Web Campaigning Acting With Technology:

Web Campaigning Kirsten A. Foot, Steven M. Schneider, 2006 Foot and Schneider examine the evolution of political campaign web practices

Political Campaigning on the Web Sigrid Baringhorst, Veronika Kneip, Johanna Niesyto, 2017-11-15 Drawing upon a common conceptual framework of political webcampaigning the book offers theoretical reflections on Internet based campaign politics It provides a comparative overview on the use of the Internet as a campaigning instrument by diverse intermediary political actors Taking the empirical findings of Internet appropriations into consideration the book discusses the impact of political webcampaigning on transnational democracy and the transformation of public spheres

Appropriating Technology Pierre Tchounikine, 2025-10-28 How we use digital technologies and make them our own Appropriation is the process by which we turn digital technologies into instruments for our own use Since we do not use technologies but rather our appropriations of them understanding why and how these appropriations develop is important and useful for both users and for designers However appropriation is an underexplored aspect of human computer interaction In *Appropriating Technology* Pierre Tchounikine explains that appropriation is constitutive of how we actually use things in practice and is different in nature from the initial process of learning to use a technology He provides an analysis of the phenomena at play and explains how the way we develop we evolve we learn is key how our human high level needs also play an important though often unconscious role how the current adaptation means offered by most technologies give us some degree of freedom to align technologies to our needs and desires although they are far from fully satisfactory and how these design aspects may be improved

Routledge Handbook of Internet Politics Andrew Chadwick, Philip N. Howard, 2008-08-18 The politics of the internet

has entered the social science mainstream From debates about its impact on parties and election campaigns following momentous presidential contests in the United States to concerns over international security privacy and surveillance in the post 9 11 post 7 7 environment from the rise of blogging as a threat to the traditional model of journalism to controversies at the international level over how and if the internet should be governed by an entity such as the United Nations from the new repertoires of collective action open to citizens to the massive programs of public management reform taking place in the name of e government internet politics and policy are continually in the headlines The Routledge Handbook of Internet Politics is a collection of over thirty chapters dealing with the most significant scholarly debates in this rapidly growing field of study Organized in four broad sections Institutions Behavior Identities and Law and Policy the Handbook summarizes and criticizes contemporary debates while pointing out new departures A comprehensive set of resources it provides linkages to established theories of media and politics political communication governance deliberative democracy and social movements all within an interdisciplinary context The contributors form a strong international cast of established and junior scholars This is the first publication of its kind in this field a helpful companion to students and scholars of politics international relations communication studies and sociology

When the Nerds Go Marching In Rachel K. Gibson,2020-08-03 When the Nerds Go Marching In examines the increasing role and centrality of the internet within election campaigns across established democracies since the 1990s Combining an extensive review of existing literature and comparative data sources with original survey evidence and web content analysis of digital campaign content across four nations the UK Australia France and the U S the book maps the key shifts in the role and centrality of the internet in election campaigns over a twenty year period Based on her findings Gibson speculates on the future direction for political campaigns as they increasingly rely on digital tools and artificial intelligence for direction and decision making during elections *Library & Information Science Abstracts* ,2008

The Internet Election John C. Tedesco,Andrew Paul Williams,2006-05-12 During the 2004 presidential campaign 63 million people used the Internet for political information 43 million discussed politics via e mail and 13 million used the Internet to make campaign contributions or arrangements for volunteer efforts For these reasons and more this presidential race has been termed the Internet election The Internet Election analyzes the unprecedented role of the Web in the 2004 presidential campaign This volume responds to the drastically changing political landscape and specifically its effect on the Bush Kerry race with an eye toward future elections Leading political communication scholars cover campaign websites grassroots organizing via the Internet candidate e mail strategies blogs online discourse about candidates spouses and the gendering of other than presidential candidates on websites Political strategists and Internet enthusiasts as well as political communication scholars and students will welcome this well researched and informative book
