Literatures ,1897 Subjectivism and Interpretative Methodology in Theory and Practice Fu-Lai Tony Yu,2020-02-15
 Contemporary social science in general and economics in particular are dominated by the method of logical positivism in the British tradition In contrast to the British philosophy Subjectivism and Interpretative Methodology in Theory and Practice adopts subjectivism and interpretation methodology to understand human behavior and social action Unlike positivism this subjectivist approach with its root in German idealism takes human experience as the sole foundation of factual knowledge All objective facts have to be interpreted and evaluated by human minds In this approach experience knowledge expectation plans errors and revision of plans are key elements Specifically this volume uses the subjectivist approach originated in Max Weber s interpretation method Alfred Schutz s phenomenology and Peter Berger and Thomas Luckmann s sociology of knowledge to understand economic and social phenomena The method brings human agency back into the forefront of analysis adding new insights not only in economics and management but also in sociology politics psychology and organizational behavior The way of the Cross: a contribution to the doctrine of Christian sanctity John Gregory Mantle,1896 **Philosophical Theology and Christian Doctrine** Brian Hebblethwaite,2008-04-15 Philosophical Theology and Christian Doctrine surveys and comments on recent work by philosophers of religion in the analytic tradition on the doctrines of the Christian creed Topics covered include creation Incarnation Trinity salvation and eschatology and the ultimate future of creation Comprehensive survey of core Christian doctrines **The Way of the Cross** J. Gregory Mantle,2017-11-21 Excerpt from The Way of the Cross A Contribution to the Doctrine of Christian Sanctity The cordial reception given to this book in five previous editions the testimonies from far and near to definite blessing as the result of pondering and appropriating its truths the exceedingly sympathetic welcome given to the book by the reviewers representing nearly every section of the Christian Church the demand for the volume now that it is out of print are surely sufficient reasons to warrant the issue of another edition The book first appeared more than a quarter of a century ago Instead of finding it necessary to change or modify this teaching of the Cross I find myself in accord with it more thoroughly than ever I have carefully revised these pages and now send forth the book again on an errand as I firmly believe of still larger usefulness About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Christian Doctrines for Global Gender Justice** Grace Ji-Sun Kim,Jenny Daggers,2015-06-04 This book develops creative imagining of traditional doctrines Chapters show the effectiveness of Latina mujerista evang lica womanist Asian American and white feminist imaginings in the furthering of global gender justice

Introduction to the Sociology of Missions Robert L.

Montgomery, 1999-11-30 While much work has been done to apply anthropological insights to the study of missions the sociological perspective has been generally neglected by missiologists This volume defines the sociology of missions as a discrete subdiscipline within the sociology of religion and provides a working set of conceptual resources for those involved in mission work to use in furthering their understanding of their task The author reviews the major areas of sociology that are most relevant to missions and presents his findings as a basis for discussion and a stimulus to further exploration of relevant sociological concepts and theories One of his main goals is to increase dialogue between missiologists and sociologists of religion by providing the former with a sociological perspective and the latter with a deeper understanding of the missionary enterprise
