We See A Different Frontier A Postcolonial Speculative Fiction Anthology:

We See a Different Frontier: A postcolonial speculative fiction anthology Djibril al-Ayad, Fabio Fernandes, 2013

This anthology of speculative fiction stories on the themes of colonialism and cultural imperialism focuses on the viewpoints of the colonized Sixteen authors share their experiences of being the silent voices in history and on the wrong side of the final frontier their fantasies of a reality in which straight cis able bodied rich anglophone white males don't tell us how they won every war and their revenge against the alien oppressor settling their new world

The Oxford Handbook of Science Fiction Rob Latham, 2014-09-01 The excitement of possible futures found in science fiction has long fired the human imagination but the genre's acceptance by academe is relatively recent No longer marginalized and fighting for respectability science fictional works are now studied alongside more traditional art forms Tracing the capacious genre's birth evolution and impact across nations time periods subgenres and media The Oxford Handbook of Science Fiction offers an in depth comprehensive assessment of this robust area of scholarly inquiry and considers the future directions that will dictate the terms of the scholarly discourse The Handbook begins with a focus on questions of genre covering topics such as critical history keywords narrative the fantastic and fandom A subsequent section on media engages with film television comics architecture music video games and more The genre's role in the convergence of art and everyday life animates a third section which addresses topics such as UFOs

The Year's Best Science Fiction: Thirty-First Annual Collection Gardner Dozois, 2014-07-15 In the new millennium what secrets lay beyond the far reaches of the universe What mysteries belie the truths we once held to be self evident The world of science fiction has long been a porthole into the realities of tomorrow blurring the line between life and art Now in The Year's Best Science Fiction Thirty First Annual Collection the very best SF authors explore ideas of a new world in the year's best short stories This venerable collection brings together award winning authors and masters of the field such as Robert Reed Alastair Reynolds Damien Broderick Elizabeth Bear Paul McAuley and John Barnes And with an extensive recommended reading guide and a summation of the year in science fiction this annual compilation has become the definitive must read anthology for all science fiction fans and readers interested in breaking into the genre

The Planetary Humanism of European Women's Science Fiction Eleanor Drage, 2023-10-13 The Planetary Humanism of European Women's Science Fiction argues that utopian science fiction written by European women has since the seventeenth century played an important role in exploring the racial and gender possibilities of the outer limits of the humanist imagination This book focuses on six works of science fiction from the UK France Spain and Italy Jennifer Marie Brissett's Elysium Nicoletta Vallorani's Sulla Sabbia di Sur and Il Cuore Finto di DR Aliette de Bodard's Xuya Universe series Elia Barcelo's Consecuencias Naturales and Historias del Crazy Bar a collection of stories by Lola Robles and Maria Concepcion Regueiro It sets these in conversation with key gender and critical race scholars Judith Butler Rosi Braidotti Gayatri Chakravorty Spivak Paul Gilroy and Jack Halberstam It asserts that a key concern for feminism anti racism

and science fiction now is to seek inventive ways of returning to the question of the human in the context of increasing racial and gender divisions Offering unique access to contemporary and historical women writers who have mobilised the utopian imagination to rethink the human this book is of use to those conducting research in Gender Studies Philosophy History and Literature *Black Cat Weekly #24* A.L.
