human Lugli recuperates overlooked perceptions of hair at the very moment when hair came to be identified as a potential vector for liberating culture and he corrects a centuries old prejudice that sees hair as a trivial subject as a mere female occupation kept on the margins of relevance relegated to passing fashion or the decorative As Lugli shows such oversight is anachronistic a product of modern biases and he corrects this by elucidating hundreds of fifteenth century sources that engage with hair as a fundamental element in the definition of genders morals and the laws of nature and the exercise of power It is a book that will surprise and delight a wide audience of scholars and anyone interested in the hidden systemic creative power that relied on something as unsuspected as hair to coerce people into thinking and behaving according to a code of conduct **The Athenæum** ,1853 **Athenaeum and Literary Chronicle** ,1853 **Aeneis, Bucolica,**
