Venturing Inward Safe And Unsafe Ways To Explore The Unconscious Mind:

Venturing Inward Hugh Lynn Cayce, 2015-07-01 Cayce answers questions and explores methods to safely explore the unconscious mind and develop psychically and spiritually while warning against some methods that are deemed dangerous. All manner of exploration are included from hypnosis and mediumship to ESP experimentation and using dreams for guidance. Additional reports on possession, automatic writing, Ouija board dangers and more are also included. **The Forever Angels** P. M. H. Atwater, 2019-09-03 A groundbreaking study of the lifelong effects of near death experiences in the newly born babies, toddlers and children up to age five. Draws on interviews with nearly 400 childhood experiencers both fully matured and young as well as more than 40 years of NDE research involving over 5 000 people. Reveals how those who experience a near death state at a young age are profoundly affected for the rest of their lives including developing psychic and intuitive abilities, wisdom beyond their years and a pervasive feeling of being homesick for heaven. Investigates the wide awake consciousness of babies being born, womb memories and the experience of being alive on the other side of death. In this major study of near death experiences with the newly born babies, toddlers and children up to age five, NDE expert P M H Atwater reveals how those who experience a near death state or other worlds at a very young age are profoundly affected for the rest of their lives including developing psychic and intuitive abilities, higher intelligence and wisdom beyond their years and a pervasive feeling of being homesick for heaven. Drawing on interviews with nearly 400 childhood experiencers both fully matured and young, Atwater explores their accounts of what it is like to be alive on the other side of death as well as what makes them different from others, complemented by a deep analysis of statistical evidence from her more than 40 years of NDE research involving more than 5 000 people. She shows how in contrast to adult experiencers, child and infant experiencers of near death states cannot compare before with after as adults do because they don't have a before. The world of these forever angels is the life continuum, a stream of consciousness that has always existed and always will. Integrating where they once were with where they now are is a lifelong challenge. The author explores how those who have a near death experience very early in life or even in utero grow up different, sometimes geniuses, sometimes lost, yet unusually psychic and smart all at the same time. She reveals how these experiences and their knowledge of the afterlife affect the individual in many areas including family life, dating, health, education and spirituality as well as increasing the experiencer's potential for thoughts of suicide, out of body experiences and PTSD symptoms. Examining the forever angels' memories of the womb, birth, early childhood and the other world, Atwater investigates the wide awake consciousness of babies being born, the vivid recall of mature childhood, near death experiencers and how memory of the life continuum never fades nor does the desire to go back. **Wir waren im Himmel** P.M.H. Atwater, 2020-08-24 Als Kinder wurden wir in den Himmel geschickt und sind zurückgekehrt in ein Leben, das wir jetzt mit ganz neuen Augen sehen. Wenn Menschen in früherer Kindheit oder sogar bereits im Mutterleib eine Nahtoderfahrung gemacht haben, spüren sie die Auswirkungen meist ein Leben lang. Manche verfügen

bemerkenswerte psychische Fähigkeiten andere sind gesundheitlich labil oder fühlen sich verloren in ihrer irdischen Existenz Das zeigen Hunderte Erfahrungsberichte die die bekannte Nahtodforscherin P M H Atwater ausgewertet hat Diese Berichte eröffnen vollkommen neue unverstellte Einblicke in die Jenseitswelt wie Kinder sie erleben und fühlen auf bemerkende Weise vor Augen Das menschliche Bewusstsein überdauert selbst den Tod
