War Against The People Israel The Palestinians And Global Pacification:

War Against the People Jeff Halper, 2015-09-20 Shortlisted for the Palestine Book Awards 2016 Modern warfare has a new form The days of international combat are fading So how do major world powers maintain control over their people today This book is a disturbing insight into the new ways world powers such as the US Israel Britain and China forge war today It is a subliminal war of surveillance and whitewashed terror conducted through new high tech military apparatuses designed and first used in Israel against the Palestinian population Including nano technology hidden camera systems information databases on civilian activity automated targeting systems and unmanned drones it is used to control the very people the nation s leaders profess to serve Jeff Halper reveals that this practice is much more insidious than was previously thought As Western governments claw back individual liberties War Against the People is a reminder that fundamental human rights are being compromised for vast sections of the world and that this is a subject that should concern everyone

Pacification Mark Neocleous, 2025-02-18 This provocative book offers the first sustained critique of the theory and practice of pacification In his new book critical theorist Mark Neocleous engages in a sustained critique of the theory and practice of pacification Combining philosophical analysis with historical detail Neocleous analyses the development of pacification as a key concept through which capitalist modernity has been organized offering readers the first book that treats pacification as an important concept in the history of state power and capitalism Neocleous s approach is fourfold examining pacification as social warfare carried out through the ideology of peace as a form of social police carried out through mechanisms of security as law and order exercised through the permanent wars of class society and as the myriad practices of power designed to counter insurgency Making use of official documents of state the writings of counterinsurgency thinkers and the ideas perpetuated by practitioners of counterrevolution the book unravels the complex ways through which pacification generates new forms of social war and new modes of policing that reproduce capitalist order and fabricate obedient subjects Through expansive accounts of war and police and engaging with a range of topics from debt to death from stasis to civil war and from the police kettle to the politics of fear the book offers a provocative analysis of the ways in which state and capital combine to build a pacified social order

Decolonizing Israel, Liberating Palestine Jeff Halper, 2021-01-20 Extremely convincing Electronic Intifada For decades we have spoken of the Israel Palestine conflict but what if our understanding of the issue has been wrong all along This book explores how the concept of settler colonialism provides a clearer understanding of the Zionist movement s project to establish a Jewish state in Palestine displacing the Palestinian Arab population and marginalizing its cultural presence Jeff Halper argues that the only way out of a colonial situation is decolonization the dismantling of Zionist structures of domination and control and their replacement by a single democratic state in which Palestinians and Israeli Jews forge a new civil society and a shared political community To show how this can be done Halper uses the 10 point program of the One Democratic State Campaign as a guide for thinking

through the process of decolonization to its post colonial conclusion Halper s unflinching reframing will empower activists fighting for the rights of the Palestinians and democracy for all *Conflict Transformation and the Palestinians* Alpaslan Ozerdem, Chuck Thiessen, Mufid Qassoum, 2016-12-01 This book explores the challenges of transforming the violent conflict between the State of Israel and the Palestinians into just peace There are many challenges involved in the bottom up transformation of the violent structures that sustain the State of Israel s occupation of Palestinian territory This book examines these structures as it assesses the actors and strategies that are contributing to the termination of cycles of violence and oppression Consisting of contributions from both peace practitioners and academics who have conducted research within Israel and the occupied territory the volume utilises a multidisciplinary perspective to examine promising strategies for conflict transformation in Israel and the occupied Palestinian territory Moreover it spells out the types of nonviolent strategy that are being used to expose and undermine occupation structures and surveys the manner in which a variety of key actors are working towards the transformation of the ongoing conflict As a whole the volume presents a proposal for the transformation of the conflict between Palestinians and the State of Israel that embraces the constructive potential of conflict engages with power asymmetry and pushes for justice and accountability This book will be of much interest to students of conflict resolution peace studies Middle Eastern studies the Arab Israeli conflict and IR in general

The Palestinians and East Jerusalem Bruno Huberman, 2023-12-28 Over the last two decades the Israeli government has implemented policies for the development of East Jerusalem These comprise urban revitalization as well as professional training and the promotion of entrepreneurship for the Palestinians But how do these policies co exist under Israeli settler colonial power This book focuses on the contradiction between the rise of neoliberal development in East Jerusalem and the simultaneous continuation of Israeli settler colonialism It argues that the combination of settler colonialism and neoliberalism allows for the primitive accumulation of capital to also occur permanently through deceptive soft forms More than this based on theoretical research interviews and an analysis of race and class relations in East Jerusalem the book shows that neoliberal development is used to facilitate the reproduction of racial hierarchies settler privileges and the pacification of the Palestinian residents where these outcomes are presented as the natural result of market relations The author calls this environment neoliberal settler colonialism and explores Palestinians new acts of resistance that exist ambivalently within this structure A significant theoretical contribution the study highlights a new settler colonial and neoliberal sociability that co opts the exploited and oppressed *Continental Philosophy and the Palestinian Question* Zahi Zalloua, 2017-02-23 From Sartre to Levinas continental philosophers have looked to the example of the Jew as the paradigmatic object of and model for ethical inquiry Levinas for example powerfully dedicates his 1974 book *Otherwise than Being* to the victims of the Holocaust and turns attention to the state of philosophy after Auschwitz Such an ethics radically challenges prior notions of autonomy and comprehension two key ideas for traditional ethical theory and more generally the Greek tradition It seeks to respect the

opacity of the other and avoid the dangers of hermeneutic violence But how does such an ethics of the other translate into real everyday life What is at stake in thinking the other as Jew Is the alterity of the Jew simply a counter to Greek universalism Is a rhetoric of exceptionalism with its unavoidable ontological residue at odds with shifting political realities Within this paradigm what then becomes of the Arab or Muslim the other of the Jew the other of the other so to speak This line of ethical thought in its desire to bear witness to past suffering and come to terms with subjectivity after Auschwitz arguably brackets from analysis present operations of power Would then a more sensitive historical approach expose the Palestinian as the other of the Israeli Here Zahi Zalloua offers a challenging intervention into how we configure the contemporary

Digital Jihad Erik Skare, 2016-10-15 A new and innovative

form of dissent has emerged in response to the Israeli occupation of Palestine. Dubbed electronic jihad, this approach has seen organized groups of Palestinian hackers make international headlines by breaching the security of such sites as the Tel Aviv Stock Exchange, AVG, Avira, WhatsApp, and BitDefender. Though initially confined to small clandestine groups, hacktivism is now increasingly being adopted by militant Palestinian parties including Hamas and Palestinian Islamic Jihad, who have gone so far as to incorporate hackers into their armed brigades. *Digital Jihad* is the first book to explore this rapidly evolving and still little understood aspect of the Palestinian resistance movement. Drawing on extensive interviews with hackers and other activists, it provides a unique and fascinating new perspective on the Palestinian struggle. *From the River to the Sea*

Mandy Turner, 2019-04-05 *From the River to the Sea: Palestine and Israel in the Shadow of Peace* provides original analyses of how different coping strategies were developed as well as new forms of political expression, interaction, and mobilization since the 1993 peace deal between the Palestine Liberation Organization and Israel. Its premise is that an historical realism is essential in order to develop a route out of the post-Oslo impasse that extended and solidified the power imbalance under the auspices of peace. The book includes chapters from experts across the disciplines of anthropology, economics, law, political science, and sociology to map out and critically assess the impacts and responses to this peace in different geographical and political settings. These innovative analyses also investigate processes that might enable a future to be built based on greater equality and an end to the oppression and violence that currently exists between the Jordan River and the Mediterranean Sea and beyond.

Peacemakers in Israel-Palestine Robert Hostetter, 2022-10-04 This book offers an analysis of the major sources of the Israeli-Palestinian conflict and suggests principles and processes for building a peacemaking platform. The primary aim of this book is to analyze the crucial roles and capacities of mid-level nongovernmental peacemakers as they provide unique approaches to transforming the Israel-Palestinian conflict. It also aims to analyze and experience dialogue as the primary mode of peacemaking communication. The two-part format of this book creates a structural dialogue. Part One provides an academic introduction to the Israeli-Palestinian conflict, why it matters, the role of identities, and strategies for transforming the conflict based on international law and human rights. Part Two is presented in a dialogue format providing further conflict analysis through storytelling and dialogues with peacemakers. This book will be of great interest to anyone engaged with peace and conflict transformation, ethnography, social justice, communication studies, and Middle Eastern studies, human rights, and international law.

Moving Memory Siri Schwabe, 2023-06-15 *Moving Memory* is an ethnography of remembrance in the field of tension between post-dictatorship Chile and occupied Palestine that offers new insights into memory politics as a globally resurgent and increasingly transnational phenomenon. It tells a largely untold story of a Palestinian diaspora, how a predominantly Christian conservative and wealthy elite has come to form the backbone of a

diasporic community to which the Palestinian struggle remains a central mobilizing force Schwabe explores how Palestinian diaspora politics play into larger attempts to obscure the recent Chilean past and its consequences all the while working to counter Zionist efforts to negate and erase Palestinian existence Despite considerable efforts to contain them memories move They travel across porous and ever changing geographical and socio political boundaries reconfiguring realities in the process In exploring the paradoxes of remembering and forgetting between Palestine and Chile as intertwining nodes in the complex field of global memory politics the book demarcates the limits and possibilities of forging solidarity at the fault lines of memory

Homeland security is rarely just a matter of the homeland it involves the circulation and multiplication of policing practices across borders Though the term homeland security is closely associated with the United States Israel is credited with first developing this all encompassing approach to domestic surveillance and territorial control Today it is a central node in the sprawling global homeland security industry worth hundreds of billions of dollars And in the wake of the 2008 Mumbai terrorist attacks India emerged as a major growth market Known as India s 9 11 or simply 26 11 the attacks sparked significant public pressure to adopt modern homeland security approaches Since 2008 India has become not only the single largest buyer of Israeli conventional weapons but also a range of other surveillance technology police training and security expertise Pairing insights from science and technology studies with those from decolonial and postcolonial theory Fabricating Homeland Security traces 26 11 s political and policy fallout concentrating on the efforts of Israel s homeland security industry to advise and equip Indian city and state governments Through a focus on the often unseen and overlooked political struggles at work in the making of homeland security Rhys Machold details how homeland security is a universalizing project which seeks to remake the world in its image and tells the story of how claims to global authority are fabricated and put to work
