Social Medicine in the 21st Century Samuel Barrack,2011-04 PLoS Medicine s October 2006 issue contained a special collection of eleven magazine articles and five research papers devoted entirely too social medicine The collection featured many of the leaders in the field including Paul Farmer Arthur Kleinman David Satcher Nancy Scheper Hughes Dorothy Porter and Leon Eisenberg The Kaiser Family Foundation has conducted interviews with two of the authors of papers in this collection David Satcher and Paul Farmer In its launch issue in October 2004 PLoS Medicine signaled a strong interest in creating a journal that went beyond a biological view of health to incorporate socioeconomic ethical and cultural dimensions For example that first issue contained a policy paper on how the health community should respond to violent political conflict a debate on whether health workers should screen all women for domestic violence and a study on the global distribution of

risk factors for disease Two years on our October 2006 issue takes our interest even further It contains a special collection of ten magazine articles and five research papers devoted entirely to social medicine We are delighted that the collection features many of the leaders in the field including the renowned medical anthropologists Paul Farmer and Arthur Kleinman the former United States Surgeon General David Satcher and the Harvard professor of social medicine and psychiatry Leon Eisenberg Most of our readers have welcomed our inclusive view of what a medical journal should highlight Some however have been critical suggesting that we should publish less soft stuff and more hard science These critics might argue that in this era of stem cell research and the human genome project of molecular medicine and DNA microarray technology the notion of social medicine seems irrelevant and outmoded But the ultimate role of a medical journal is surely to contribute to health improvement and that means looking not just at molecules but at the social structures that contribute to illness The stark fact is that most disease on the planet is attributable to the social conditions in which people live and work The socially disadvantaged have less access to health services and get sicker and die earlier than the privileged Despite impressive technological advances in medicine global health inequalities are worsening

Every Fear Rick Mofina, 2025-01-26 On an ordinary morning Maria Colson takes her baby son Dylan to the corner store She turns her back for only a few seconds When she looks again she sees his empty stroller as Dylan is being abducted into a waiting van Maria climbs into the van but is violently thrown to the road where she is left for dead as the vehicle vanishes without a trace As Maria fights for her life and her anguished young husband keeps a bedside vigil the FBI and police across metro Sea Tac and Washington State search for Dylan Seattle Mirror reporter Jason Wade is under pressure to bring in a big story and the Colson kidnapping could be it It's certainly a bizarre case with pieces that just don't add up The Colsons are a hard working couple Former high school sweethearts No problems No enemies Then Jason and his dad a private detective haunted by his former life as a cop discover a grisly murder of a young woman that is somehow connected to the Colsons Now in a dark Seattle underground of desperate dreamers and ex convicts Jason embarks on an investigation that parallels one led by Homicide Detective Grace Garner They're both hunting for the one piece of the puzzle that connects the baby's disappearance with a spine tingling case of revenge And time is running out because whoever took little Dylan Colson is more dangerous than anyone could ever imagine With Every Fear Rick Mofina takes suspense to a whole new level in a heart pounding story that moves like a true crime case torn from today's headlines Rick Mofina is a former journalist who has interviewed murderers on death row flown over L A with the LAPD and patrolled with the Royal Canadian Mounted Police near the Arctic He's also reported from the Caribbean Africa and Kuwait's border with Iraq His
