Churchill and the Dardanelles Christopher M. Bell, 2017-01-12 The failed naval offensive to force a passage through the Straits of the Dardanelles in 1915 drove Winston Churchill from office in disgrace and nearly destroyed his political career For over a century the Dardanelles campaign has been mired in myth and controversy Many believe it was fundamentally misconceived and doomed to fail while others see it as a brilliant concept that might have dramatically shortened the First World War and saved millions of lives Churchill is either the hero of the story or the villain Drawing on a wide range of original documents Christopher M Bell shows that both perspectives are flawed Bell provides a detailed and authoritative account of the campaign's origins and execution explaining why the naval attack was launched why it failed and how it was transformed into an even more disastrous campaign on the Gallipoli peninsula He untangles Churchill's complicated relationship with Britain's admirals politicians and senior civil servants and uncovers the machinations behind the bitter press campaign in 1915 to drive him from power Churchill and the Dardanelles explores the origins of the myths surrounding the ill-fated campaign and provides the first full account of Churchill's tireless efforts in the decades after 1915 to refute his legion of critics and convince the public that the Dardanelles campaign had nearly succeeded Largely by his own exertions Churchill ensured that the legacy of the Dardanelles would not stop him from becoming Prime Minister in 1940

Friends and enemies Karen Garner, 2021-08-17 This history of Anglo-American efforts to overturn Ireland's neutrality policy during the Second World War adds complexity to the grand narrative of the Western Alliance against the Axis Powers exploring relatively unexamined emotional personalised and gendered politics that underlay policymaking and alliance relations Friends and enemies combines the methodologies of diplomatic history through its close reliance on archival documentation with attention to new theoretical understandings regarding the roles played by personal friendships and enmities and competing masculine ideologies among national leaders Including Winston Churchill Franklin Roosevelt and Eamon de Valera and their close foreign policy advisers in London Washington DC and Dublin as they constructed national identities and defined their nations special relationships in time of war
