variety of disciplines This book will be invaluable to students and specialists throughout the humanities and social sciences as well as to anyone who is interested in the most important developments in contemporary thought

Gadamer's Hermeneutics and the Art of Conversation Andrzej Wierciński,2011 Gadamer s Hermeneutics and the Art of Conversation covers the nature of dialogue and understanding in Hans Georg Gadamer s linguistically oriented hermeneutics and its relevance for contemporary philosophy This timely collection of essays stresses the fundamental significance of the other for a further development of Heidegger s analytics of Dasein By recognizing the priority of the other over oneself Gadamerian hermeneutics founds a culture of dialogue sorely needed in our multi cultural globalized community The essays solicited for this volume are presented in three thematic blocks Hermeneutic Conversation Hermeneutics Aesthetics and Transcendence Hermeneutic Ethics Education and Politics The volume proposes a dynamic understanding of hermeneutics as putting into practice the art of conversation

**Gadamer on Tradition - Historical Context and the Limits of Reflection** Anders Odenstedt,2017-07-07 This book discusses Gadamer s theory of context dependence Analytical and partly critical the book also shows exegetical accuracy in the rendering of Gadamer s position It explores the following questions that Gadamer s theory of context dependence tries to answer in what way is thought influenced by and thus dependent on its historical context To what extent and in what way is the individual able to become

reflectively aware of and emancipate himself from this dependence The book takes Gadamer s wide interests into account e g issues relating to the history of historiography and the nature of art and aesthetic experience The problem of the context dependence of thought is prominent in contemporary philosophy including the fields of structuralism post structuralism deconstruction certain forms of feminist philosophy and the philosophy of science In this sense the book discusses an issue with wide repercussions
