Introduction to Moral Theology Romanus Cessario, 2013 Originally published in 2001 Introduction to Moral Theology responded to the need for a new introduction to the basic and central elements of Catholic moral theology written in the light of Veritatis splendor Since then it has become a standard text for students and a reputable resource on such topics as moral theology and the good of the human person created in God s image natural law principles of human action determination of the moral good through objects ends and circumstances and the virtues gifts of the Holy Spirit and the Beatitudes ABOUT THE SERIES The Catholic Moral Thought series is designed to provide students with a comprehensive presentation of both the principles of Christian conduct and the specific teachings and precepts for fulfilling the requirements of the Christian life Soundly based in the teaching of the Church the volumes set out in depth in a manner and style suitable for scholars students and general readers the basic principles of Catholic moral thought and the application of those principles within areas of ethical concern that are of paramount importance today In its initial phase the series includes an introductory volume and

volumes on sexual ethics bioethics and social ethics ABOUT THE AUTHOR Romanus Cessario OP is professor of systematic theology at St John s Seminary in Brighton Massachusetts He has authored coauthored or edited several books including The Moral Virtues and Theological Ethics A Short History of Thomism and Christian Faith and the Theological Life PRAISE FOR THE ORIGINAL EDITION Introduction to Moral Theology is an auspicious solid beginning for an important new series More than other disciplines moral theology needs to be thought through again and again in the teeth of changing habits symbols and mores Solid not trendy guidelines are needed Michael Novak American Enterprise Institute A learned and traditional Catholic account of Aquinas s vision of the moral life Choice Cessario does a splendid job of introducing the series Essential reading for advanced undergraduate and graduate students of theology First Things A splendid book on moral theology This book depicts in a grand style and well argued fashion what shape reflection on moral theology must take when one embraces moral realism Cessario does not reduce the moral life to will and obligation but embraces the totality of the human person made in the imago Dei who seeks beatitude as part of a created world Advanced undergraduates seminarians and graduate students will benefit greatly from the fact that Cessario always notifies the reader of areas of significant disagreement and nonetheless provides a reasoned argument for navigating these areas in favor of moral realism The book includes thorough footnotes and an extensive bibliography that provide an excellent starting point for students and scholars alike to deepen their acquaintance with the voluminous secondary literature on St Thomas Aquinas and moral theology Nova et Vetera Cessario has established himself as one of the leading scholars in the field of Roman Catholic moral theology and those expecting to find a probative discussion of the essential features of the Thomistic articulation of that tradition will not be disappointed It is a masterful presentation The work is the product of a master theologian a loyal servant of the church and the efforts required to keep pace with his insights are well worth it There are no viable competitors on the horizon of moral theology Teachers more familiar with the features of that tradition can easily rely on Cessario s work to spawn within the classroom a series of very useful reflections Newcomers will profit from the sweeping and vital The Doctrine of God and Theological Ethics Michael Banner, Alan Torrance, 2006-08-29 This book addresses an important topic and fills a major gap in developments in modern theology and Christian ethics Significant treatments include Wolfhart Pannenberg s historical overview of the relationship between modernism and Christian faith John Webster s meticulous analysis of Christian theology s contribution to modern conceptions of conscience J L O Donovan s critique of liberal contractarian theory and Alasdair MacIntyre s examination of the critical issues which Christianity raises for secular philosophy **Beginnings:** **Interrogating Hauerwas** Brian Brock, Stanley Hauerwas, 2017-02-09 Stanley Hauerwas is arguably the most well known figure in theological ethics of the last generation Having published voluminously over the last 30 years late in his career he has also published two volumes of essays discussing his corpus retrospectively as well as a widely acclaimed memoir The sheer volume of his work can be daunting to readers and it is easy to get the impression that his retrospective volumes are

restating positions developed earlier Brian Brock delves into Hauerwas formation as a theologian at Yale his first book *Character and the Christian Life* and examines some of his early and outspoken criticisms of the guild of Christian ethics This chapter is followed by a discussion of his memoir *Hannah's Child* and raises tricky questions about the role of autobiography in Christian ethics as well as the troubling problem of race in the modern academy Brock explores Hauerwas work on disability his criticisms of the discipline of medical ethics and the role played by vulnerability in his work The next chapter examines his views on just war and pacifism here probing the sensitive issue of the role of gender in his work and leading into a discussion on the nature of the church's peaceable politics in which his supposed hyper ecclesiocentricism is examined Brock examines the role of virtue in Hauerwas thought and teases out why he hates to be called a virtue ethicist A final chapter asks him to respond to the recently levelled criticism that scripture does no work in his theology focusing especially on his under appreciated commentary on the gospel of Matthew The editor of this volume has managed to maneuver Hauerwas into positions where he has directly faced tricky questions that he normally does not discuss such as the accusation that he is racist too soft on Yoder or misogynist

Ethics at the Edges of Law Cathleen Kaveny, 2018 In *Ethics at the Edges of Law* Cathleen Kaveny argues that religious moralists should treat the law as a valuable conversation partner rather than a mere instrument for enforcing judgments about morality and public policy Using cases and concepts from tort law contract law and criminal law Kaveny shows how they can be used to illuminate the work of some of the most important contemporary Christian ethicists

Catholic Bioethics and the Gift of Human Life, Third Edition William E. May, 2013-07-26 In this revision of his already classic text William May shows us once again the wisdom of the Catholic Church's moral tradition in its application to contemporary bioethics Illuminating and engaging and with the attention to nuance that marks all of May's writing Edward J Furton M A Ph D Ethicist and Director of Publications The National Catholic Bioethics Center Since it was first published Dr May's text *Catholic Bioethics and the Gift of Human Life* has served an irreplaceable role in Catholic moral education His new revision adds clear systematic treatments of several additional issues of pressing moral concern to the Church and society Catholic educators everywhere will welcome this excellent revision I welcome it E Christian Brugger Associate Professor of Moral Theology Institute for the Psychological Sciences With so much bioethical thinking supporting the culture of death I can think of no better champion of a culture of life than Professor William E May Professor May has given us a book which is useful not only for its masterful summary of the moral magisterium on bioethics but also for its treatment of such issues as contraception artificial reproduction the care of the dying human experimentation and the definition of death and organ transplants Dr Mark S Latkovic Associate Professor of Moral Theology Sacred Heart Major Seminary What the Church teaches and why on issues of euthanasia in vitro fertilization genetic counseling assisted suicide living wills persistent vegetative state organ transplants and more

God's Own Ethics Mark C. Murphy, 2017-04-14 Every version of the argument from evil requires a premise concerning God's motivation about the actions that God is

motivated to perform or the states of affairs that God is motivated to bring about The typical source of this premise is a conviction that God is obviously morally perfect where God s moral perfection consists in God s being motivated to act in accordance with the norms of morality by which both we and God are governed The aim of God s Own Ethics is to challenge this understanding by giving arguments against this view of God as morally perfect and by offering an alternative account of what God s own ethics is like According to this alternative account God is in no way required to promote the well being of sentient creatures though God may rationally do so Any norms of conduct that favor the promotion of creaturely well being that govern God s conduct are norms that are contingently self imposed by God This revised understanding of divine ethics should lead us to revise sharply downward our assessment of the force of the argument from evil while leaving intact our conception of God as an absolutely perfect being supremely worthy of worship

A Christian Approach to Corporate Religious Liberty Edward A. David, 2020-09-21 This book addresses one of the most urgent issues in contemporary American law namely the logic and limits of extending free exercise rights to corporate entities Pointing to the polarization that surrounds disputes like *Burwell v Hobby Lobby* David argues that such cases need not involve pitting flesh and blood individuals against the rights of so called corporate moral persons Instead David proposes that such disputes should be resolved by attending to the moral quality of group actions This approach shifts attention away from polarizing rights talk and towards the virtues required for thriving civic communities More radically however this approach suggests that groups themselves should not be viewed as things or persons in the first instance but rather as occasions of coordinated activity Discerned in the writings of Saint Thomas Aquinas this reconceptualization helps illuminate the moral stakes of a novel and controversial form of religious freedom

Thinking Straight About Being Gay T. M. Murray, 2015-08-14 Imagine a future scenario in which prospective parents will have the option to decide the sexual orientation of their offspring in the privacy of a doctors consultation room In the past liberals dreaded the intrusion of a paternalistic state apparatus into the minutiae of peoples private lives In the future they may have to fear the reverse that private reproductive decisions will impact the very demographic composition of future generations that make up the public Nowhere does this book claim that the ability to isolate a gay gene or similar genetic marker for homosexuality currently exists Rather it demonstrates how Christian bioethicists and liberal eugenicists have so far anticipated and addressed the seemingly implausible scenario just described and provides a liberal critique of the their arguments should pre natal selection for sexual orientation ever become a genuine possibility Murray provides an unprecedented survey of Christian bioethicists responses to the gay science of the 1990s and shows where they fit in a long religious tradition of stigmatizing and pathologizing homosexual people that stretches back to first century Christian communities This book contains no assertion that all people who identify as homosexual gay lesbian bi or transgender are born that way Nor does it suggest that being born that way is a necessary condition for granting full legal acceptance of homosexual behavior Rather it reveals how religious teachings about human sexuality have both

misrepresented the facts of human nature and misjudged their ethical significance Murrays analysis provides an opportunity for the universal and global church and those who object to homosexuality as less than innate to reconsider and learn new perspectives Reverend Rowland Jide Macaulay Founder CEO House Of Rainbow Fellowship Lagos Nigeria and London United Kingdom A fresh informative and challenging contribution to the scientific and ethical issues concerning homosexuality which debunks traditional Christian objections and tackles the emerging debate around the potential of genome editing to eliminate same sex behaviour Peter Tatchell human rights campaigner [Self Love and Christian Ethics](#) Darlene Fozard Weaver,2002-10-17 Publisher Description **Persons and Liberal Democracy** Edward Barrett,2010-07-17 Fundamentally Persons and Liberal Democracy is an explication and defense of classical liberalism It explains the relatively recent shift in the Church s political theory and in the process defends what could be deemed a non statist form of welfare liberalism After an introduction the first chapter contextualizes modern Catholic social thought explaining how the shift to a nuanced endorsement of liberal economic and political thought was initiated by the pragmatic economic and cultural analyses of nineteenth century social and liberal Catholics The next two chapters investigate one fruit of the subsequent re examination of the relationship of Catholicism to modernity John Paul s qualified acceptance of liberalism for non circumstantial ethical reasons appropriated from within the tradition While the second chapter details the phenomenological Thomistic and theological bases of his ethical premises the third chapter examines the relationship of these premises to the various aspects of his political theory particularly his theories of human rights and the complementary roles of the state and civil society in securing these rights Chapters four and five initiate a dialogue between this analysis of John Paul s social thought and influential political theorists In the fourth chapter the dialogue is between John Paul and four Catholic interlocutors theoconservatives liberation theologians United States Conference of Catholic Bishops and British distributists The fifth chapter brings John Paul and Catholic social thought into conversation with communitarian critics of liberalism and evaluates the relationship of recent thought on civil society and federalism to the principle of subsidiarity Finally the conclusion highlights his most significant accomplishments and suggests areas for further development **What's the Good of Humanity?** Victor Lee Austin,Joel C. Daniels,2021-09-21 From a Christian perspective it could well be said that humanity a good gift of God is being undermined by the technology and thought patterns and practices of contemporary Western culture In response to what is seen as an attack many books have been written on the harm of these technologically driven practices These articles and books focus on what is wrong with euthanasia with surrogate motherhood with the denial of the male female difference and so forth Yet to make a compelling cultural witness it is more important for Christians to know what is right and essential that they be able to articulate the positive Why do babies matter What is the goodness embedded in being made male and female How can one approach death in a godly manner We need in other words to be able to give an account of God s Yes 2 Cor 1 20 the hope that is within us 1 Peter 3 15 In this collection of essays an ecumenical

group of scholars of diverse perspectives discuss these and other important questions in order to help discern what is good for humanity With contributions by Phillip Cary Donna Freitas Paul Hinlicky Edith M Humphrey Patrick Lee Gilbert Meilaender Nancey Murphy **Femenist Ethics and Natural Law** Cristina L. H. Traina, 1999-04-28 Heated debates over such issues as abortion contraception ordination and Church hierarchy suggest that feminist and natural law ethics are diametrically opposed Cristina L H Traina now reexamines both Roman Catholic natural law tradition and Anglo American feminist ethics and reconciles the two positions by showing how some of their aims and assumptions complement one another After carefully scrutinizing Aquinas s moral theology she analyzes trends in both contemporary feminist ethics theological as well as secular and twentieth century Roman Catholic moral theology Although feminist ethics reject many of the methods and conclusions of the scholastic and revisionist natural law schools Traina shows that a truly Thomistic natural law ethic nonetheless provides a much needed holistic foundation for contemporary feminist ethics On the other hand she offers new perspectives on the writings of Josef Fuchs Richard McCormick and Gustavo Gutierrez arguing that their failure to catch the full spirit of Thomas s moral vision is due to inadequate attention to feminist critical methods This highly original book proposes an innovative union of two supposedly antagonistic schools of thought a new feminist natural law that would yield more comprehensive moral analysis than either existing tradition alone This is a provocative book not only for students of moral theology but also for feminists who may object to the very notion of natural law ethics suggesting how each might find insight in an unlikely place The Historical Development of Fundamental Moral Theology in the United States Charles E. Curran, Richard A. McCormick, 1999 Sketches the development of fundamental moral theology in the U S and then uses original sources to document the significant changes that have occurred in the discipline as well as the primary issues in Catholic moral theology today *Ministers of the Law* Jean Porter, 2010-10-22 Jean Porter is John A O Brien Professor of Theology at the University of Notre Dame Her other books include *Natural and Divine Law* and *Nature as Reason*

Dialogue of Love Eduardo J. II Catholic Moral Theology in the United States Charles E. Curran, 2008-04-11 In this magisterial volume Charles E Curran surveys the historical development of Catholic moral theology in the United States from its 19th century roots to the present day He begins by tracing the development of pre Vatican II moral theology that with the exception of social ethics had the limited purpose of training future confessors to know what actions are sinful and the degree of sinfulness Curran then explores and illuminates the post Vatican II era with chapters on the effect of the Council on the scope and substance of moral theology the impact of *Humanae vitae* Pope Paul VI s encyclical condemning artificial contraception fundamental moral theology sexuality and marriage bioethics and social ethics Curran s perspective is unique For nearly 50 years he has been a major influence on the development of the field and has witnessed first hand the dramatic increase in the number and diversity of moral theologians in the academy and the Church No one is more qualified to write this first and only comprehensive history of Catholic moral theology in the United States
