Undoing Border Imperialism Anarchist Interventions:

Undoing Border Imperialism Harsha Walia, 2013-10-14 Undoing Border Imperialism combines academic discourse lived experiences of displacement and movement based practices into an exciting new book By reformulating immigrant rights movements within a transnational analysis of capitalism labor exploitation settler colonialism state building and racialized empire it provides the alternative conceptual frameworks of border imperialism and decolonization Drawing on the author's experiences in No One Is Illegal this work offers relevant insights for all social movement organizers on effective strategies to overcome the barriers and borders within movements in order to cultivate fierce loving and sustainable communities of resistance striving toward liberation The author grounds the book in collective vision with short contributions from over twenty organizers and writers from across North America

Undoing Border Imperialism Harsha Walia, 2014-02-15 Harsha Walia has played a central role in building some of North America's most innovative diverse and effective new movements That this brilliant organizer and theorist has found time to share her wisdom in this book is a tremendous gift to us all Naomi Klein author of The Shock Doctrine Undoing Border Imperialism combines academic discourse lived experiences of displacement and movement based practices into an exciting new book By reformulating immigrant rights movements within a transnational analysis of capitalism labor exploitation settler colonialism state building and racialized empire it provides the alternative conceptual frameworks of border imperialism and decolonization Drawing on the author's experiences in No One Is Illegal this work offers relevant insights for all social movement organizers on effective strategies to overcome the barriers and borders within movements in order to cultivate fierce loving and sustainable communities of resistance striving toward liberation The author grounds the book in collective vision with short contributions from over twenty organizers and writers from across North America Harsha Walia is a South Asian activist writer and popular educator rooted in emancipatory movements and communities for over a decade Praise for Undoing Border Imperialism Border imperialism is an apt conceptualization for capturing the politics of massive displacement due to capitalist neoglobalization Within the wealthy countries Canada's No One Is Illegal is one of the most effective organizations of migrants and allies Walia is an outstanding organizer who has done a lot of thinking and can write not a common combination Besides being brilliantly conceived and presented this book is the first extended work on immigration that refuses to make First Nations sovereignty invisible Roxanne Dunbar Ortiz author of Indians of the Americas and Blood on the Border Harsha Walia's Undoing Border Imperialism demonstrates that geography has certainly not ended and nor has the urge for people to stretch out our arms across borders to create our communities One of the most rewarding things about this book is its capaciousness astute insights that emerge out of careful organizing linked to the voices of a generation of strugglers trying to find their own analysis to build their own movements to make this world our own This is both a manual and a memoir a guide to the world and a guide to the organizer's heart Vijay Prashad author of The Darker Nations A People's History of the Third World This

book belongs in every wannabe revolutionary's war backpack I addictively jumped all over its contents a radical mixtape of ancestral wisdoms to present day grounded organizers theorizing about their own experiences A must for me is Walia's decision to infuse this volume's fight against border imperialism white supremacy and empire with the vulnerability of her own personal narrative This book is a breath of fresh air and offers an urgently needed movement based praxis Undoing Border Imperialism is too hot to be sitting on bookshelves it will help make the revolution Ashanti Alston Black Panther elder and former political prisoner

The Epistemology of Disasters and Social Change Jordan Pascoe, Mitch Stripling, 2024-05-09 An earthquake in Mexico City spurs the rise of democracy A plague in South Africa lays the foundations for apartheid A terrorist attack on New York City triggers massive shifts in global security A global pandemic sets the stage for the largest civil rights protests in generations Beyond their physical impact disasters assault our certainty and shape a narrow space to alter the structure of what we believe That change can lead us toward disinformation and authoritarianism or it can lead us toward greater solidarity and human rights It all depends on the choices we make as we live through crisis on how in fact we choose to know each other The Epistemology of Disasters and Social Change draws on social epistemology disaster sociology psychology and feminist philosophy to investigate how disasters function as cauldrons of social transformation for good and ill We wrestle with how disasters change us moment by moment and provide new strategies to help these tragic events produce positive social transformation leading to a brighter future during this century of crisis

Unsettling Gilberto Rosas, 2023-03-28 Unsettling

is a sharp uncompromising interrogation of the transformation of the southern edge of the United States into a zone of migrant sacrifice and suffering which culminates in a racist mass execution of twenty two people in August 2019 in El Paso Texas

Against Borders Alex Sager, 2020-01-13 This book provides a philosophical defence of open borders Two policy dogmas are the right of sovereign states to restrict immigration and the infeasibility of opening borders These dogmas persist in face of the human suffering caused by border controls and in spite of a global economy where the mobility of goods and capital is combined with severe restrictions on the movement of most of the world's poor Alex Sager argues that immigration restrictions violate human rights and sustain unjust global inequalities and that we should reject these dogmas that deprive hundreds of millions of people of opportunities solely because of their place of birth Opening borders would promote human freedom foster economic prosperity and mitigate global inequalities Sager contends that studies of migration from economics history political science and other disciplines reveal that open borders are a feasible goal for political action and that citizens around the world have a moral obligation to work toward open borders

Viapolitics William Walters, Charles Heller, Lorenzo Pezzani, 2021-11-15 Vehicles their infrastructures and the environments they traverse are fundamental to the movement of migrants and states attempts to govern them This volume's contributors use the concept of viapolitics to name and foreground this contested entanglement and examine the politics of migration and bordering across a range of sites They show how these elements constitute a key site of knowledge and struggle in migratory processes and offer a privileged vantage point from which to interrogate practices of mobility and systems of control in their deeper histories and wider geographic connections This transdisciplinary group of scholars explores a set of empirically rich and diverse cases from the Spanish and European authorities attempts to control migrants entire trajectories to infrastructures of escort of Indonesian labor migrants from deportation train cars in the 1920s United States to contemporary stowaways at sea from illegalized migrants walking across treacherous Alpine mountain passes to aerial geographies of deportation Throughout *Viapolitics* interrogates anew the phenomenon called migration questioning how different forms of contentious mobility are experienced policed and contested Contributors Ethan Blue Maribel Casas Cortes Julie Y Chu Sebastian Cobarrubias Glenda Garelli Charles Heller Sabine Hess Bernd Kasperek Clara Lecadet Johan Lindquist Renisa Mawani Lorenzo Pezzani Ranabir Samaddar Amaha Senu Martina Tazzioli William Walters

Kramer, 2020-04-17 2020 Choice Outstanding Academic Title *Carbon Criminals Climate Crimes* analyzes the looming threats posed by climate change from a criminological perspective. It advances the field of green criminology through an examination of the criminal nature of catastrophic environmental harms resulting from the release of greenhouse gases. The book describes and explains what corporations in the fossil fuel industry, the U.S. government, and the international political community did or failed to do in relation to global warming. *Carbon Criminals Climate Crimes* integrates research and theory from a wide variety of disciplines to analyze four specific state corporate climate crimes: continued extraction of fossil fuels and rising carbon emissions; political omission/failure related to the mitigation of these emissions; socially organized climate change denial; and climate crimes of empire which include militaristic forms of adaptation to climate disruption. The final chapter reviews policies that could mitigate greenhouse gas emissions, adapt to a warming world, and achieve climate justice. *Démanteler les frontières* Harsha Walia, 2015-09-24T00:00:00-04:00 Alliant *th* orie politique Fanon Foucault Negri et d'autres et expérience de terrain. L'auteure aborde la question des droits migratoires dans le cadre d'une analyse critique du capitalisme mondialisé de l'exploitation et du racisme qui sont l'origine des frontières et de l'état nation.
