The World Come of Age Lilian Calles Barger, 2018-07-02 On November 16 2017 Pope Francis tweeted Poverty is not an accident It has causes that must be recognized and removed for the good of so many of our brothers and sisters With this statement and others like it the first Latin American pope was associated in the minds of many with a stream of theology that swept the Western hemisphere in the 1960s and 70s the movement known as liberation theology Born of chaotic cultural crises in Latin America and the United States liberation theology was a trans American intellectual movement that sought to speak for those parts of society marginalized by modern politics and religion by virtue of race class or sex Led by such revolutionaries as the Peruvian Catholic priest Gustavo Guti rrez the African American theologian James Cone or the feminists Mary Daly and Rosemary Radford Ruether the liberation theology movement sought to bridge the gulf between the religious values of justice and equality and political pragmatism It combined theology with strands of radical politics social theory and the history and experience of subordinated groups to challenge the ideas that underwrite the hierarchical structures of an unjust society Praised by some as a radical return to early Christian ethics and decried by others as a Marxist takeover liberation theology has a wide raging cross sectional history that has previously gone undocumented In *The World Come of Age* Lilian Calles Barger offers for the first time a systematic retelling of the history of liberation theology demonstrating how a group of theologians set the stage for a torrent of new religious activism that challenged the religious and political status quo

French, Geneviève Fabre, 1979 *I Hear a Symphony* Andrew Flory, 2017-05-30 *I Hear a Symphony* opens new territory in the study of Motown's legacy arguing that the music of Motown was indelibly shaped by the ideals of Detroit's postwar black middle class that Motown's creative personnel participated in an African American tradition of dialogism in rhythm and blues while developing the famous Motown Sound Throughout the book Flory focuses on the central importance of crossover to the Motown story first as a key concept in the company's efforts to reach across American commercial markets then as a means to extend influence internationally and finally as a way to expand the brand beyond strictly musical products Flory's work reveals the richness of the Motown sound and equally rich and complex cultural influence Motown still exerts *Writing Reconstruction* Sharon D. Kennedy-Nolle, 2015-05-04 After the Civil War the South was divided into five military districts occupied by Union forces Out of these regions a remarkable group of writers emerged Experiencing the long lasting ramifications of Reconstruction firsthand many of these writers sought to translate the era's promise into practice In fiction newspaper journalism and other forms of literature authors including George Washington Cable Albion Tourgée Constance Fenimore Woolson and Octave Thanet imagined a new South in which freedpeople could prosper as citizens with agency Radically reenvisioning the role of women in the home workforce and marketplace these writers also made gender a vital concern of their work Still working from the South the authors were often subject to the whims of a northern literary market Their visions of citizenship depended on their readership's deference to conventional claims of duty labor reputation and property ownership The circumstances surrounding the production and circulation of their writing blunted the full impact of the period's literary imagination and fostered a drift into the stereotypical depictions and other strictures that marked the rise of Jim Crow Sharon D Kennedy Nolle blends literary history with archival research to assess the significance of Reconstruction literature as a genre Founded on witness and dream the pathbreaking work of its writers made an enduring if at times contradictory contribution to American literature and history **Encyclopedia of African American History, 1896 to the Present: D-I**, 2009 Alphabetically arranged entries from D to I that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century Teaching in America George S.
