Toronto Reciprocal Program 2015:

Reciprocal Learning for Cross-Cultural Mathematics Education Sijia Cynthia Zhu, Shu Xie, Yunpeng Ma, Douglas McDougall, 2020-12-15 This edited volume examines new ways of teaching mathematics through a cross cultural reciprocal learning project between sister schools in Canada and China. Situating teacher learning in the intersection of the two different school systems, curriculums and cultures of mathematics learning and teaching in both nations, this volume offers teachers a unique and much needed perspective on how practices between countries become more and more likely shaped by each other in the emerging global society. Born out of a comparative study project sponsored by the SSHRC, this volume compiles five years worth of findings from reciprocal partnerships between researchers, teachers, school administrators and students from both nations. Through the process of reciprocal learning and narrative inquiry, the research described in these chapters illuminates the unknown and shares newly created mathematics education knowledge. **West-East Reciprocal Learning in Teacher Education** Shijing Xu, Yibing Liu, Zuochen Zhang, Michael Connelly, Chenkai Chi, 2024-10-21 During this uncertain time, teacher education has never been more needed for West-East dialogues and Reciprocal Learning. Xu and Connelly's concept of reciprocal learning aims to harmonize the West-East dichotomy and foster appreciation in education and understanding of each other's culture and history. This book focuses on the field work done by the Teacher Education Research Team with chapter contributors from Canadian and Chinese professors, graduate students and pre-service teachers who have been deeply engaged in the RLP. Following Xu and Connelly's conceptual framework of Reciprocal Learning as Collaborative Partnership, the book begins with knowing the Teacher Education RLP, followed by doing the West-East reciprocal learning through the program. It concludes with a discussion of the envisioned future of the RLP and commentaries from distinguished scholars in teacher education, one from the West and the other from the East. *Narrative Inquiry into Reciprocal Learning Between Canada-China Sister Schools* Yuhua Bu, 2021-01-29 This edited volume explores how Chinese school-based educators learn from others and attain awareness in dialogue with the world in an era of increasing globalization and information exchange. Minzhu Primary School in Shanghai, China, and Bay Street School in Toronto, Canada, have been connected as sister schools of cross-cultural exchange since 2008. Together, they have explored ways to reciprocally learn in a cross-cultural partnership while remaining grounded in their home culture and language. In this book, chapter authors examine how Chinese school-based educators view themselves, understand others, and grow and develop as a consequence of a decade of cross-cultural reciprocal learning as sister schools. Further, the authors discuss prospects for future educational interactions between Canada and China. Educating for Citizenship in a Canada-China Sister School Reciprocal Learning Partnership Yishin Khoo, 2022-12-13 This book enriches the discourse around Global Citizenship Education in teacher education through the example of a teacher's experience in a Canada-China Sister School reciprocal learning landscape. Instead of positioning global citizenship teaching and learning as a set of fixed goals to be attained by

teachers alone this book approaches global citizenship teaching and learning as unfinished lifework in progress and as situated curriculum problems to be inquired together by university researchers school teachers and students under the spirit of reciprocity and community This reimagination of narratives theory and action start from collaborative and reciprocal learning partnerships among Chinese and Canadian researchers and teachers in the practicality of re searching and re enacting the purpose and meanings of twenty first century education in a Canada China Sister School setting

Reciprocal Learning between Canada and China in Language and Culture Education Shijing Xu,Luxin Yang,Yuhan Deng,Shuai Fu,2024-11-07 This book engages Canadian and Chinese language educators graduate students pre service teachers school principals and teachers in an enhanced reciprocal learning process by collaboratively reflecting on and writing up the school based language curriculum projects and school based language teachers professional development activities in Canada China sister schools The objective is to develop a knowledge base for generating positive reciprocal practitioner knowledge and methods to improve language teaching effectiveness in either context In this way it contributes to a public discussion of the reciprocal educational impacts on the knowledge based society in Canada and China

Pre-Service Teacher Education and Induction in Southwest China Ju Huang,2018-09-12 This book is a narrative inquiry that focuses on four participating Chinese teacher candidates cross cultural learning in Canada and stories of induction in Southwest China Through the lens of three dimensional inquiry space and reciprocal learning in teacher education the author explores the influence of cross cultural experiences on the dissonance of pedagogies teacher student relationships socialization and beliefs about teaching and learning that interweave global and national curriculum boundaries The chapters provide insight into how Chinese beginning teachers struggle to voice and to socialize among a cacophony of past practices lived experiences and cross cultural experiences

Historical Linguistics 2015 Michela Cennamo,Claudia Fabrizio,2019-09-15 The collection of articles presented in this volume addresses a number of general theoretical methodological and empirical issues in the field of Historical Linguistics in different levels of analysis and on different themes i phonology ii morphology iii morphosyntax iv syntax v diachronic typology vi semantics and pragmatics and vii language contact variation and diffusion The topics discussed often in a comparative perspective feature a variety of languages and language families and cover a wide range of research areas Novel analyses and often new diachronic data also from less known and under investigated languages are provided to the debate on the principles mechanisms paths and models of language change as well as the relationship between synchronic variation and diachrony The volume is of interest to scholars of different persuasions working on all

aspects of language change *West-East Reciprocal Learning in a Canada-China Sister School Network* Yishin Khoo, Michael Connelly, Shijing Xu, 2025-07-18 This volume provides a comprehensive cross cultural knowledge base and understanding of school education teacher education and the cultural contexts of education in China and the West It achieves this by bringing together diverse Chinese and Canadian school educators and educational researchers to reframe Sino Western relationships within the Canada China Sister School Network especially during a time of geopolitical tensions and uncertainties The authors demonstrate that intercultural reciprocal learning between Western and Chinese education is not merely a theoretical concept but a tangible reality embedded in the daily practices and actions of school educators and researchers It is this practical experiential and embodied understanding of West East reciprocal learning that holds educational hope and promise for the future forming the essence of this book *Teacher Education in Professional Learning Communities* Xuefeng Huang, 2018-06-20 This book explores the unique experiences of a sister school network in Canada and China contextualized through the lens of the Reciprocal Learning Project which supports the relationship between a school network and teacher education exchange program of two countries Huang uses theoretical viewpoints from teacher learning and comparative education research to analyse and interpret what has happened in the emerging cross cultural school network The book juxtaposes teacher learning and comparative education research from Shanghai and Ontario as teachers in the two places interact and provides detailed descriptions of teacher collaboration to show how these collaborations were initiated developed and sustained as well as the impact brought about from these collaborations The book offers a unique opportunity to examine how Canadian and Chinese teachers receive and react to opportunities of cross cultural collaboration and learning
