Uniqueness Bible Catholics Discover Ultimate:

The Uniqueness of the Bible Larry Siekawitch, 2015-12-09 How do we know what is true about God and religion Ultimately this question boils down to whether we consider our supreme authority to be tradition or revelation In *The Uniqueness of the Bible* author Dr Larry Siekawitch explains that self and tradition fail as final arbiters of truth because humans are both finite and sinful incapable of supplying truth without error But if God has revealed His truth by revelation in such a way that is completely trustworthy and without error then that revelation is the obvious candidate for supreme authority because it is God Himself speaking God has revealed Himself and His ways in the Bible but how can we convince Jews Muslims Catholics and Mormons of this wonderful fact We do so by simply showing them the uniqueness of the Bible and convincing them of Gods ultimate authority This study deals with the Hebrew Scriptures and demonstrates how reliable and miraculous they are It then compares the Bible to the Koran particularly focusing on the New Testament and its amazing supernatural nature Finally *The Uniqueness of the Bible* examines Roman Catholicisms exaltation of tradition to equality with Scripture and the Mormon addition of the Book of Mormon This study seeks to present convincing evidence in order to help people see the superiority of the Bible to all other means of discovering spiritual truth **Catholic Bible Dictionary** Scott Hahn, 2009-06-16 More than a generation has passed since the appearance of the last major Catholic Bible dictionary It has been a fertile generation for biblical scholarship an eventful time for biblical archaeology and a fruitful time for the Church s interpretation of the Bible It is time for a new resource Scott Hahn internationally renowned theologian and biblical scholar has inspired millions with his insight into the Catholic faith Now he brings us this important reference guide written specifically for Catholics which contains more than five thousand clear and accessible entries and covers a wide range of people places and topics From Genesis to Revelation the whole of salvation history is presented and explained in smart easy to understand prose *Catholic Bible Dictionary* is an invaluable source of information insight and guidance for Catholics and others who are interested in enriching their understanding of Sacred Scripture Scott Hahn draws from two millennia of scholarship to create an accessible and comprehensive tool for deeper and more rewarding biblical study *The Uniqueness of Jesus* Leonard J. Swidler, Paul Mojzes, 2008-01-01 Since publication of his landmark book *No Other Name* Paul Knitter s work has crystallized discussions and defined some of the most basic questions in Christian theology This is so particularly in the debate over the uniqueness of Jesus as God s son and as all of humankind s sole redeemer In *The Uniqueness of Jesus* Knitter responds to the request of editors Leonard Swidler and Paul Mojzes to state the most adequate case for a viable Christian theology of religions and for the demands of living ecumenically in a religiously plural world The result is Knitter s five basic theses on the uniqueness of Jesus that comprise the opening statement of this dialogue In response a score of influential women and men comment on these five theses including Harvey Cox Monika Hellweg Hans Kung Wesley Ariarajah Clark H Pinnock Jose Miguez Bonino John McQuarrie Raimon Panikkar John Sanders John Mbiti Ingrid Shafer Michael

Alamados Kaja Ahlstrand Michael von Bruck John B Cobb Jr Kenneth Cragg Antony Fernando John Hick Karl Josef Kusche and Seiichi Yagi Knitter then responds to his critics some of whom he concedes make substantial points that reveal the difficulties of the road ahead

Origins of Life Volume II Vladivoj Valkovic, 2024-09-27 In *Origins of Life Volume II* life and its origin are inspected from traditional and unexpected points of view The book takes an interdisciplinary approach discussing astrobiology chemical evolution and how the Universe accommodates life molecular biology and philosophy It is an open minded approach fully referenced throughout and each chapter includes a further reading section for anyone wishing to learn more about that perspective on the origins of life First everything started with the Big Bang from nothing It appears now that everything was aiming toward our existence some 13 75 109 years later being capable of understanding it all We did it using powerful tools science philosophy and religion Although we appreciate the contributions made by philosophy and religion our contemplations and doubts are based on the plentiful scientific evidence provided The reader will be guided from make up of the life stage Universe tools and materials needed for the living matter to be formed in the small part of the Universe which one could call Human Neighborhood or the Local Universe It contains galaxies galaxy clusters and voids and the Milky Way and its satellites influencing each other during this time span The book is easy to read accompanied by numerous references it could be of use to the expert in the field as well as for curious minds with a scientific philosophical or religious background

Reclaiming the Bible Robert McAfee Brown, 1994-01-01 In this series of messages based on scripture the author demonstrates the vital applications of the Bible for our times dealing first with the greater words of faith such as love grace and reconciliation It then sheds light on various events in Jesus life and beyond A third group of messages shows the Bible addressing social issues such as sexuality and violence

Anthropology Susan A. Ross, 2012 Drawing on the wisdom and teaching experience of highly respected theologians the Engaging Theology series builds a firm foundation for graduate study and other ministry formation programs Each of the six volumes Scripture Jesus God Discipleship Anthropology and Church is concerned with retrieving carefully evaluating and constructively interpreting the Christian tradition Comprehensive in scope and accessibly written these volumes used together or independently will stimulate rich theological reflection and discussion More important the series will create and sustain the passion of the next generation of theologians and church leaders What does it mean to be human in the twenty first century Susan Ross explores this question through the lens of human desires for God freedom knowledge love and pleasure but also for power consumer goods self gratification and money Beginning with biblical narratives of human desires she goes on to consider how ancient medieval and modern thinkers have wrestled with the various ways that human beings have sought fulfillment in the world and in God The twenty first century brings new questions and continuing challenges In a world of increasing complexity and

fragmentation can we still talk about the self How have feminism and new thinking about sexuality changed the ways we think about ourselves How do we maintain our humanity in the face of monstrous human evil What do the findings of science say about our uniqueness as human beings Anthropology Seeking Light and Beauty offers a path through the many conflicting views of humanity suggesting a fuller way of living as we try to follow the example of Jesus *Catholic Particularity in Seventeenth-Century French Writing* Richard Parish, 2011-07-28 le christianisme est trange Pascal Pens es Pascal s assertion that Christianity is strange provides the theme for Richard Parish s exploration of Catholic particularity as it was expressed in the writing of the French seventeenth century This was a period of quite exceptional fertility in a range of genres apologetics sermons devotional manuals catechisms martyr tragedies lyric poetry polemic and spiritual autobiography Parish examines a broad cross section of this corpus with reference to the topics of apologetics physicality language discernment polemics and salvation and draws evidence both from canonical figures Pascal Bossuet F nelon St Fran ois de Sales Madame Guyon and from less easily available texts Parish aims to consider all those distinctive features that the heritage of the Catholic Reformation brought to the surface in France and to do so in support of the numerous ways in which Christian doctrine could be understood as being strange it is by turns contrary to expectations paradoxical divisive carnal and inexpressible These features are exploited imaginatively in the more conventional literary forms didactically in pulpit oratory and empirically in the accounts of personal spiritual experience In addition they are manifested polemically in debates surrounding penance authority inspiration and eschatology and often push orthodoxy to its limits and beyond in the course of their articulation This volume provides an unsettling account of a belief system to which early modern France often unquestioningly subscribed and shows how the element of cultural assimilation of Catholic Christianity into much of Western Europe only tenuously contains a subversive and counter intuitive creed The degree to which that remains the case will be for the reader to decide **Religious Thought in the Victorian Age** Bernard M. G. Reardon, 2014-09-12 An account of the intellectual and theological ferment of nineteenth century Britain the dynamic period when so many of the ideas and attitudes we take for granted today were first established including the impact of biblical criticism upon traditional theology and the belief in a social as well as a spiritual mission for the Church Key figures include Coleridge Newman Carlyle Matthew Arnold and F D Maurice Unavailable for some time the reappearance of this updated Second Edition will be welcomed by theologians and intellectual and literary historians alike **Report of the Commissioner of Education Made to the Secretary of the Interior for the Year ... with Accompanying Papers** United States.
