The Pleasures of Japanese Literature Donald Keene, 1988 Perhaps no one is more qualified to write about Japanese culture than Donald Keene considered the leading interpreter of that nation's literature to the Western world The author editor or translator of nearly three dozen books of criticism and works of literature Keene now offers an enjoyable and beautifully written introduction to traditional Japanese culture for the general reader The book acquaints the reader with Japanese aesthetics poetry fiction and theater and offers Keene's appreciations of these topics Based on lectures given at the New York Public Library The Metropolitan Museum of Art and the University of California Los Angeles the essays though written by a renowned scholar presuppose no knowledge of Japanese culture Keene's deep learning in fact enables him to construct an overview as delightful to read as it is informative His insights often illuminate aspects of traditional Japanese culture that endure today One of these is the appreciation of perishability this appreciation is seen in countless little bits of Japanese life in temples made of wood instead of durable materials in the preference for objects such as pottery that are worn broken or used rather than new and in the national love of the delicate cherry blossom which normally falls after a brief three days of flowering Keene quotes the

fourteenth century Buddhist monk Kenko who wrote that the most precious thing about life is its uncertainty Throughout the volume Keene demonstrates that the rich artistic and social traditions of Japan can indeed be understood by readers from our culture This book will enlighten anyone interested in Japanese literature and culture *Traditional Japanese Literature*

The Columbia Anthology of Modern Japanese Literature J. Thomas Rimer, 2011-11-15. Featuring choice selections from the core anthologies *The Columbia Anthology of Modern Japanese Literature From Restoration to Occupation 1868-1945* and *The Columbia Anthology of Modern Japanese Literature From 1945 to the Present*, this collection offers a concise yet remarkably rich introduction to the fiction, poetry, drama, and essays of Japan's modern encounter with the West. Spanning a period of exceptional invention and transition, this volume is not only a critical companion to courses on Japanese literary and intellectual development but also an essential reference for scholarship on Japanese history, culture, and interactions with the East and West. The first half covers the three major styles of literary expression that informed Japanese writing and performance in the late nineteenth and early twentieth centuries: classical Japanese fiction and drama, Chinese poetry, and Western literary representation and cultural critique. Their juxtaposition brilliantly captures the social, intellectual, and political challenges shaping Japan during this period, particularly the rise of nationalism, the complex interaction between traditional and modern forces, and the encroachment of Western ideas and writing. The second half conveys the changes that have transformed Japan since the end of the Pacific War, such as the heady transition from poverty to prosperity, the friction between conflicting ideologies and political beliefs, and the growing influence of popular culture on the country's artistic and intellectual traditions. Featuring sensitive translations of works by Nagai Kafu, Natsume Soseki, Ōe Kenzaburō, Kawabata Yasunari, Mishima Yukio, and many others, this anthology relates an essential portrait of Japan's dynamic modernization.
