Ufo Evaluating The Evidence:

U.F.O. Bill Yenne, Jay Olstad, Jacques F Vallee, PH.D., 1997 Take an objective look at the recurring sightings of unidentified flying objects and the official investigations and evaluation of those sightings with UFO Dozens of case histories are documented from regional reports of strange lights and shapes in the sky to firsthand accounts of mysterious spacecraft encountered at various places around the world Ongoing studies by governments universities and independent researchers have failed to explain many of the most puzzling cases Who and what to believe Features of this incisive investigation include More than 100 illustrations including photographs maps and eyewitness sketches An overview of the history of UFO observation Military and government interest in UFOs Exposes of discredited and infamous cases Evaluations of official reports then and now on the Roswell Incident Book jacket

A World of UFOs Chris A. Rutkowski, 2008-09-29 UFOs are a truly global phenomenon Although many of the best known cases have taken place in North America amazing stories of witnesses encounters with strange disc shaped objects and their occupants have come from every corner of the globe From a floating platform watched by dozens in Indonesia to a Saturn shaped object that flew over a ship off the coast of Brazil to a landing Down Under UFOs have been baffling witnesses and making headlines around the world What are some of the most interesting cases Which ones seem most mysterious And what can one of the worlds most active UFO researchers and investigators tell us about UFOs from A to Z Join Chris Rutkowski as he takes us on a tour of A World of UFOs

UFOs Jim Whiting, 2011-08 In 1947 the modern era of unidentified flying objects UFOs began But reports of these mysterious objects date back thousands of years Are we alone in the universe or is there really something out there observing us

UFO Stephen Gildust, 2025-06-10 As a ufologist I find the times we live in incredibly exciting Many recent events point to UFOs and their presence here on Earth Yes I am a firm believer in the existence of UFOs and I am entirely convinced that these phenomena are happening right now on Earth as well as having occurred far back in time There are simply too many stories sightings autopsies and other unexplained events throughout history to dismiss them However I had my own personal experience In the early 1970s during a field trip with my entire school class we witnessed a UFO up close A classic flying saucer slowly and safely hovered a few meters above the treetops We witnessed this phenomenon about 100 meters away in the open field watching for about 10 15 seconds The speed of the aircraft was probably similar to how quickly you or I would run the same 600 feet distance It was a spring morning with normal weather This experience ignited my interest in UFOs and after that I became fully convinced of the existence of this phenomenon That said I am also critical of various TV series books and other media that sensationalize these topics Not everything thats labeled as an alien encounter or UFO sighting is what it seems There are often many possible explanations for these phenomena But what would happen globally if all governments went public and said that UFOs and aliens exist Mass hysteria would probably break out immediately and the stock markets and the economy would collapse with people taking to the streets armed with guns Or do you think it would play out

differently I wish you good luck as you dive into this book and hope it gives you something to ponder Bonus material over 120 observations through history
