Jamie Glazov

United In Hate The Lefts Romance With Tyranny And Terror:

United in Hate Jamie Glazov, 2009 United in Hate analyzes the Left's contemporary romance with militant Islam as a continuation of the Left's love affair with communist totalitarianism in the twentieth century. Just as the Left was drawn to the communist killing machines of Lenin, Stalin, Mao, Pol Pot, and Castro, so too it is now attracted to radical Islam. Both the radical Left and radical Islam possess a profound hatred for Western culture for a capitalist economic structure that recognizes individual achievement and for the Judeo-Christian heritage of the United States. Both seek to establish a new world order: leftists in the form of a classless communist society and Islamists in the form of a caliphate ruled by Sharia law. To achieve these goals, both are willing to wipe the slate clean by means of limitless carnage with the ultimate goal of erecting their utopia upon the ruins of the system they have destroyed. **Jihadist Psychopath** Jamie Glazov, 2018-12-18 Every element of the formula by which the psychopath subjugates his victim, the Islamic Supremacist likewise uses to ensnare and subjugate non-Muslims. And in the same way that the victim of the psychopath is complicit in his own destruction, Western civilization is now embracing and enabling its own conquest and consumption. **The Trouble with Canada ... Still** William D. Gairdner, 2011-11-14 Two decades ago *The Trouble with Canada* sparked a conservative renewal and inspired a generation. Now in this completely revised update, William D. Gairdner rejoins the battle, showing that Canada suffered a disturbing regime change in the last quarter of the twentieth century and is now caught between two irreconcilable styles of government: top-down collectivism and bottom-up individualism. The result is a regime besotted with high taxation and big government, a welfare culture that rewards laziness and a hug-a-thug mentality that betrays justice. In *The Trouble with Canada*, Still, Gairdner puts familiar topics under a searing new light, and recent issues such as immigration, diversity, and corruption of the law are confronted head-on, yielding many startling and sure to be controversial conclusions. This book is a clarion call to arms for Canada to examine and renew itself before it is too late. *The Control Factor* Bill Siegel, 2012-02-16 For those who believe America is worth defending, *The Control Factor* explores the psychological maneuvers, fantasies, and entanglements we engage in to avoid clearly seeing the Islamic threat that confronts us. The prerequisite for developing necessary strategies to ensure our survival is taking responsibility for our perceptions and actions. *The Trump Effect* L. Rowland Archer, 2022-11-03 With the election of Donald Trump on November 8, 2016, Americans experienced a sense of relief and joy, knowing they could again participate in a vibrant business environment that offers them the power of self-determination and the freedom to pursue their life goals and live according to their faith, unencumbered by political correctness and the stifling ideology of creeping socialism. For the last fifty or so years, the dark side left, through academia, the entertainment industry, deep state bureaucrats, and the liberal big media, successfully been undoing the centuries-old institutions of free market economies, which has created unprecedented wealth worldwide. In its place, the dark side left have been molding these institutions to reflect their warped ideology of a new socialist world.

order with no boarder and based on a Marxist progressive left utopia an oxymoron if there ever is one The long term strategy for achieving their transition relies on undermining the economic engine by enacting burdensome big government regulations by imposing political correctness and identity politics into our daily conversations social interactions and norms and finally by attacking one s religious faith and values The dark side left s long march through the culture has resulted in the indoctrination of each new generation using the direct influence of academia movies and television programs the daily news coverage and government policy Miraculously as if by divine intervention after just one year of his presidency Donald Trump has managed to force into the open this sinister plot by the dark side left with the world now acutely aware of the serious bias of the liberal big media the corruption present at the senior levels of the intelligence branches left behind by the Obama administration the serious extent of liberal bias in academia and their effort to restrict free speech and the self interest of lawmakers seeking self enrichment from Washington s swamp dwelling domestic and foreign lobbyists With his unwavering commitment to work on behalf of the American people Trump has almost single handedly inflicted journalists and the political elites with varying degrees of Trump derangement syndrome and exposing their warped self serving values resulting in them becoming almost totally incapable of providing unbiased insightful political arguments on current issues for their audience Because of President Trump the world is witnessing the excruciating collapse of the dark side left and the Washington swamp His ability to navigate through the minefields laid by the bipartisan swamp and the liberal big media can only be answered through our faith in God who in all his wisdom has chosen this man to save free market countries and its people from the evils of the dark side left and their elitist minions

Christianity, Islam and Atheism William Kilpatrick,2012-09-26 For many

Americans the attack on the World Trade Center on September 11 2001 was the first time they had considered Islam Were the terrorists motivated by the true dictates of their religion or had they hijacked Islam as well as the planes in a political cause unrelated to the teachings of Muhammad Christianity Islam and Atheism argues that Islam is a religion of conquest and subjugation and that in spite of 9 11 and thousands of other terrorist attacks throughout the world many in the West still do not know or admit this because it conflicts with their multiculturalism and their belief in the equivalence of all cultures and religions To meet the challenge from Islam Christians need to know more about the important differences between Islam and Christianity yet many have been lulled into complacency by the misleading and largely unexamined assumption that the two religions are similar The time that Christians spend in pursuing common ground is time that Islamic activists will use to press their radical agenda In addition to challenging both the multicultural and common ground approaches William Kilpatrick also exposes the role played by atheists and secularists in advancing Islam Despite paying lip service to freedom radical secularists serve as enablers of radical Islam The civil liberties that the West enjoys are the fruit of Christian civilization Kilpatrick argues and only a reawakened Christianity can defend them against Islam's advance Radical Identity Politics Torben Bech Dyrberg, 2020-07-31 This book outlines significant traits of radical leftist identity politics In this type of discourse arguments are organized around global friend enemy schemes in ways that are at odds with the right left matrix of democracy This is shown by combining discourse analysis of how leftist critics argue in public debates centred on their reactions to the Charlie Hebdo massacre in 2015 and theoretical discussions on leftist identity politics orbiting around Schmitt Marcuse and Mouffe It is argued that the friend enemy approach sacrifices the egalitarian and libertarian core values of the Left leading it to adopt positions used to brand the reactionary Right It also holds that leftist identity politics undermines democracy by moralizing enmity and stigmatizing dissent and by promoting an elitist and relativist agenda Against this background the book looks at the nature of the right left distinction and its political functions in modern democracy This is further elaborated in relation to the works of Foucault and Rawls's analyses of parrhesia free speech and public reason which provide a more fruitful approach to right left and democracy than those based on enmity For Foucault and Rawls a vibrant pluralist democracy relies on the autonomy of politics which secures a space in which citizens are free and equal which is crucial for free speech and assembly They focus on issues related to the autonomy of politics and the freestanding nature of public reason right left as lateral political orientation coupled with fairness as political justification and the links between regime form and political community as decisive for democracy *Routledge Handbook of Democratization* Jeffrey Haynes, 2012-03-15 This exciting new handbook provides a global overview of the process of democratization offering chapter by chapter discussion at both the country and regional levels and examining the interaction between the domestic and external factors that affect the progression of countries from authoritarian to democratic rule Bringing together 29 key experts in the field the work is designed to contrast the processes and outcomes of democratic

reform in a wide range of different societies evaluating the influence of factors such as religion economic development and financial resources It is structured thematically into four broad sections Section I provides a regional tour d horizon of the current state of democratisation and democracy in eight regions around the world Section II examines key structures processes and outcomes of democratisation and democracy Section III focuses on the relationship between democratisation and international relations through examination of a range of issues and actors including the third and fourth waves of democracy political conditionality the United Nations the European Union the African Union and the Organisation of African States Section IV Examines the interaction between democratisation and development with a focus on poverty and inequality security human rights gender war and conflict resolution A comprehensive survey of democratization across the world this work will be essential reading for scholars and policy makers alike

The Secret Knowledge David Mamet, 2012-08-28 For the past thirty years David Mamet has been a controversial and defining force in theater and film championing the most cherished liberal values In some of the great movies and plays of our time his characters have explored the ethics of the business world embodied the struggles of the oppressed and faced the flaws of the capitalist system But in recent years Mamet has had a change of heart He realized that the so called main stream media outlets were irredeemably biased peddling a hypocritical suborned and deeply flawed worldview Now he employs his trademark intellectual force and vigor to take on all the key political and cultural issues of our times from religion to political correctness to global warming Back cover
