Dishes Pots Kitchens Markets Museum exhibitions These objects representations and environments are part of what the
volume calls the material cultures of food The book features leading scholars professionals and chefs who apply a material
cultural perspective to consider two relatively unexplored questions 1 What is the material culture of food and 2 How are
frameworks concepts and methods of material culture used in scholarly research and professional practice This book
acknowledges that materiality is historically and culturally specific local but also global as food both transcends and
collapses geographical and ideological borders Contributors capture the malleability of food its material environments and
stuff and its representations in media museums and marketing while following food through cycles of production circulation
and consumption As many of the featured authors explore food and its many material and immaterial manifestations not only
reflect social issues but also actively produce preserve and disrupt identities communities economic systems and everyday
social practices The volume includes contributions from and interviews with a dynamic group of scholars museum and
information professionals and chefs who represent diverse disciplines such as communication studies anthropology history
