it and adding later volumes in subsequent years The book was primarily written as a defense of the later work of J M W Turner Ruskin argues that recent painters emerging from the tradition of the picturesque are superior in the art of landscape to the old masters He used the book to argue that art should devote itself to the accurate documentation of nature In Ruskin's view Turner had developed from early detailed documentation of nature to a later more profound insight into natural forces and atmospheric effects *Works for Works, Book 1* Gavin Keeney, 2022 *Works for Works Book 1 Useless Beauty* tackles legacy issues of intellectual property rights IPR in artistic production and academic scholarship and proposes a category or class of works that has no relation to IPR nor to proprietary regimes of copyright and academic privilege Keeney's book is a structuralist argument for establishing new forms of artistic scholarship that operate in direct opposition to established norms in both the art world and neoliberal academia and is also rigorously contextualized within past and present day arguments for and against patrimonial and paternalistic avant garde and normative forms of censure and conformity across cultural production *Works for Works Book 1 Useless Beauty* privileges an iterative generative and aleatory methodology for artistic scholarship with transmedia proposed as a tutelary form of editioning works against the dictates of the art academic complex This focus on generativity also invokes the dialectical operations historically associated with past avant gardes as they have negotiated an elective nihilism as an avenue for exiting established and authorized forms of conceptual and intellectual inquiry in the Arts and Humanities Gavin Keeney is Director of Agence X founded in New York New York in 2007 He completed a research doctorate in Architecture at Deakin University Australia in 2014 on the subject of Visual Agency in Art and Architecture His publications include *Dossier Chris Marker The Suffering Image* Cambridge Scholars Publishing 2012 *Knowledge Spirit Law Book 1 Radical Scholarship punctum* 2015 and *Knowledge Spirit Law Book 2 The Anti capitalist Sublime punctum* 2017 He has taught and lectured in architecture schools in the US England Slovenia Australia and India

Italian Medieval Sculpture in the Metropolitan Museum of Art and the Cloisters Metropolitan Museum of Art (New York, N.Y.), Lisbeth Castelnuevo-Tedesco, Jack Soltanian, 2010 The collection of Italian medieval sculpture in The Metropolitan Museum of Art and The Cloisters began with the acquisition in 1908 of a Romanesque column statue today the Museum's holdings comprise more than seventy works dating from the ninth to the late fifteenth century The birthplaces of these works range from Sicily to Venice some typify local styles others illustrate the intense artistic exchanges taking place within Italy and between Italy and the wider world Technological advances of the last decades have made it possible to determine more precisely the materials and techniques from which works of art are made the history of their alteration and the mechanisms of their deterioration Using such techniques scholars have been able to ascertain for example that sculptures previously

thought to be modern works carved in the medieval manner were in fact completely authentic This innovative volume represents a watershed in the study of sculpture a collaborative dialogue between an art historian and a conservator between art history and art science that deepens our understanding of the object we see while illuminating its elusive enigmatic history From publisher s description *Saints, Women and Humanists in Renaissance Venice* Patricia H.
